Under 50, 2021

## Welcome from the Vice-Chancellor

“At Oxford Brookes we put our students at the heart of everything we do. Now more than ever, we want each student to feel that they have the opportunities and support they need to flourish. University is about so much more than simply graduating with a degree. It’s about gaining independence and trying new things, and it’s also about feeling a sense of belonging. As an inclusive and forward-thinking university, we encourage all our students to feel confident in reaching their goals. We do this through high-quality teaching geared to the real world, through our strong connections with employers, and through support which recognises each student as an individual.

Ultimately, we want to inspire our students to discover their strengths, to develop their skills and thinking, and to leave Oxford Brookes with the belief that they can make a real difference to the world.”

**PROFESSOR ALISTAIR FITT, VICE-CHANCELLOR**

# Why Oxford Brookes?

## Opportunities are yours to take

“Whenever I wanted to expand, I was given the opportunity. For instance, I wanted to do something more creative and my academic adviser suggested I write for The Tab (Brookes’ online student paper). If there’s a direction you want to take your studies or life in, Brookes will provide the avenue that allows you to do it.”

PETER UTTLEY,  
ENGLISH LITERATURE

## The future’s bright

Many of our graduates **earn more than the UK average** when compared with those graduating from a similar course.

Destination of Leavers from  
Higher Education survey

## Support when you need it

“It was drilled into me in school that, because I was dyslexic, I would always fail on the academic and writing side of education. At Brookes, with extra support, I’ve managed to overcome my previous thinking and it’s allowed me to be as confident in writing as I am at creating art.”

TORI BAKER, FINE ART

## Global popularity

16% of our students are international, from more than

**140**  
countries.

HESA 2018/19

## A great place to be

“Brookes has a great atmosphere and that was what first attracted me at the Open Day. It’s a really positive place where you just feel welcome. There are also loads of opportunities to meet new friends, do things socially, and societies to join.”

CHARLOTTE KNAPP,  
ANTHROPOLOGY

## Time to shine

We are among the world’s top universities in

**13**  
individual subject areas.

QS World University  
Rankings by Subject 2020

# Let's get you started

From researching courses to attending open days, the process of applying for university can be a daunting task. But it doesn't have to be. Let us guide you through it.

## 1. Starting the journey: research

It is important to do plenty of research when looking at which universities to apply for. Look into the courses that interest you the most and what those courses could lead onto.

## 2. Order a Prospectus

By ordering this prospectus you already have lots of information to help you – remember to also check out the online webpages for further information.

## 3. Open Days

Open Days are a great way to visit us, hear from the academics who would teach you, and see the accommodation you could end up living in.

## 4. Application preparation

A good personal statement is an important part of the application process. We're interested in you as an individual, so tell us about yourself and what interests you!

## 5. Applying

Applying for university can be done in a variety of ways. UK students should apply through UCAS, whereas international students can apply via UCAS or directly through our website.

## 8. Student finance

If needs be, you should also apply for student finance at this point. Advice on fees and funding can be found on pages 146-148. If you are an international student, you will also need to pay a tuition fee deposit.

## 6. English language requirements

If your main language is not English, you will need to show us that your English is at the right level to enable you to study here successfully. See pages 140-141 for further information.

## 9. Accommodation

Once you've been made an offer, we'll contact you about accommodation options. You can choose to live in university halls, rent off a private landlord or live at home. Find out more about accommodation options on pages 28-30.

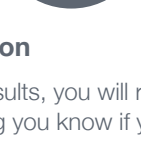

## 7. Applicant Days

All applicants are invited to an applicant event, where you can find out more about your chosen course and explore the university and city where you could end up living!

## 10. Results and confirmation

Once you have received your results, you will receive an update from the University letting you know if you have met the terms of the offer.

## 11. Visas

If you're an international student, you may need to apply for a visa to study here. We will send you guidance on this once your offer is confirmed.

## 12. Get yourself to Oxford!

The final step is enrolment and moving in. We run a welcome week of induction activities to help you settle in and make new friends.

# Meet our students

## Why did you choose Oxford Brookes?

"I came to Oxford Brookes because the staff were engaged and interested in me as an individual. The friendly, positive and open working environment is what I have enjoyed the most."

NAOMI ATHERTON, ARCHITECTURE

## How do you find student life in Oxford?

"Oxford is a beautiful city. It's smaller than what I'm used to (London), and I like that. Studying in coffee shops and reading in local parks never fails to make me happy."

JADA LEOPOLD, JAPANESE STUDIES

Jada

Naomi

Ashley

## What do you enjoy the most here?

"Oxford Brookes is an amazing university that offers everything that a student may need. I love that the course is challenging and makes us grow in the industry and gain experience throughout the course. My academic adviser has been a great support."

SABRINA ANDRADE, MEDIA, JOURNALISM & PUBLISHING

## How has Oxford Brookes made a big difference to you?

"The best thing about my course is definitely the support provided. If you have any questions at all, a lecturer is always there to help with a smile – they are always happy to help no matter the question you have, whether it be course related or not."

ASHLEY LARKIN, HISTORY AND CRIMINOLOGY

Sabrina

Tori

James

## What would you say to someone thinking of applying?

"I would tell someone considering university that it is 100% worth going. It's not just three more years of education – the experiences you get and the contacts you make may impact your life and career forever. It is in no way a waste of time."

TORI BAKER, FINE ART

"I wasn't sure if coming to university was for me but I know I made the right choice. I have a job now that wouldn't have been possible without going to university and I have made friends and had experiences that I'll never forget."

JAMES MOHSEN, REAL ESTATE

# Teaching

Practical teaching that engages students outside the traditional 'classroom' is part of our DNA. We are passionate about the kind of learning experience our students receive and it's the reason we put our students at the heart of everything we do.

"One of the first things I say in class is you're going to learn a lot and you're going to have a lot of fun doing it."

**ANNE-MARIE KILDAY,**  
PROFESSOR OF CRIMINAL HISTORY

*Paramedic Science students in a practical*

We are among the world's top universities in 13 subject areas.

(QS World University Rankings 2020)

*History of Art students out on location studying the architecture of buildings in Oxford.*

## Support in your studies

Studying at university can feel like a big change, but at Oxford Brookes we make sure you are supported.

You are assigned your own academic adviser to help you throughout your course. Student support co-ordinators, located in each subject area, can also help with both academic and personal issues.

Our specialist team offers support with dyslexia, disability or specific learning disabilities. For international students, our tutors can support you with any English language needs.

## How we teach

At Oxford Brookes, you'll be learning in a variety of ways. All of our courses have a mix of lectures, seminars and tutorials, plus practical and lab-based sessions on certain courses. You're also likely to work on group projects, give presentations and carry out research.

Studying independently will be another important part of your degree, giving you the responsibility and freedom to study how and where you like. You'll be able to follow your own interests through optional modules which you can choose on most courses.

"The tutors here are so supportive and there is a real sense of community between students. Learning becomes a way of life and not just a structured routine."

**EMMA BATES GARCIA, ENGLISH LITERATURE GRADUATE**

*Engineering students working on the Formula Student car*

## Exceptional teachers

Our lecturers have received a host of awards and accolades including 11 National Teaching Fellowships for outstanding teaching. This means that you will be learning from some of the best teachers in their field.

# Preparing you for your career

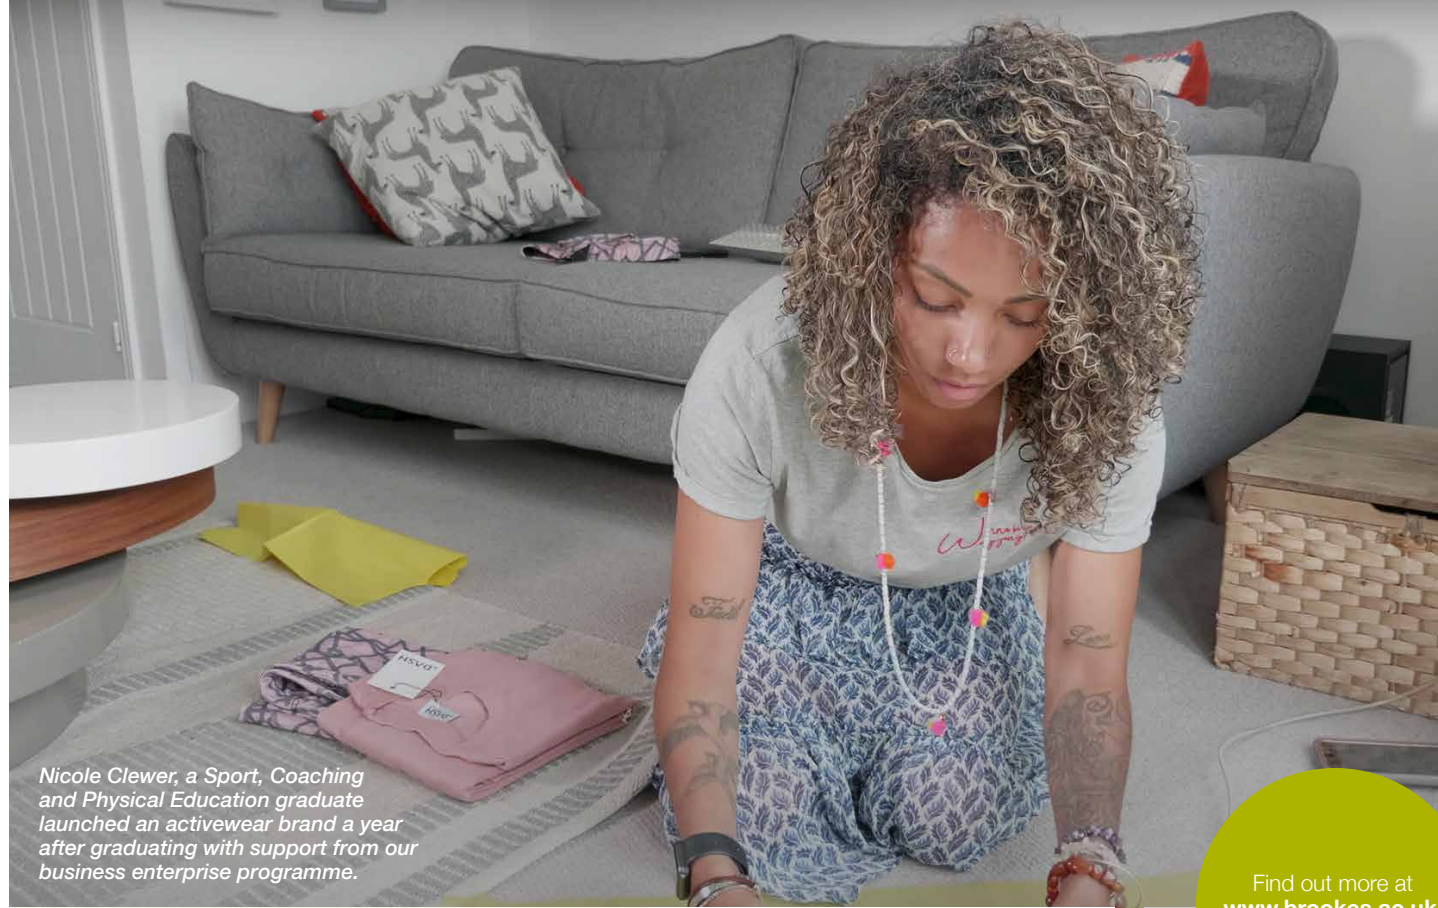

Courses at Oxford Brookes combine theory with practical relevance. We make sure that what you learn in the lecture theatre is useful in the workplace. From real-life projects and work experience to transferable skills – you'll have the opportunity to boost your employability and stand out from the crowd.

**“My placement was truly phenomenal. It introduced me to some of the most exciting companies in high-performance engineering and I got to meet with customers in Germany, Spain and the US, taking on tasks with genuine responsibility. A good placement can genuinely be life changing.”**

**JOE JONES,  
BEng MOTORSPORT ENGINEERING**

Joe Jones worked as a Business Development Co-ordinator at Williams Advanced Engineering.

*Nicole Clewer, a Sport, Coaching and Physical Education graduate launched an activewear brand a year after graduating with support from our business enterprise programme.*

**Our partnerships with industry, business and professions** mean there are excellent opportunities for high-quality work placements – great for building your confidence and experience. We also work with smaller local employers creating paid internship opportunities.

For some courses we team you up with your own mentor from industry. These mentors provide one-to-one advice and career guidance.

Many of our lecturers have industry and professional experience. By maintaining these links with industry, knowledge is always applied to real-world practice.

Our students have secured work placements with world-famous brands such as:

- **Apple**
- **BMW Mini**
- **Great Ormond Street Hospital**
- **F1 Ferrari**
- **HarperCollins**
- **Lloyds Banking Group**
- **Oxfam**
- **Oxford University Hospitals NHS Foundation Trust**
- **Warner Bros**
- **Williams Advanced Engineering.**

## Career services

At Oxford Brookes our careers service is a dedicated team that offers you support to ensure that you get the right job once you graduate. The careers team offers a range of services, such as: one-to-one consultations, interview preparation and CV guides.

The careers team also hosts a series of job fairs annually, giving you the opportunity to meet real employers.

**Find out more in our video series**

Find out more at  
[www.brookes.ac.uk/careers](http://www.brookes.ac.uk/careers)

*Student on placement as a laboratory technician at UK Biocentre in Milton Keynes.*

# A whole new world

Imagine if you could expand your horizons? What if you could experience studying in another country? Well you can! You can choose to study abroad on most courses at Oxford Brookes. Just immersing yourself in a new culture and making new friends can provide you with inspiration and a different outlook for your future.

## Why study abroad?

- Experience university life in a different country.
- Immerse yourself in another culture for one or two semesters.
- Gain new perspectives on the subject you're studying.
- Grow in confidence so you stand out from the crowd.

**“Firstly you get the amazing experience of living and studying abroad – and all that contact with different cultures. Secondly you get confidence – because you know you can tackle the world by yourself.”**

FEDERICA BURANI, INTERNATIONAL HOSPITALITY AND TOURISM MANAGEMENT GRADUATE, SPENT A SEMESTER AT HONG KONG POLYTECHNIC UNIVERSITY

## Some of the countries you can go to...

## How to apply

You will need to meet our academic and English language requirements. Once we receive your application, we will liaise with the faculty to get approval for your study programme. Find out more online: [www.brookes.ac.uk/exchange](http://www.brookes.ac.uk/exchange)

# BROOKES UNION: HERE FOR YOU

Run by students for students, we represent the student voice so that you can get on and make the most of your time at Oxford Brookes.

Find out more at [brookesunion.org.uk](http://brookesunion.org.uk)

## FIGHTING YOUR CORNER

Our independent advice team supports students on housing matters, academic issues, student finance and more.

In 2019/20, we advised

**4,500+**  
students

with

**£840,000+**

recovered for students!

## REPPING FOR SUCCESS

We support over

**480**

academic reps – making sure your degree programme is the best it can be. We also support student networks, enabling students to campaign and build communities together.

## BELONG

We have

**over 100  
student-led  
societies.**

Societies are a great way to make new friends and try new things.

## INCREASING YOUR EMPLOYABILITY

We help develop your skills through our partnerships with academic departments. Last year our students organised and delivered an open air cinema, Christmas Market and much more.

## STRESS LESS

We help support students with their mental health and wellbeing; whether that's by running our Stress Less Week, packed full with activities including yoga, mindfulness and crafts, or by campaigning to improve student wellbeing services.

**BROOKES  
UNION**  
*Est. 1921*

## SAFETY FIRST

We run the Safe Taxi scheme to help students get home safely if they don't have the cash to do so. We also run personal safety campaigns and last year handed out

**over 1,000 personal  
safety alarms.**

## GIVING BACK

We help you raise money for charities you care about. Last year, we raised **over £14,000** for Movember, supported Homeless Oxfordshire and planted wildflower meadows on campus.

# Oxford: student city

We know that choosing where to go to university is a big decision and that not all students want the same thing. Luckily, Oxford has something for everyone.

## 1. Oxford Brookes University, Headington Campus

Located in Headington, a leafy residential suburb, our main campus is walking distance from parks and a short bus ride from the city centre and the Cowley Road.

## 2. South Park

Two minutes walk from our Headington Campus, this green space offers some of the best views of Oxford's beautiful skyline.

## 3. Cowley Road

A vibrant area with places to eat from all corners of the globe. With pubs, bars and cafes, it's a firm favourite with students.

## 4. O2 Academy Oxford

An iconic Cowley Road venue hosting headline acts, as well as club nights. Brookes Sport student nights take place here every Wednesday during semester time.

## 5. The Ultimate Picture Palace

Offering student discounts, this is Oxford's first independent cinema, showing everything from the latest blockbusters, to foreign language films and the classics.

## 6. Punting down the river Cherwell

A quintessentially Oxford experience, punting is a unique way to see the city from the river.

## 7. Oxford Botanic Gardens

With free entry for Oxford Brookes students, you can explore Britain's oldest botanic garden that has over 6,000 different plant species!

## 8. Queen's Lane Coffee House

A great place to grab a coffee or slice of cake. Opened in 1654, it's reputed to be the oldest continually working coffee house in the whole of Europe.

## 9. Westgate Shopping Centre

Find over 100 stores, a cinema, restaurants, cafes, junkyard golf, a gym and much more. There's plenty to see and do, with many places offering student discounts.

## 10. Modern Art Oxford

Free and open to all, this gallery showcases cutting-edge exhibitions and innovative programmes.

## 11. Ashmolean Museum

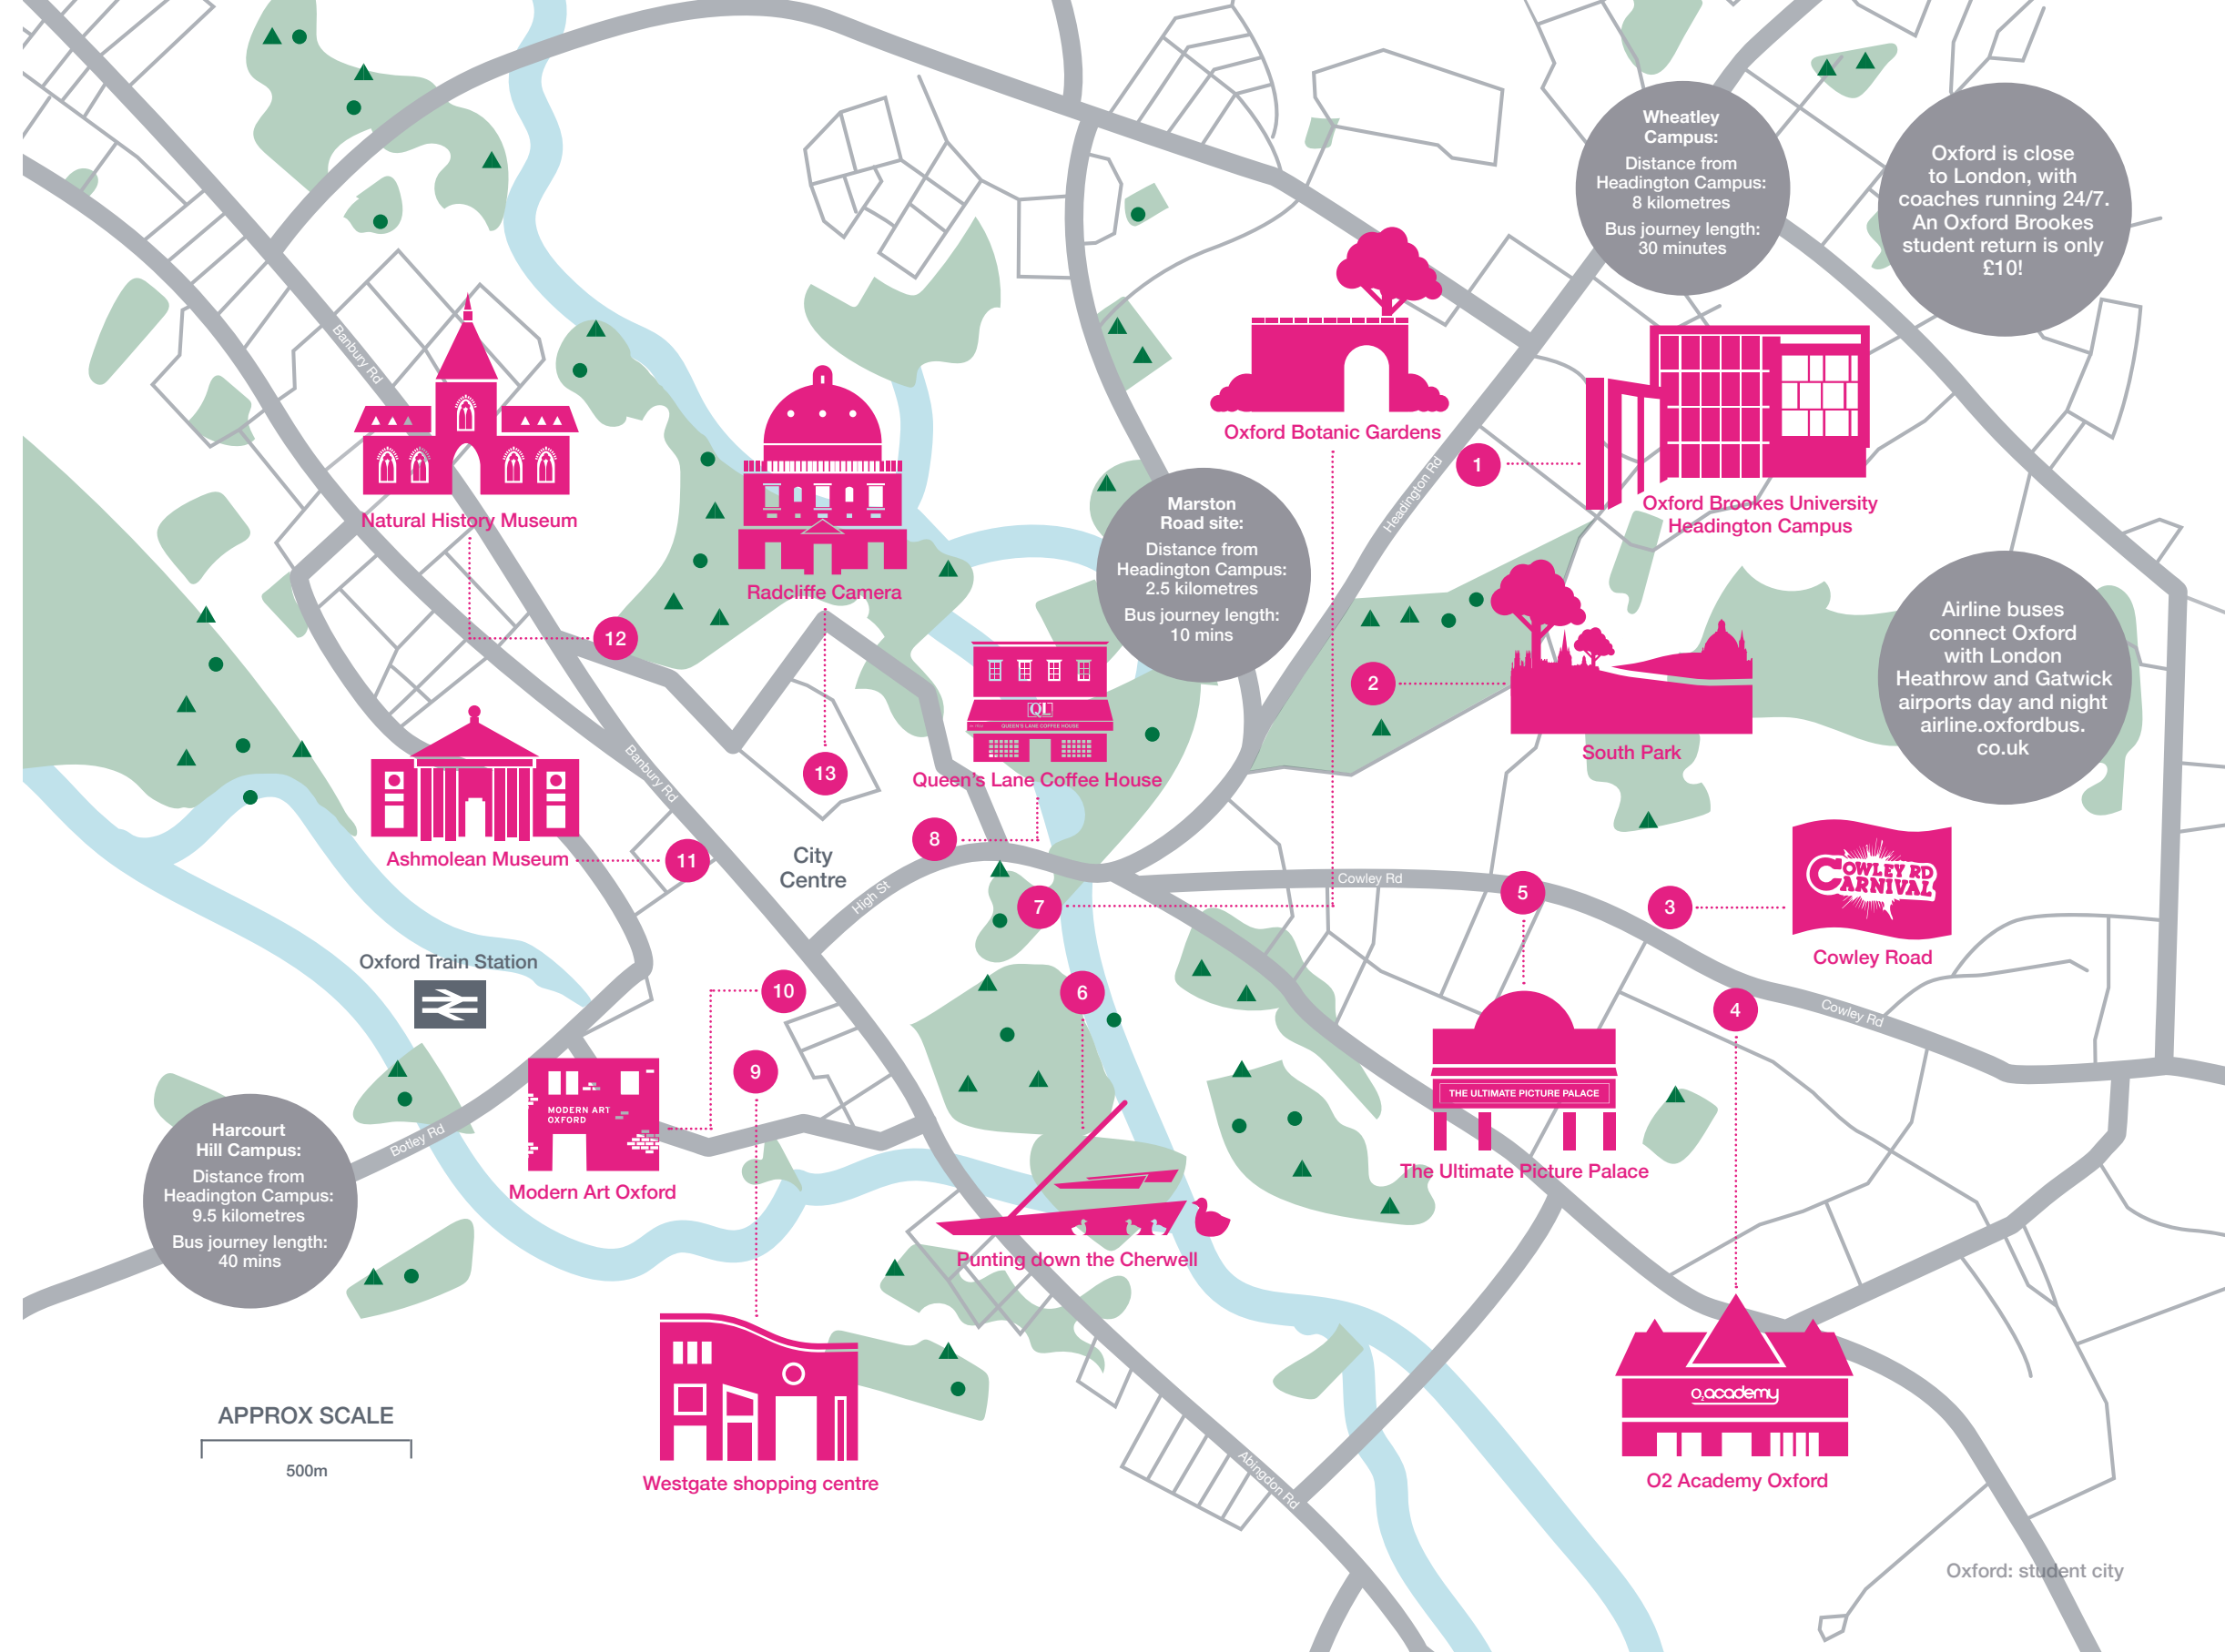

With free entry, this art and archaeology museum has world famous collections, including Egyptian mummies and the largest collection of Raphael drawings.

## 12. Natural History Museum and Pitt Rivers Museum

From dinosaur skeletons to ancient artifacts – these museums are free to enter and hold more than 5 million specimens!

## 13. Radcliffe Camera

One of Oxford's most photographed landmarks, the area around here will have you feeling like you've stepped back in time.

## What Oxford means to our students...

“Oxford is a wonderful city, full of history, people and excitement. It’s a young city as well, so there’s always a lot of events to join in.”

SABRINA ANDRADE,  
MEDIA, JOURNALISM & PUBLISHING

“Oxford is a comfortable place to live as a student. The town is very much catered towards students and with the high amount of tourism, it is easy to pick up part-time work alongside your studies.”

TORI BAKER, FINE ART

19

20

Look beyond Oxford’s dreaming spires and impressive history and you’ll find a buzzing student community. Whether you’re after culture, pubs, clubs, parks or delicious food, Oxford has it covered. There are also some events and traditions that you won’t find anywhere else. Get involved and start making the most of being in this inspiring city.

Punting on the river Cherwell

## Lazy days

Punting is a unique way to see Oxford from a different angle. Glide leisurely along the river as you sit back and admire the stunning architecture and landscape. Or try it yourself – without falling in!

Oxford has been named the best place to live and work in the UK for the third year running. (2019 Good Growth for Cities index)

21

## Historic and magical

Oxford is an Instagrammer’s dream. A walk in the city centre can have you feeling like you’ve wandered onto a film set. With its beautiful buildings, winding lanes and cobbled streets, Oxford is picture perfect.

Sheldonian Theatre

## A street that has it all

The Cowley Road is the most diverse area of Oxford. Packed with places offering international cuisine, great pubs, clubs and music venues, it’s easy to see why this area is popular with students.

Cowley Road

View from the Varsity Club, Oxford city centre

Open here

Westgate shopping centre

## Retail therapy

Oxford is great for shopping, with a mix of high street brands and independent shops. The Westgate Shopping Centre is the main place to shop. However, for a more unique experience, the covered market is well worth a visit and dates back to 1774!

The Big Feastival, West Oxfordshire

## Experience more

From small scale food festivals to huge, sell-out music events – there are lots of exciting things going on in Oxfordshire throughout the year.

# Life outside of lectures

We want you to make the most of your time at university. While your academic studies are important, we know that your experience at Oxford Brookes will be about so much more.

**“There are lots of clubs and societies for all different interests, so making friends is no issue! If you can’t find something that suits you, there is nothing to stop you making your own society.”**

**ASHLEY LARKIN,  
HISTORY AND CRIMINOLOGY**

## Societies at Oxford Brookes

If you have a passion you would like to share with others, or you would like to meet like-minded students, joining a society is a great way to do this.

Brookes Union currently supports over 100 societies, sharing interests from baking to botanicals, and law to LGBTQ+. With film screenings, debates, dinners, speakers, club nights, seminars, trips away and balls, there's always something exciting going on.

Oxford Brookes Jazz Society

Brookes Sport climbing wall

## Sport at Oxford Brookes

From American football to Zumba, Brookes Sport offers plenty of opportunities to get active, compete, or simply socialise. Facilities include excellent gyms, a premier climbing wall, swimming pool, boathouse, courts, pitches, sports bar and more.

On the competitive side, #TEAMBrookes has a huge range of sports clubs you can join. Wednesdays are the sporting highlight of the week. Here, teams travel across the country and host fixtures across Oxford as part of BUCS (British Universities and Colleges Sport) competition.

We are ranked among the best university rowing programmes in the world.  
(BUCS)

Basketball at Brookes

# What happens where

Our courses are taught across four campuses, each with their own unique feel and community. Whatever subject you choose, you'll have access to quality facilities and excellent learning spaces specifically designed for your area of study.

The **BROOKESbus** service connects all our Oxford campuses and offers free Wi-Fi while you travel!

Simon Williams Undergraduate Centre, Wheatley Campus

## WHEATLEY CAMPUS

- 11 kilometres south of Oxford city centre
- Computing, Cyber Security, Computer Science and Robotics, Mathematics, Automotive, Mechanical and Motorsport Engineering courses are all taught here
- specialist engineering workshops, labs, and computing and digital media studios
- library and subject-specific librarians.

Headington Campus

## HEADINGTON CAMPUS

- our largest campus
- 1.5 kilometres east of Oxford city centre
- set over three main sites (Gipsy Lane, Headington Hill and Marston Road)
- on-site gym and climbing wall
- a wide range of accommodation options
- vibrant mix of learning spaces, and specialist facilities
- 24/7 library and subject-specific librarians
- multiple food outlets and Students' Union
- on-site shop, doctor's surgery and dental facilities.

## HARCOURT HILL CAMPUS

- 5 kilometres from Oxford city centre which can be reached by bike in under 20 minutes
- all education courses, English Language and Linguistics, Philosophy and Communication, Media and Culture taught here
- 110-acre campus with beautiful green spaces
- gym, swimming pool and sports centre
- library and subject-specific librarians
- on-site accommodation
- 24-hour computer room
- on-site refectory
- chapel.

Harcourt Hill Campus

Swindon Campus

## SWINDON CAMPUS

- Adult Nursing (also available at Headington Campus) taught here
- close to the Great Western Hospital and other placement partners
- on-site subject library, cafe and teaching rooms along with specialist clinical simulation suites.

# Our library

With 24/7 access to online databases, journals and books, our libraries let you access the information you need, when you need it.

**Our subject-specific librarians offer one-to-one help with:**

- finding relevant information for assignments and dissertations
- using online resources
- referencing your sources.

Our library offers LibrarySearch, a Google type search for books, e-books, DVDs and journal articles, making finding information much faster and easier.

**OPEN**

**24/7**  
during semester  
in our Headington  
library

**400,000**  
paper-based  
journals and books

Over  
**25,000**  
online resources

**1,150**  
study spaces  
over four libraries

“The facilities are very good, the library at Headington campus is amazing! It covers six floors and has got everything you need. The librarians are very helpful if you need anything and it is open 24/7 in semester time. You can also access all the electronic journals and books from home too...”

**STEPHANIE HUTCHISON,**  
MENTAL HEALTH NURSING

# Living in halls

Your home away from home! Discovering a new city and making it your home can be one of the most exciting parts of university life. We offer a range of accommodation to suit different needs and budgets. With 24/7 support available, you'll soon settle into life at Oxford Brookes, meet new people and enjoy living independently.

## University-managed halls

**Cheney Student Village**  
Next to Headington Campus  
750 study bedrooms

## Making your money go further

Money shouldn't be a barrier to your success. Here are some tips to help your money go a bit further while at university.

### Look at all possible sources of income

We offer grants, bursaries and scholarships at Oxford Brookes. See pages 146-148 to find out more. The government also has additional financial support for some students – so make sure you know what is available to you.

### Shop smart

From looking out for special offers, to buying in bulk, there are lots of useful hints and tips at [www.moneysavingexpert.com](http://www.moneysavingexpert.com).

### Look out for free events

As a vibrant student city, there are always lots of free things going on in Oxford. From live music and film screenings to exhibitions and talks.

### Get part-time work

Many employers in Oxford offer flexible working hours to fit around your studies. Our jobs fair in Semester 1 is the ideal opportunity for you to find work that fits around your schedule.

### Get budgeting

Budgeting apps are a great way to help you stay on top of your spending. There are lots of free ones to choose from, with Money Dashboard and Bean being popular.

### Student discounts

Sign up for a Totum student card with your given university email address. These cards offer discounts at many different retailers and services.

# Support and wellbeing

Starting university is an exciting time and also a time of great change. Support and wellbeing are the wraparound services we offer to ensure you feel supported to make the most of your time at Oxford Brookes.

“One of the reasons why I decided to study at Brookes was the excellent quality of the disability service. They supported me from my application to university being successful, right up until the date of my graduation. I cannot fault them.”

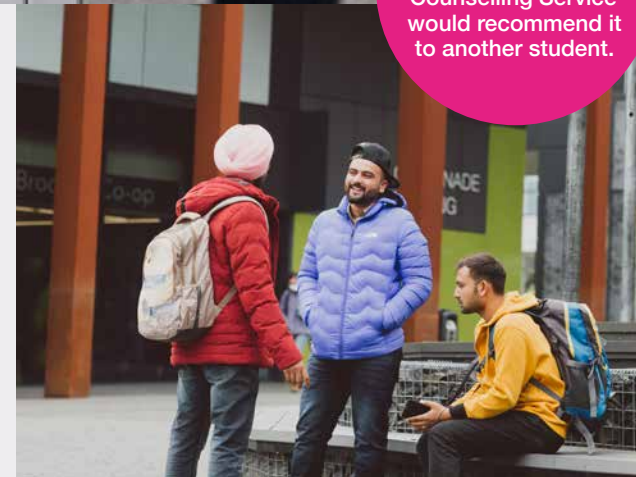

LAURA CROFTS,  
EDUCATION STUDIES GRADUATE

98%

of students who used the Student Counselling Service would recommend it to another student.

- Based within each subject area there is a dedicated **student support co-ordinator**. They are a great first person to go to, and can give you support on personal issues as well as offering advice and guidance on academic issues.
- The **Oxford Brookes Student Counselling Service** offers a wide range of support for your emotional wellbeing while you are a student at Oxford Brookes. The service is free and confidential.
- The **Multifaith Chaplaincy** provides pastoral support and spiritual care to all students.
- **Brookes Union Advice Service** offers independent advice and can help with issues such as finance concerns or knowing your rights as a tenant.

## International students

Pre-arrival, we're on hand to help with immigration, visas and finance issues. Once you're here, we run socials, buddy schemes and offer free English language support to help you settle in as quickly as possible.

[www.brookes.ac.uk/students/isat](http://www.brookes.ac.uk/students/isat)

## Helping you go further

Investing time in your own personal development is an important part of your student experience. We've built up an enterprising and inclusive community of mentors who can guide you through your time at university and help you prepare for the world beyond. You can choose from peer-to-peer schemes, where you'll be mentored by an existing and more experienced student, or you can seek out a professional mentor and use this as an opportunity to be mentored by an amazing role model already in the world of work.

[www.brookes.ac.uk/mentoring](http://www.brookes.ac.uk/mentoring)

## Disabilities and learning difficulties

Our Disability and Dyslexia/SpLD Services offer advice and guidance whenever you need it, and throughout your time at university. Specialist support includes:

- access to assistive technology
- specialist mentoring and one-to-one study skills support
- liaising with academic staff about reasonable adjustments
- special exam arrangements
- support when applying for accommodation.

# Our courses

We have an incredible range of courses available, some of which you may not have even considered yet. Your choice of your path to success starts right here.

# Accounting, Finance and Economics

The accounting, finance and economics courses at Oxford Brookes Business School combine academic study and real-world experience. Dynamic and engaging classes will help you develop essential skills for your career. You'll be able to critically evaluate evidence and make well-informed decisions. These courses will provide the foundations for you to become a successful leader in your career.

## TOP 3 REASONS TO STUDY WITH US

1. Our **outstanding links with leading employers** open up exciting opportunities to develop valuable experience with an optional year-long, paid work placement.
2. Our course content stays up-to-date through our **close relationships with professional bodies**. These partnerships include the Association of Chartered Certified Accountants (ACCA).
3. The economics that you learn will **enable you to apply concepts to a wide range of practical business problems**.

**UCAS tariff points** 104

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course explores a variety of subject areas. These include microeconomics, macroeconomics and the fundamentals of financial and management accounting. You'll be able to apply your new knowledge and analytical skills to real-world situations.

Our ACES scheme allows you to give back to the community while gaining experience. It lets you work on a local charity or community group's accounts. As a graduate, you can apply for exemptions from professional accounting examinations depending on your modules.

**After you graduate**  
You will have acquired the skills and knowledge needed for a career in economic policy, accountancy or to continue to study at master's level.

Recent graduates have enhanced their employability through placements at Marriott and BMW, as well as EY and BDO.

The Clerici Building, which is home to the Business School, provides our students with innovative learning spaces and study areas.

**UCAS tariff points** 104

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course explores many areas such as business-relevant economics, finance and accounting. You can also explore topics like sustainability, global finance and law. You will develop your IT skills with applications such as accounting software.

Our ACES scheme lets you give back to the local community while developing your skill set.

This course can allow exemptions from examinations with professional bodies ACCA, ICAEW and CIMA.

**After you graduate**  
The opportunity to go on placement and enhance your employability is popular with many students. We've had students work with PwC and the Office for National Statistics. Some have also gone to companies such as Harley Davidson and Lloyds Banking Group.

Our graduates have a great track record of gaining employment at the companies at which they completed their placements with. Others go on to complete training schemes, follow careers in accounting and finance, or go on to further study.

## Business and Finance

BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus

**📅 DURATION**  
FT 3 years, or 4 years with work placement, PT up to 8 years

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

**🏠 WORK PLACEMENT**  
Optional, 1 year

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course combines the core areas of business, management, accounting and finance. You can explore interesting topics like ethics, international business and finance. By offering you the flexibility to tailor the balance between these disciplines, you can choose topics that suit your career goals and graduate with the skills needed for your chosen profession.

We offer an optional work placement year, where you can improve your skill set and network with people in the industry. Placements allow you to gain real-world experience which you can then apply to your final year of study.

**After you graduate**  
This course prepares you for a career in business, accounting or finance. You'll be able to apply your knowledge of the three disciplines to whichever route you choose.

Graduates from related courses work at global organisations, including Apple, IBM and Aston Martin. Some graduates have pursued careers in banking at, for instance, Lloyds Banking Group and Metro Bank.

"This course will develop your teamwork, problem-solving and communication skills. We ensure that your learning experience is practical, relevant and up to date."

RUTH WATTS, PROGRAMME LEAD FOR ACCOUNTING AND FINANCE

[www.brookes.ac.uk/business-finance](http://www.brookes.ac.uk/business-finance)

"I was able to develop invaluable soft skills such as critical thinking, analytical skills and strong problem solving, which have equipped me for the professional world."

NELSON THEW, PRESIDENT OF THE ECONOMICS AND FINANCE SOCIETY

## Economics, Finance and International Business

BSc (Hons) single honours

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 3 years, or 4 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏠 WORK PLACEMENT

Optional, 1 year

### 🌍 OPEN TO

UK and international students

### 📅 COURSE START DATES

September or January

### ✔ TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This course will give you a global perspective on the ever-changing world of economics, finance and international business. Areas of study include economic theory, accounting, business analysis and statistics. You will learn practical skills and develop insights into global economics, and will learn to apply your knowledge to the real world. You will be introduced to the fundamental concepts that underpin economics and finance in the international environment in which business and cross-border trade takes place.

### After you graduate

Your new knowledge and skills development will equip you for many career paths. These include becoming an economist, business analyst or investment banker. Our graduates have gone on to work for global companies like Microsoft and Hewlett-Packard. They have also pursued careers in the Government Economic Service and the Office for National Statistics.

“My course accommodates any student interested in Economics, Finance and Business. I am starting my second year now, and I love it all.”

NEIL OLIVIER, STUDENT

### 📅 COURSE START DATES

September or January

### ✔ TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Studying this course will allow you to explore the link between the global economy and politics. You'll cover the important theoretical developments and the recent events related to the three subjects. Throughout the course, you'll be able to specialise in the areas that interest you and explore a particular interest in depth by completing a dissertation. This course will also equip you with critical and strategic-thinking skills, as well as improve your ability to present evidence-based arguments.

### After you graduate

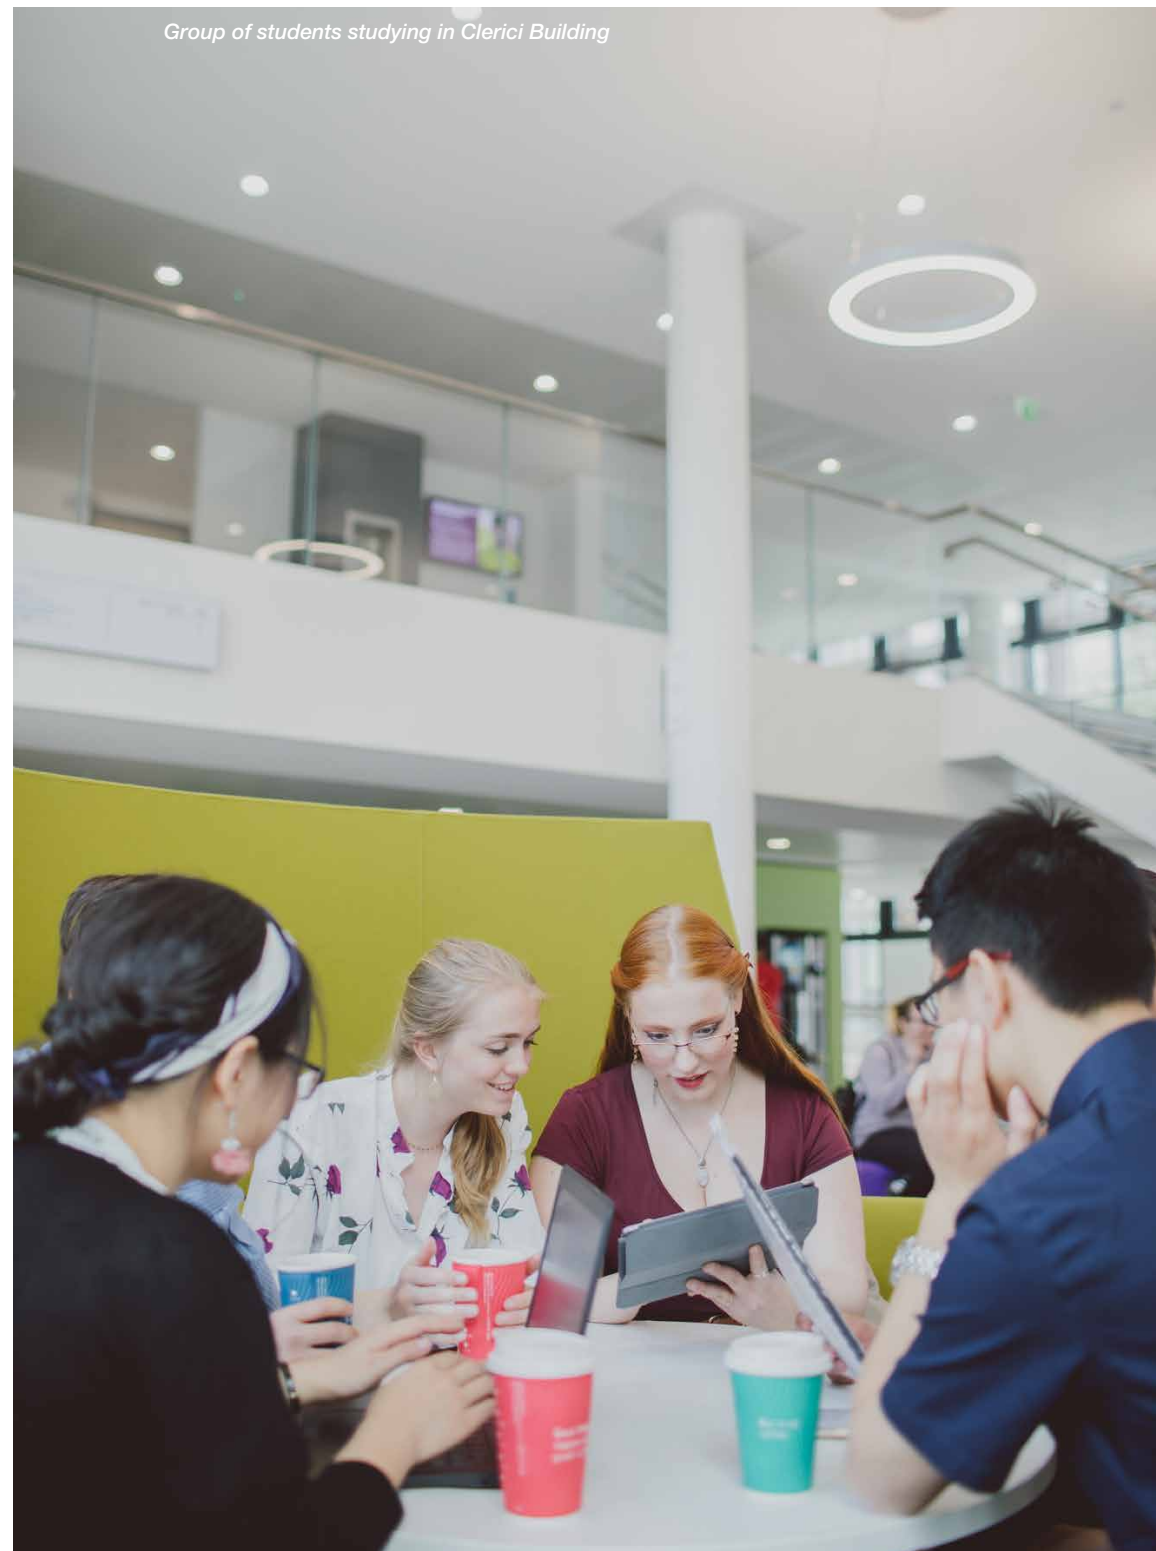

You can pursue many career paths once you graduate from this course. These range from local government and diplomatic service to publishing and journalism. We've also had students go on to work for trade unions and NGOs. Companies for which our graduates go on to work for include Goldman Sachs and the Royal Bank of Scotland.

“I loved how dynamic and relevant the course was, drawing across the different disciplines and perspectives. I was able to pick and choose modules to suit my interests.”

CHIARA THOMAS-STEPHENSON, GRADUATE

# Architecture

The School of Architecture at Oxford Brookes puts innovation and experimentation at the heart of what it does. Blending cutting edge teaching with pioneering research, our courses give you the opportunity to test, challenge, explore and develop your practice as a designer. We have a consistently high reputation among architectural and design professionals and the industry, meaning a qualification from Oxford Brookes will help you find employment upon graduation.

Join our community of movers and shakers looking beyond the boundaries of traditional approaches.

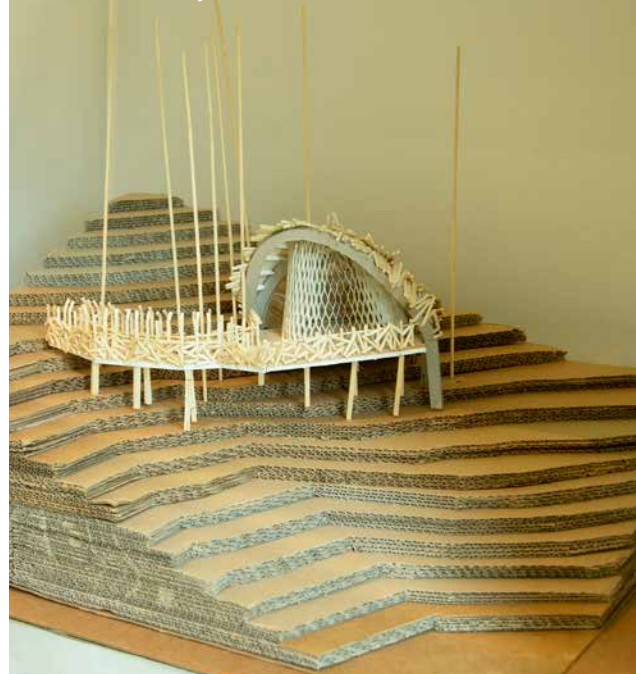

## TOP 3 REASONS TO STUDY WITH US

1. You will gain **hands-on experience** working on **live projects** for professional clients. Past projects include a Digital Wellbeing Hub for the JR Hospital in Oxford and a Marble Pavilion in Portugal.
2. You will **produce a rich portfolio of high quality design work**. This will give you an advantage when seeking employment in architectural practices locally and internationally.
3. You'll have **24/7 access** to our purpose-designed studios in our RIBA National Award-winning building, allowing you to be able to work flexibly in a way that suits you.

#### What you will study

Learn to draw, model and design buildings and spaces for the ever-changing world we live in. Explore your passions and discover your identity as an architectural designer. Make an impact on the local community by working on live projects with real clients. You will be taught by industry-leading architects who support your creativity and your potential. You'll have access to state-of-the-art facilities which are open 24/7 to allow for flexible studying.

#### After you graduate

This course provides the first part of your qualification as an architect, but also an abundance of transferable skills that can lead to a broad range of careers. Mentorship schemes in the school will help you discover where you want to take your career, and our very active links with alumni and practitioners will help you access career advice. You will graduate with the skills and portfolio of work key to gaining employment.

Recent graduate employers include:

- OMA
- Foster + Partners
- Kengo Kuma Architects.

<b>📅 COURSE START DATE</b> September	

#### What you will study

This course focuses on the sustainable design of interior spaces. Interior architects redevelop spaces so that they are functioning at their greatest efficiency. You will investigate the relationship between people and the spaces they inhabit. Atmosphere, spatial qualities and material exploration are key themes that you will study. You will learn to draw, model and write about contemporary design.

#### After you graduate

This course provides a direct route into professional practice. You will graduate as a professional designer who is able to respond to a wide range of human and cultural needs. You will be confident in delivering innovative and sustainable design solutions. Recent graduates have worked in architecture practices, design practices, urban design, film industry, product design, planning and journalism.

Along with Architecture, Interior Architecture is ranked 8th in the subject league table.

*Guardian League Tables, 2021*

### Foundation Course

<b>📍 LOCATION</b> Headington Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 64
<b>📅 DURATION</b> FT 1 year	<b>A-level CC</b> <b>BTEC MPP or MM</b>
<b>👤 OPEN TO</b> UK and international students	Students can earn up to 112 UCAS points on this course.
<b>📅 COURSE START DATE</b> September	For further guidance on converting your grades to UCAS points, see page 149.

#### What you will study

This one year foundation course is an entry route to all undergraduate art and design courses. Throughout the course you'll be introduced to a wide range of creative practices and skills. You will develop your independent creative thinking and learn to apply this across a range of disciplines. You will be taught by tutors and visiting lecturers who are practising artists and designers.

#### After you graduate

You'll be supported to develop a rich portfolio of work and gain key skills, leaving you prepared to make an informed choice about further study or a career in art and design. You will experience a wide range of subjects that will prepare you for courses in fashion, textiles, graphic design, illustration, 3D design, fine art, architecture, digital media and other creative disciplines. Students progress onto degree courses here at Oxford Brookes and to other prestigious courses in the UK and abroad.

This course is awarded by University of the Arts London (UAL) Awarding Body and leads to a UAL Level 3 Diploma in Art and Design.

## Digital Media Production

### BA (Hons) single honours / BSc (Hons) single honours

<b>📍 LOCATION</b> Headington Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112
<b>📅 DURATION</b> FT 3 years (4 years if work placement is chosen), PT 6 years	<b>A-level BBC or equivalent</b> <b>BTEC DMM</b>
<b>📅 WORK PLACEMENT</b> Optional work placement year	For further guidance on converting your grades to UCAS points, see page 149.
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

#### What you will study

This course provides you with skills in the creation of digital assets, television, video and audio production, visual effects, computer animation, interactive and virtual content. You will learn using state-of-the-art facilities and gain experience working with real clients on real briefs. You are able to tailor the course to suit your ambitions by choosing to specialise in either technical operations or production. You also have the opportunity to graduate with AVID Professional certification in Media Composer Video Editing.

#### After you graduate

The course has strong links with the digital media industry. Course tutors have extensive expertise and will provide opportunities for visits, mentorships and work experience. Recent graduates have found jobs with major television companies and post-production facilities. Others have progressed onto further study or research and development for companies such as Google.

Graduates have gone on to work for companies including BBC, HBO, The Discovery Channel and Framestore.

[www.brookes.ac.uk/dmp](http://www.brookes.ac.uk/dmp)

#### What you will study

Whether you're interested in becoming a director, screenwriter, journalist, critic, scholar, or simply love film, this course will provide you with the opportunity to explore your interests and build professional expertise. We deliver a course that balances the production, history and study of film theory to a professional standard. So you'll gain fundamental knowledge of both the history and practical sides of film, filmmaking and the industry. During the course you'll have the opportunity to tailor your modules to suit your ambitions. In your final year you'll be able to choose between a dissertation or film project. You'll also have the option of carrying out a work placement or an industry mentored live project.

#### After you graduate

Our varied curriculum will make you stand out from the crowd when applying for a variety of careers in the film and media industry. Our established links with the film industry enable students to meet professionals at regular film events. Career options include film, TV and media journalism, research, production management for film and TV and creative writing for the screen.

#### Industry connections:

Guests have included Ken Loach, Terry Ackland-Snow, Nick O'Dwyer, Jane Crowther and Quicksilver Media.

September

### ✓ TYPICAL OFFERS

UCAS tariff points 112

A-level BBC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

On this BA Fine Art course you will explore and develop your experience and knowledge of contemporary art. Throughout the course, you'll study a range of technical processes and approaches. You'll be supported to take risks, experiment and build your own independent artistic practice. Theoretical modules underpin the course. You'll study art and culture from the 20th century onwards and develop the ability to critically analyse and discuss contemporary art and culture.

### After you graduate

You will develop and strengthen professional skills that will prepare you for a career as an artist or in a creative industry. Professional practice is built into the course. You'll have the opportunity to undertake a work placement in your second year. Many of our graduates work as self-employed artists, through commissions or on community-based projects. Others go on to careers in teaching, arts administration, art therapy, journalism and other creative roles.

We have strong relationships with local art organisations and galleries including Modern Art Oxford.

### What you will study

This course takes an applied approach to the dynamic field of graphic design. You will use professional studios and workshop facilities to experiment and explore new ways to push the boundaries of graphic design. You'll gain core design and research skills and develop your own design identity through hands-on, practice-based projects. You'll have the opportunity to explore a range of approaches and techniques including typography, interaction, user experience, social design, photography, animation, digital, book and editorial design. You'll participate in live projects working with the broader design industry in an environment that will prepare you for work in a professional studio.

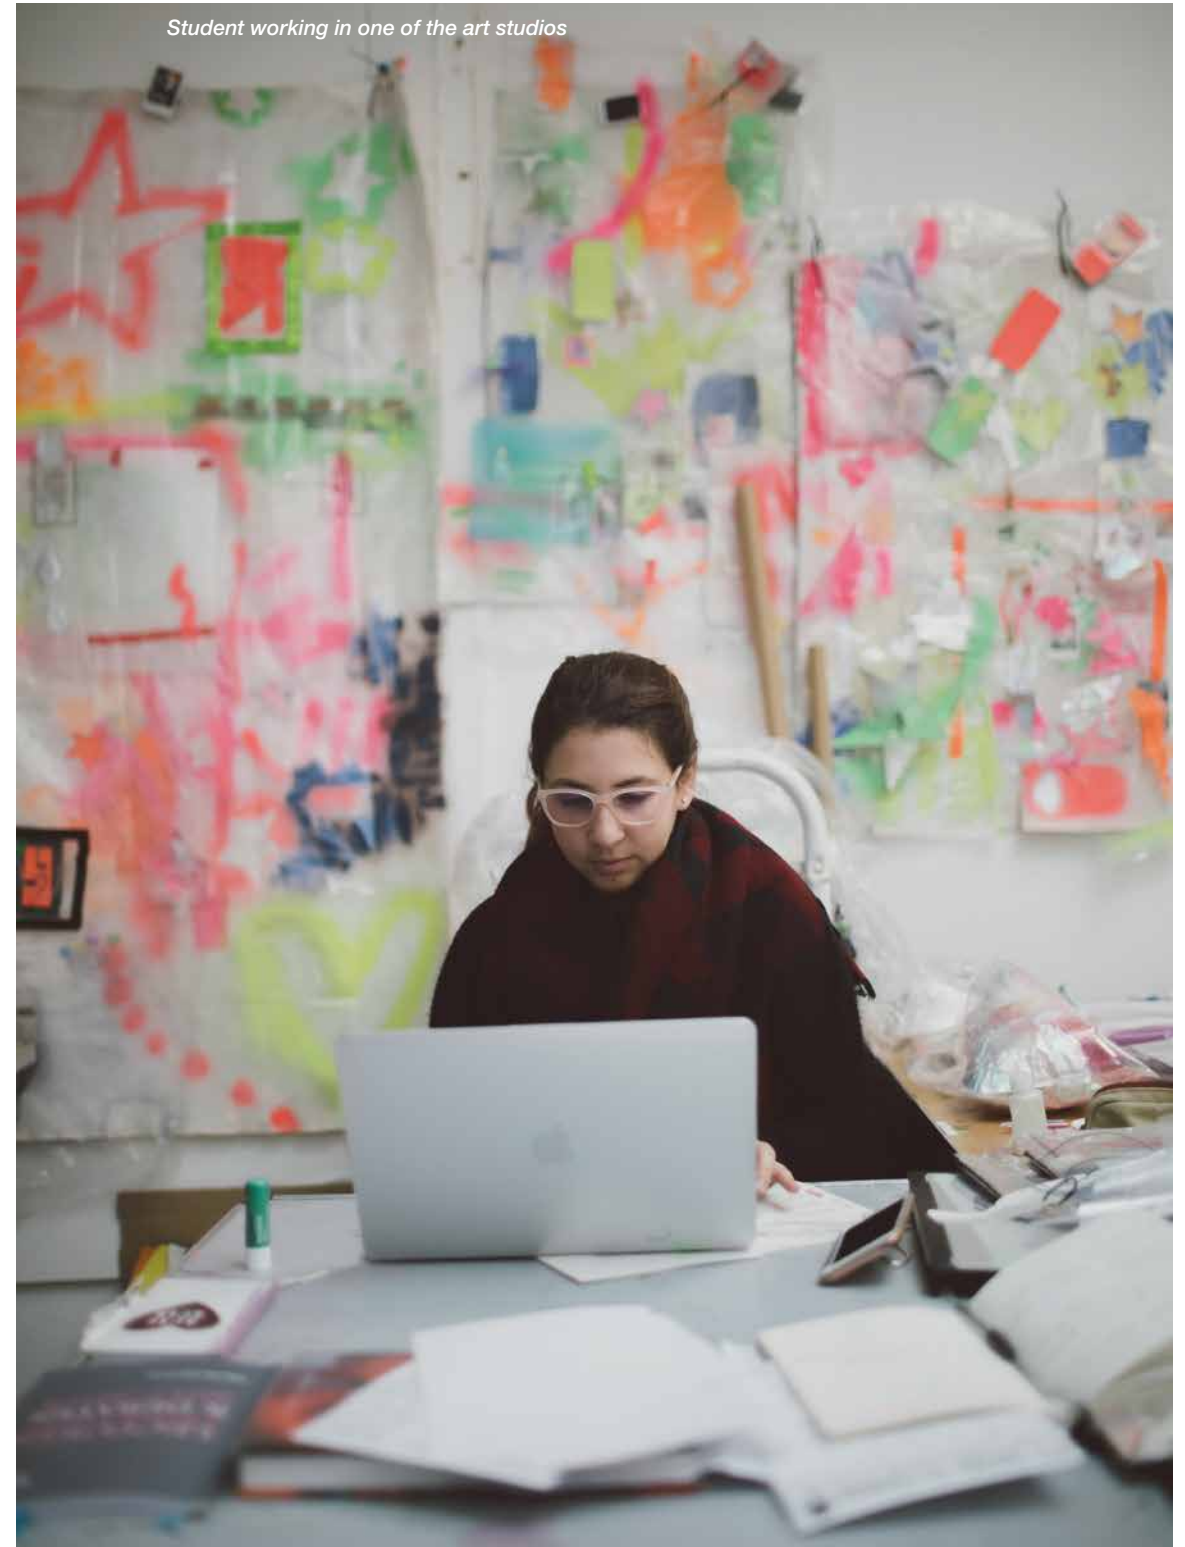

### After you graduate

Throughout the course you'll discover your own approach to visual problem solving and graduate with the technical, critical, and conceptual skills that are highly valued by the creative industries. This course can lead to careers in areas ranging from branding consultancies to digital design, publishing and advertising.

Recent student project collaborations have included Royal Society of Arts (RSA), D&AD, Creative Conscience and Extinction Rebellion.

### What you will study

This course is for students who want to work with content-producing organisations. You will develop knowledge and practical skills in news and feature writing, publishing design and new product innovation, as well as video and audio, marketing and PR. You can study the media industry more broadly or choose to specialise in journalism or book publishing. Our staff have invaluable industry experience and continue their connections through research and consultancy. There will be regular opportunities for industry field trips and work experience. You will graduate with a portfolio of content across media formats.

### After you graduate

This course gives you the skills and confidence to work in a range of media roles. Career options include the creative industries, publishing, journalism, public relations, social media, content marketing, communications, radio and television, NGOs and arts administration. National Council for the Training of Journalists (NCTJ) industry accreditation is available to students who study the Journalism pathway on this course.

Our industry network extends to leading media organisations including Bloomsbury, Penguin Random House, Hearst, Condé Nast, BBC and Google.

## Music

BA (Hons) single honours

### LOCATION

Headington Campus

### DURATION

FT 3 years, PT 6 years

### STUDY OR WORK ABROAD

See pages 14-15

### WORK PLACEMENT

Compulsory work placement module

### OPEN TO

UK and international students

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This flexible course covers all aspects of music, including music history, performance, composition, theory and music technology. You will develop expertise in making music, conceptualising music and working in music. You will have the opportunity to shape your course to reflect your interests by choosing to study a range of modules, or by specialising in one area. Through live projects, work experience and an international field trip, you will have the opportunity to develop transferable skills and gain industry experience.

### After you graduate

This course will prepare you for a range of careers in music, including composition, performance, music production, education and teaching, arts administration and management. It will also give you access to postgraduate study and a wide variety of graduate careers beyond the arts.

The flexibility of this course enables you to follow your passions in your second and third years.

[www.brookes.ac.uk/ba-music](http://www.brookes.ac.uk/ba-music)

Work by BA Photography student Cameron Howard

“There is a lot of freedom in what I can do, which gives me a chance to explore different areas and decide in what direction to go after the course.”

SASHA BURDIAN, PHOTOGRAPHY STUDENT

Editorial project by BA Graphic Design students

## Photography

BA (Hons) single honours

### LOCATION

Headington Campus

### DURATION

FT 3 years, PT 6 years

### STUDY OR WORK ABROAD

See pages 14-15

### OPEN TO

UK and international students

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 112

A-level BBC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This course combines hands-on practice with academic study. You will explore the role of photography in the 21st century while developing an independent visual language. Our teaching focuses on photography as a profession and you will learn from leading industry creatives. This course will support you in developing a professional practice centred around your passions. You will develop transferable skills within still and moving image creation, publishing, curation and social media implementation.

### After you graduate

You will graduate with valuable knowledge of the creative industries and strong technical competencies. You will have developed your photographic practice and identity as a visual communicator, ready for work in the industry. The course has strong links with local, national and global creative industries.

Recent visiting lecturers include Art Director Fiona Hayes and Photographers Tom Oldham, Jim Mortram, Amy Romer and Danny North.

# Biological and Medical Sciences

These degrees are a great foundation for a wide range of careers. Research-led teaching is geared towards developing your professional skills alongside the theory. We do this through lab-based experiments, practical experience in areas such as bioimaging, case studies, research projects and field trips. Our links with industry and the NHS provide high-quality work placement opportunities.

## TOP 3 REASONS TO STUDY WITH US

1. **Top quality labs and teaching spaces** including a bioimaging unit which houses advanced light and electron microscopes.
2. For some clinical topics such as infection, haematology and immunology, you'll be **taught by clinical scientists** at Oxford University Hospitals NHS Foundation Trust.
3. **Lecturers are experts in their field** and committed to the student experience.

Student practicals in one of our labs

“There is an excellent working relationship with local hospitals.”

### What you will study

How do we best conserve rare and endangered animal species? What adaptations help animals cope with life in changing environments? This course covers topics that are scientifically rigorous and relevant in today's world. You will learn essential skills, such as animal identification and survey techniques, the aim being to put these skills into practice with field and laboratory work.

This course is accredited by the Chartered Institute of Ecology and Environmental Management (CIEEM) which means you will be prepared for a career in conservation, with a professionally recognised accredited degree.

### After you graduate

Our graduates have gone on to work for a range of leading biological conservation agencies, including: the Royal Society for the Protection of Birds (RSPB) and the Environment Agency, as well as diverse careers in management, journalism and media.

### What you will study

Taught by biologists who are active in current research, our Biological Sciences degree is designed for students who have wide-ranging interests. From cell biology and genetics to animal behaviour, you will experience a broad range of topics before choosing from our advanced modules. For those who wish to specialise, pathways include Biological Sciences (Genetics and Genomics), Biological Sciences (Zoology), and Biological Sciences (Human Biosciences).

### After you graduate

You will develop the skills needed for rapidly changing workplaces. Our graduates have jobs in diverse organisations. These include local authorities, research laboratories within universities, research institutes, biotechnology companies and medical schools.

You have the opportunity to go on residential field courses in areas with rich natural history, habitat and landscape diversity.

## Biological Sciences (Genetics and Genomics)

BSc (Hons) single honours

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 3 years, or 4 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏠 WORK PLACEMENT

Optional, 1 year

Work experience module also available

### 🌍 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

**UCAS tariff points** 104

including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, PE, Physics, Psychology)

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Genetics and Genomics is an exciting, evolving discipline that impacts on all areas of the biosciences. You can choose modules within the course that:

- focus on gene sequencing and analysis
- focus on molecular biology
- use the latest microscopy techniques to explore living cells in our bioimaging labs.

You will develop the skills bioscientists need for this new era of genomics and big data in biology. The skills you will gain are relevant to fields including healthcare, endangered species and cancer research.

### After you graduate

Our graduates have developed careers in a variety of roles in biological organisations, including agrochemical and biotech industries. Other recent graduates have gone on to work in management, journalism and the media. Some continue onto postgraduate study, including our Conservation Ecology and Medical Genetics and Genomics degrees.

“This degree offers you the opportunity to explore advances in the exciting and evolving field of biosciences.”

DR CASPER BREUKER, SENIOR LECTURER

[www.brookes.ac.uk/genetics-genomics](http://www.brookes.ac.uk/genetics-genomics)

## Biological Sciences (Human Biosciences)

BSc (Hons) single honours

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 3 years, or 4 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏠 WORK PLACEMENT

Optional, 1 year

Work experience module also available

### 🌍 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

**UCAS tariff points** 104

including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, PE, Physics, Psychology)

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This course focuses on the biology of humans at a systematic and whole human organism level. You can choose between:

- A broad approach, based on the principles and methods of different aspects of biology.
- or
- A focused approach, a narrower range of modules with a view to becoming a specialist. For example, you can specialise in cell biology, neuroscience, nutrition or genomics.

You will benefit from the department's research expertise in areas such as cardiopulmonary, renal and reproductive physiologies.

### After you graduate

A Human Biosciences graduate is well-qualified for different careers including:

- medical writing
- exercise physiologist
- immunology research scientist
- medical school
- research posts in companies or academia.

“This degree aims to develop your essential skills and knowledge of biosciences while allowing you to specialise in human sciences.”

DR DEBORAH PEARCE, PROGRAMME LEAD FOR BIOLOGY AND ENVIRONMENT

[www.brookes.ac.uk/human-biosciences](http://www.brookes.ac.uk/human-biosciences)

## Biological Sciences (Zoology) BSc (Hons) single honours

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 3 years, or 4 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏠 WORK PLACEMENT

Optional, 1 year

Work experience module also available

### 🌍 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

**UCAS tariff points** 104

including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, PE, Physics, Psychology)

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This is an interdisciplinary degree that explores all aspects of the biology of animals, including evolution, genetics, development, morphology, neurobiology and behaviour.

Through field work and computational biology, you will explore how animals interact with the environment. Using this knowledge you will evaluate conservation programmes. We teach modern lab training and other relevant skills that are valued by employers within the biosciences industry.

### After you graduate

The skills and knowledge gained on this course are relevant to many careers, in areas such as conservation of endangered species and habitats, animal education and welfare, controlling pests and diseases, drug development, journalism, teaching and research.

There are also career paths in agricultural and biotechnology industries, the civil service, forensic sciences and teaching.

“The interdisciplinary nature of this degree, coupled with training by experts in zoology, offers you the opportunity to learn and develop essential skills and understanding of lab techniques, field work and computational biology.”

ALISTAIR MCGREGOR, PROFESSOR IN  
EVOLUTIONARY DEVELOPMENT BIOLOGY  
[www.brookes.ac.uk/zoology](http://www.brookes.ac.uk/zoology)

## Biological Sciences MBiol MBiol

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 4 years, or 5 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Interested in a career as a professional scientist? This course enables you to study a specialist area of biology in-depth. Areas include environmental biology, conservation, evolution, developmental biology, cell and molecular biology, ecology, genetics, botany and zoology. You will develop the ability to adapt and apply methodology to solve unfamiliar problems, along with a critical awareness of advances at the forefront of these fields.

This is an integrated master's and after completing this 4-year-course you will have a postgraduate qualification.

### After you graduate

Career opportunities are available in sectors which seek bioscientists for research and development. These sectors include biopharmaceuticals, bioscience, biotechnology, healthcare industries, hospitals and public health laboratories.

You have the opportunity to add an industrial placement year to get experience of applying science in a practical environment.

[www.brookes.ac.uk/mbiol](http://www.brookes.ac.uk/mbiol)

Student practical for Molecular Biology

“This degree has been a great chance to make a number of contacts in clinical and academic settings, which has helped further my career and led me to study for a PhD in cell biology.”

SCOTT BRIGHT,  
BIOMEDICAL SCIENCE GRADUATE

## Biomedical Science BSc (Hons) single honours

### 📍 LOCATION

Headington Campus

### 📅 DURATION

FT 3 year, or 4 years with work placement, PT up to 8 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏠 WORK PLACEMENT

Optional, 1 year

### 🌍 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

**UCAS tariff points** 104

including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, Physics, Psychology)

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

The human body is amazing but diseases come in many forms. You will explore the cellular and molecular basis of diseases, their prevention and treatment. You'll learn specialist areas from Oxford University NHS Foundation Trust practitioners, and through practical lab sessions you'll develop important hands-on skills.

The degree carries accreditation by the Institute of Biomedical Science (IBMS).

### After you graduate

Graduates join a global scientific community that is vital to effective medical practice and advancement. In the NHS, biomedical scientists provide the necessary tests to inform clinical diagnoses. Elsewhere, biomedical scientists research widely into diseases and their management. This degree can lead you to a career that improves the health of the greater population.

# Equine Science

BSc (Hons) single honours

<p><b>📍 LOCATION</b> Headington Campus, Abingdon and Witney College</p> <p><b>📅 DURATION</b> FT 3 years, or 4 years with work placement, PT up to 8 years</p> <p><b>🎓 STUDY OR WORK ABROAD</b> See pages 14-15</p> <p><b>🌐 OPEN TO</b> UK and international students</p> <p><b>📅 COURSE START DATE</b> September</p>	<p><b>TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112 (if one science subject) / 104 (if two science subjects) – preferred subjects include Biology, Chemistry, Physical Education and Mathematics</p> <p><b>A-level</b> BBC – preferred subjects include Biology, Chemistry, PE and Mathematics</p> <p><b>BTEC</b> DM or DMM depending on awarding body</p> <p>For further guidance on converting your grades to UCAS points, see page 149.</p>
--	---

## What you will study

This three-year science degree is run in partnership with Abingdon and Witney College (AWC). Most of your teaching will take place at Oxford Brookes, with some sessions at AWC's Witney Campus and the College's stud farm which produces youngstock for the thoroughbred sales. You also have the chance to participate in active research and learn from industry experienced lecturers.

## After you graduate

This course will equip you for a variety of roles in research, business and industry. Specialisation in Year 3 will help you determine your career path.

Recent graduates have gained various positions in:

- British Showjumping Press Office
- Equine insurance/nutrition advice
- Brand managers
- Entry to veterinary school
- Various MSc courses including Nutrition and Forensics.

---	--

## What you will study

This four-year course is the only dedicated degree of its kind in the UK. It is a partnership between Oxford Brookes and Abingdon and Witney College (AWC). Most of your teaching will take place at Oxford Brookes, with some sessions at AWC's Witney Campus and stud farm, where you will have the opportunity to help with thoroughbred youngstock. You will spend Year 3 on work placement at a thoroughbred institution of your choice, either in the UK or abroad.

## After you graduate

This course will equip you for a variety of roles in the thoroughbred industry. Contacts made in the industry placement and specialisation in Years 3 and 4 will help you determine your career path.

Recent graduates have secured roles in:

- Equine nursing
- Various assistant trainer positions
- Bloodstock agent roles
- The British Horseracing Authority
- Thoroughbred Breeders Association.

## What you will study

The Medical Science degree delivers the opportunity to explore the science that underpins many areas of medicine. You will integrate the study of cells and molecules with an exploration of the physiology of body systems. Our clinical partnerships can introduce you to some of the scientific ideas in practice in hospitals today.

## After you graduate

The combination of molecular and physiological subjects opens a wide choice of careers. These include those with a strong medical focus, either through research or patient-focused health care in a hospital. Graduates will have the knowledge and skills to support applications for postgraduate courses in Medicine, Dentistry and the new Physician's Associate master's degree.

**100%** of students surveyed felt that staff were good at explaining things.

(Discover Uni, 2019 for Medical Science)

[www.brookes.ac.uk/medsci](http://www.brookes.ac.uk/medsci)

“The theory is really interesting but being able to actually test the science in the lab for yourself is the best part of the course.”

EDWARD FELDON, GRADUATE

# Built Environment

The School of the Built Environment produces exceptional graduates who are ready to succeed at the highest levels of the real estate, planning, urban design and construction sectors. We combine outstanding teaching with world-class research. Our global network and strong industry links provide opportunities to build professional networks and gain hands-on experience. This means our students benefit from excellent career prospects, with most graduates moving into professional or managerial roles.

## TOP 3 REASONS TO STUDY WITH US

1. Our staff are actively involved in professional consultancy and leading research, so you'll **benefit from teaching that is based on the latest thinking.**
2. You'll be working in labs which mimic professional environments and are designed to facilitate collaboration and design work. All labs are equipped with **state-of-the-art** software for the development of your work.
3. The School of the Built Environment **hosts its own careers fair** dedicated to employers who operate in the built environment sector.

**What you will study**  
This course will prepare you to study at degree level. You will gain knowledge and skills in areas fundamental to the design and development of cities. You will study areas including planning, urban design, environmental sustainability and construction management. To develop your practical skills, this course combines theory with field trips and live projects. Throughout the course, you will discover new subject areas which will help you make informed choices about further study.

**After you graduate**  
Successful completion of this course will allow you to progress onto our Real Estate, Planning or Construction degree courses. These offer excellent career opportunities and professional qualifications with the Chartered Institute of Building (CIOB), Royal Institution of Chartered Surveyors (RICS) or Royal Town Planning Institute (RTPI).

## Building Surveying

BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus

**📅 DURATION**  
FT 4 years, including 1-year work placement, PT – please contact us for details.

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course prepares you for roles in the design, construction and management of real estate assets. You'll study design, operation, building construction and analysis, contract administration and building information modelling (BIM). The first two years are shared with our Quantity Surveying and Commercial Management, and Construction Project Management courses giving you broad knowledge of the sector before deciding your specialism. The placement year and practical projects offer you industry experience and a professional network. In your final year you'll study specialist units such as conservation and restoration, and surveying practice.

**After you graduate**  
This course provides you with skills required for surveying and consultancy roles across residential and commercial developments. School of the Built Environment students are often recruited by leading firms, with many continuing onto graduate training programmes to become chartered professionals (Chartered Institute of Building, Royal Institution of Chartered Surveyors).

Our construction technology laboratory gives you the opportunity to gain first hand practical experience in material manufacturing and testing.

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course prepares you for a range of careers including property development, planning and surveying. You will learn about the policies and processes that bring forward developments that stand the test of time and enhance our built environment. This course covers sustainable development, planning, construction, valuation, urban design, economics and law, as well as the political, economic and social factors that shape the industry. You will gain valuable knowledge through a European residential trip and meeting guest speakers. You will also have the opportunity to gain hands-on experience of the industry by undertaking a work placement year. Practical learning, site visits and live projects underpin our teaching.

**After you graduate**  
Throughout the course, you will meet employers at career fairs and events. You'll also have the opportunity to develop your career with our mentoring scheme. The optional work placement year offers you the opportunity to build industry experience and a professional network before graduating. Graduates will be prepared for roles such as property developer, chartered surveyor and house builder.

Companies who have attended previous careers events include Carter Jonas, Deloitte and Knight Frank.

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 120

A-level BBB or equivalent

BTEC DDM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This course will prepare you for a range of careers within the dynamic real estate sector. Written and taught by industry experts, this course provides you with excellent knowledge of urban real estate. The course covers the key areas that underpin the property market, from development to investment, management, planning, construction and valuation. You'll also study the latest technology developments that are leading the industry. You will learn to apply your knowledge to real-world problems. In your final year you will take a residential field trip in the UK or Europe to study the chosen city.

### After you graduate

Leading property and development consultancies, investment companies and house builders recruit our graduates. Many of these companies attend our annual careers fair. Our mentoring scheme, run with our graduate society, provides excellent networking opportunities, study support and careers advice. We also provide help with internship opportunities and graduate roles.

Ranked **4th** in the *Complete University Guide* Land and Property Management ranking 2021.

### OPEN TO

UK and international students

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

This course introduces you to the principles of urban design, planning and development. You'll gain knowledge of the factors that impact the future of cities and study the practices and processes that allow you to create great places. You will study place-making, heritage, infrastructure, economics, sustainability and globalisation. This course offers a unique hands-on teaching and learning experience. Through a structure of urban labs; interconnected, project-based and industry-led modules, as well as study trips in the UK and abroad, you will connect theory and practice.

### After you graduate

You will have developed knowledge and skills sought after by leading companies. Throughout the course you will have the opportunity to work on projects for real clients. We will introduce you to employers and equip you with a portfolio, so that you are ready for the world of work.

Graduates have found jobs with companies such as Barton Willmore, Savills, Arup and AECOM.

# Business and Management

The Business and Management suite of courses at Oxford Brookes Business School provides a great foundation for a wide range of careers within any sector of business. All of our courses focus on developing practical business skills and enabling you to apply your academic learning to solve problems. This will give you the knowledge and confidence to succeed in the real world.

## TOP 3 REASONS TO STUDY WITH US

1. You will benefit from our **strong links with a range of exciting and innovative companies**, both locally and nationally, from Purple Frog and Pamoja Education to IBM and BMW.
2. You'll have the **opportunity to spend a year in a paid work placement developing valuable skills**. Recent students have spent a year with Airbus, Dior, Great Ormond Street Hospital, John Lewis, Microsoft, Nestlé and PricewaterhouseCoopers.
3. Our academics have worked as consultants for the **UN, Red Bull Racing and KPMG** to name but a few.

“There are lots of interesting talks about entrepreneurship, marketing, strategy and finance in the city. This has given me a great opportunity to make friends and connect with like-minded people.”

**What you will study**  
Based in the Business School and drawing on expertise from the School of Law, you will develop an analytical and evidence-based understanding of key aspects of both business and law, including strategy, entrepreneurship, marketing, and contract and employment law. The combination of business and law allows you to develop a range of transferable skills. The course offers a wide range of optional modules to allow you to shape the course to reflect your interests and career aspirations.

**After you graduate**  
The nature of an interdisciplinary degree means you will gain both the sound business knowledge and a deep understanding of key areas of law that will equip you for a wide range of careers. You will also gain widely transferable employability skills and competencies.

You will be uniquely placed in the graduate job market with your combined knowledge of business management and law.

**What you will study**  
On this course, you will be introduced to a range of business and management theories alongside an exploration of contemporary business practices in an international context. Alongside your academic learning, you will develop skills and awareness associated with employability, responsible management and enterprise. You are encouraged to spend your third year on a work placement.

**After you graduate**  
You will develop the skills, organisational competencies and business awareness needed for successful careers in a range of settings including multinational businesses, major charities, education, healthcare or government. Many of our students go on to graduate training schemes in international companies such as Aldi, Nielsen, Virgin Mobile, Intel, O2 and Dell.

### What you will study

This course explores the fundamentals of business and management within an international context and culturally diverse organisations. You will explore the challenges of long-term economic and environmental sustainability and a range of other issues related to international business strategy. As part of this course, you have the opportunity to undertake an exchange for one semester at a partner institution in Europe, the USA, Asia or Australia.

### After you graduate

This course and its optional work placement year prepares you for a career in international organisations. Students have enjoyed exciting and challenging positions at Danone, EDF Energy, IBM, Europanel, Samsung, Kantar Worldpanel, Nestlé, PayPal and other global organisations.

**“Studying International Business Management has enabled me to see the world of business through diverse lenses, to analyse, critique and advise on contemporary challenges of multinational corporations.”**

**PHILIP HEUMANN, PRESIDENT OF THE OXFORD BROOKES BUSINESS SOCIETY**

# Computing

Make a career out of your passion for computers and technology with our computing courses. Learn to programme, build robots, or explore new technologies like artificial intelligence. You will be taught by academics who are enthusiastic about future technology and the solutions it can provide. In all our courses you will learn the hard skills needed to have a successful career in computing. Not only that, you will learn the theory of computer science which can be applied to all aspects of technology. With excellent placement opportunities and a high employment rate, computing at Oxford Brookes is well regarded by the industry.

## Computer Science for Cyber Security

### BSc (Hons) single honours

<b>📍 LOCATION</b> Wheatley Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112
<b>📅 DURATION</b> FT 3 years, 4 years with work placement, PT up to 6 years	<b>A-level</b> BBC <b>BTEC</b> DMM
<b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15	For further guidance on converting your grades to UCAS points, see page 149.
<b>🏢 WORK PLACEMENT</b> Optional, 1 year	
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

#### What you will study

On this course you will develop fundamental skills in computer science and apply them directly to cyber security. Problem-solving skills are at the core of this course. Using the latest hacking and security technologies, you will test networks and design solutions to secure the network. Our state-of-the-art cyber security networking and server laboratories offer excellent facilities for you to use. You can also study for your Cisco CCNA professional qualifications, resulting in a recognised industry qualification.

#### After you graduate

There is a shortage of skilled graduates in cyber security and it's regarded as a critical area by business and government. This course will fully equip you for a career in this sector. The placement year option will help you gain invaluable experience for your CV. The option to study for your Cisco CCNA professional qualifications will also help you kick start your career.

Careers include IT professionals, penetration testers, digital forensic investigators, software developers, systems engineers and technical analysts.

You can train for professional networking qualifications under Cisco as an optional part of this course.

#### What you will study

If you want to pursue a degree in computing but lack the necessary qualifications, our Computing Foundation course is for you. You will gain the knowledge and skills to progress to an undergraduate degree in computing. You will gain hands-on experience with the latest computing software used by the industry. You will learn programming concepts, networking and robotics. We teach mathematics at different levels and will help you to bridge any gaps in your learning.

#### After you graduate

There is high demand for graduates in all areas of computing and information technology. This course is excellent preparation for undergraduate study at Oxford Brookes. After successfully completing the course, you will be offered admission to a computing related degree. A degree in computing is a great start to careers such as software development, network security and computer applications.

"I was interested in computer science but did not have much experience so the foundation year seemed a promising option. From the foundation year, I managed to get onto one of the bachelor programmes which was a lot of fun!"

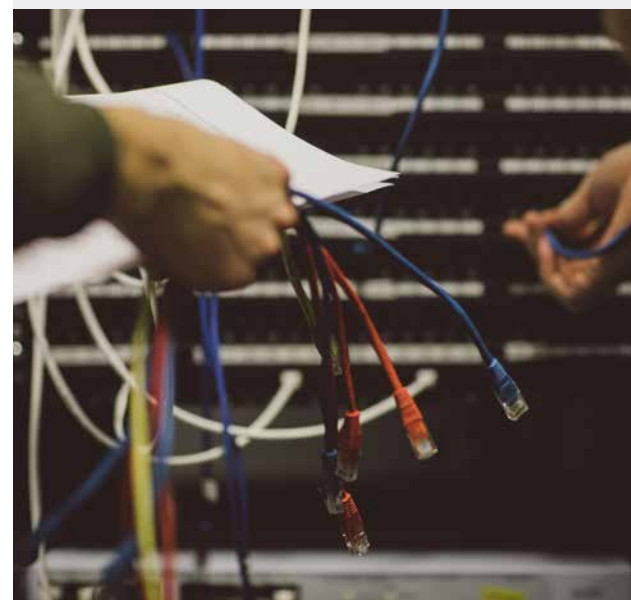

ARIANNA S, GRADUATE

[www.brookes.ac.uk/compfc](http://www.brookes.ac.uk/compfc)

Students working in the network labs

Our **Computer Science for Cyber Security** course is one of only five cyber security BSc programmes in the UK to be awarded provisional certification by the National Cyber Security Centre (NCSC).

## Information Technology for Business

### BSc (Hons) single honours

<b>📍 LOCATION</b> Wheatley Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112
<b>📅 DURATION</b> FT 3 years, or 4 with work placement, PT up to 8 years	<b>A-level</b> BBC <b>BTEC</b> DMM
<b>🏢 WORK PLACEMENT</b> Optional, 1 year	For further guidance on converting your grades to UCAS points, see page 149.
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

#### What you will study

The future of almost every industry relies heavily on the need for skilled IT professionals. Our Information Technology for Business course equips you with the range of skills you need to manage IT applications in professional practice. You will learn about commercial software development, information systems, business and practical management skills. You will have access to excellent facilities and state-of-the-art technology. You will have the opportunity to put those skills into practice with a professional work placement.

#### After you graduate

This course has been developed in response to businesses' need for skilled graduate employees who can manage the information technology function. The profile of students from this programme has been tailored to match the requirements of some of the biggest employers of IT graduates. The combination of technical knowledge, business awareness and interpersonal and project skills will make you especially well qualified for an increasingly diverse job market in managing IT applications.

"The staff are passionate about their subjects and help you tailor your experience to where you want to go with your degree."

HUMERA TARIQ, GRADUATE

[www.brookes.ac.uk/itb](http://www.brookes.ac.uk/itb)

# Education, Early Years and Teacher Training

Become the best teacher you can be, an early years specialist, a policy-maker, or a leader of special education and inclusion. You'll join an inclusive, supportive community of academic staff and students where you can develop your skills and interests, in the classroom or in other educational settings. You will gain the skills at Oxford Brookes to make a positive and lasting impact in the field of education.

## TOP 3 REASONS TO STUDY WITH US

1. Benefit from our **strong placement links** with local schools.
2. Gain **valuable experience through your placements** in school, early years and special education settings
3. Join a vibrant, **supportive academic community**, with school-experienced lecturers.

Student-led lecture discussion

**“This is a wonderful campus and university, where you feel you meet new people and start an exciting chapter in your life.”**

**UCAS tariff points** 104  
**A-level** BCC or equivalent  
**BTEC** DMM  
For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Study how young children learn, grow and interact with one another and those around them. You'll expand your knowledge of child psychology and you'll look at childhood from a sociological perspective, covering a range of topics that affect early childhood. You will take placements in every year of your study in a range of early years settings. These placements will form valuable, practical experiences that will inform and develop your professional practice.

**After you graduate**  
Many graduates go on to train for related jobs such as:

- teaching
- social work
- educational psychology
- play therapy
- youth and family work.

Recent graduates have taken up jobs in educational publishing and educational charities. Some graduates use the degree as a platform to go onto careers in a wide variety of areas such as marketing, law and business.

“The best thing about the course is the range of modules offered, from the unique outdoor learning module to the special needs modules. This was an area I’d never really looked into before, and really enjoyed.”

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Build your expertise as a teacher and gain the practical skills for a career where you can make a positive difference to children's lives. You'll gain a deep understanding of how to become an effective teacher. You will study in an interactive and dynamic environment, where current and relevant educational research informs your learning. In your final year you can choose a teaching specialism area for your future career.

**After you graduate**  
Successful completion of the course will lead to recommendation for Qualified Teacher Status (QTS). You must successfully complete an induction year as part of the Early Career Framework to gain QTS. Graduates are very successful in finding appointments in primary schools nationwide. Feedback shows a high level of satisfaction with teachers who graduated from this course.

“The course at Oxford Brookes not only provides a background and wealth of knowledge on child development and learning, but also provides guidelines for how to teach, plan lessons, how to assess children and activities that you can use in school.”  
**JOANNA BIRD, GRADUATE**

[www.brookes.ac.uk/pte](http://www.brookes.ac.uk/pte)

“Oxford Brookes is truly a university where students feel valued and looked after.”  
**ALICE LAIDLER, EDUCATION STUDIES SENDI STUDENT**

# Engineering and Motorsports

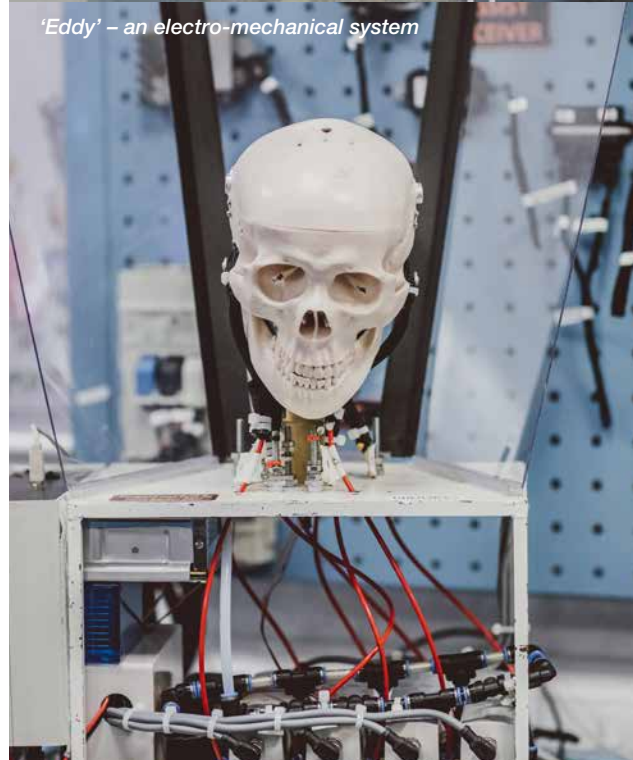

Oxford Brookes has a long standing reputation for delivering top-quality engineering and motorsports degrees. Whether your passion is for road cars, race cars, robots or design, our courses can help you realise your career ambitions. Our links with industry-leading firms and Formula 1 give you access to outstanding work placements. We also have the UK's no.1 Formula Student team, Oxford Brookes Racing (OBR). OBR gives you an opportunity to gain hands-on experience of being part of a high-performance team. You can help design and build the team's car and compete in racing competitions.

## TOP 3 REASONS TO STUDY WITH US

1. Our motorsport, automotive and mechanical engineering courses are **fully accredited** by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council.
2. You'll be using **industry-standard facilities**, including engine test cells and a four-post shaker rig for analysing rigid body and vehicle dynamics.
3. Students benefit from our **strong links with F1 teams**, including work placements and recruitment opportunities.

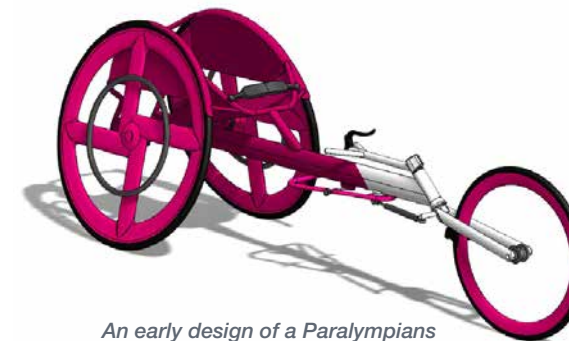

Student at work in the Autolab

'Eddy' – an electro-mechanical system

Our Formula Student team, Oxford Brookes Racing, finished **1st** in the UK and **2nd** in the world in the 2019 Formula Student competitions.

**What you will study**  
The automotive industry is embarking on a journey of vital change as the world looks to move away from fossil fuelled vehicles. This course has been designed to equip you with the skills and knowledge for a career in this exciting field. You will study key engineering principles as well as design, management, dynamics and stress analysis. You will get hands on in the laboratories as you explore the future technologies that will power our cars.

**After you graduate**  
The course has been developed with input from the sector and our graduates are highly sought after. Our work placement programme is commended by professional bodies as a model of excellence. Many of our graduates progress to further study. Employers of graduates include Aston Martin, Bentley, BMW, Cosworth, Cummins, Ford, Jaguar Land Rover, and Nissan.

**What you will study**  
From space satellites to computer monitors, all kinds of products and industries utilise electromechanics. On this course you will explore how mechanical engineering, computing and electronics combine to produce modern appliances and systems. You will learn to design and build electro-mechanical systems and discover how the computing that controls them actually works. Through hands-on learning in the laboratories, you will learn a wide range of skills. You will explore emerging technologies and study units in power systems, electrical engineering and robotic design.

**After you graduate**  
Commercial organisations are looking to employ graduates who understand how these technologies combine. By studying this course, you will be at the forefront of the field. The expected career destinations for graduates include programming for electro-mechanical systems, robotics design and manufacture, research and development, technical sales, production engineering, and project management.

**What you will study**  
Our Engineering Foundation prepares you for degrees in Mechanical, Motorsport and Automotive Engineering. You will gain hands-on experience with real engine components in the laboratories. You will be introduced to the mathematical and scientific principles in engineering. As you progress through the year, you will be encouraged to get creative and explore various engineering disciplines.

**After you graduate**  
The course leads to one of the BEng (Hons) degree courses offered in engineering at Oxford Brookes. During the second semester you will choose your preferred area of engineering, from automotive, mechanical, motorsports and robotics. You will graduate from this course well prepared to continue with your studies. Graduates from the Engineering Foundation have gone on to have very successful careers at the top of the industry.

[www.brookes.ac.uk/engfound](http://www.brookes.ac.uk/engfound)

# Mechanical Engineering

BEng (Hons) single honours / MEng

<p><b>📍 LOCATION</b> Wheatley Campus</p> <p><b>📅 DURATION</b> FT BEng: 3 years, or 4 years with placement; MEng: 4 years, or 5 years with placement, PT BEng: up to 8 years; MEng: up to 9 years</p> <p><b>📖 STUDY OR WORK ABROAD</b> See pages 14-15</p> <p><b>🏠 WORK PLACEMENT</b> Optional, 1 year</p> <p><b>🌐 OPEN TO</b> UK and international students</p> <p><b>📅 COURSE START DATE</b> September</p>	<p><b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112 (BEng) or 120 (MEng) – to include Mathematics and Physics, Chemistry or Engineering</p> <p><b>A-level</b> BBB (for BEng) or ABB (for MEng) to include Mathematics and Physics, Chemistry or Engineering grade B</p> <p><b>BTEC</b> DMM in an engineering subject</p> <p>For further guidance on converting your grades to UCAS points, see page 149.</p>

**What you will study**  
Mechanical Engineering is the grounding of all other engineering disciplines. This course develops you into a skilled incorporated engineer, with the potential to excel in all sectors, from aerospace to automotive. The course covers engineering science, applied mathematics, manufacturing techniques, electronics, graphics and design. You'll gain practical skills and experience by manufacturing a model Stirling engine in our workshop. There are excellent work placement opportunities with local companies such as Bentley, BMW and Rolls-Royce.

**After you graduate**  
This course will prepare you for a career in mechanical engineering, either as a specialist or as an engineer. Our graduates work in design, aerospace, manufacturing, automotive and motorsport engineering. Many students have secured permanent roles with their placement company.

[www.brookes.ac.uk/mecheng](http://www.brookes.ac.uk/mecheng)

# Mechanical Engineering Design

BEng (Hons) single honours

**LOCATION**

Wheatley Campus

**DURATION**

FT 3 years, or 4 years with placement, PT up to 8 years

**STUDY OR WORK ABROAD**

See pages 14-15

**WORK PLACEMENT**

Optional, 1 year

**OPEN TO**

UK and international students

**COURSE START DATE**

September

**TYPICAL OFFERS**

UCAS tariff points 112

A-level BBC

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**

Our Mechanical Engineering Design degree covers a wide range of engineering practice. You'll learn key skills and focus on computer-based engineering design. You'll discover how to turn basic engineering principles into design possibilities, as well as find solutions for industry problems. You'll take design ideas and turn them into computer models and create your own design solutions for your work portfolio. You'll learn in state-of-the-art facilities with industry standard software.

**After you graduate**

This course is excellent preparation for the world of work. Our course leads to professional recognition as an Incorporated Engineer (IEng). We offer excellent work placements with our industry partners and many graduates take jobs with their placement company. Our graduates work at top engineering companies, including Jaguar, Reaction Engines and Blatchford Products.

September

**TYPICAL OFFERS**

UCAS tariff points 112 (BEng) or 120 (MEng) – to include Mathematics and Physics, Chemistry or Engineering

A-level BBB (for BEng) or ABB (for MEng) to include Mathematics and Physics, Chemistry or Engineering grade B

BTEC DMM in an engineering subject

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**

If you have a passion for motorsports then our Motorsport Engineering degree is for you. We are surrounded by Formula 1 teams and leading automotive companies in Oxford. They inform our teaching and ensure you have the necessary skills to compete in the industry. They also offer you excellent placement opportunities. On this course you will learn engineering principles specific to motorsport. You'll cover everything from aerodynamics to engineering design. You'll put your skills into practice with practical workshops and assignments in our engineering labs.

**After you graduate**

The local autosports industry supports the course and shapes its content. Oxford Brookes has a reputation for its students gaining graduate jobs with Formula 1 companies as race engineers, designers and chassis or powertrain engineers. In fact every current competing Formula 1 team has at least one Oxford Brookes graduate working for them. Companies that have offered work placements and employment opportunities include Mercedes GP, Williams, McLaren, Red Bull Racing and Prodrive.

# Motorsport Technology

BEng (Hons) single honours

**LOCATION**

Wheatley Campus

**DURATION**

FT 3 years, 4 years with placement, PT up to 8 years

**STUDY OR WORK ABROAD**

See pages 14-15

**WORK PLACEMENT**

Optional, 1 year

**OPEN TO**

UK and international students

**COURSE START DATE**

September

**TYPICAL OFFERS**

UCAS tariff points 112

A-level BBC

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**

This course teaches motorsport technologies and computer-aided design for racing cars. You will learn to create, analyse and improve the quality of engineering designs. We are surrounded by Formula 1 teams and leading automotive companies in Oxford. They inform our teaching and ensure you have the necessary skills to compete in the industry. They also offer you excellent placement opportunities. You will graduate with a knowledge of the entire design process for racing cars.

**After you graduate**

The UK motor industry employs thousands of graduates each year and has a highly successful autosports sector. Whether it's a rallying, F1, Indycar or touring car race, the chances are that a British car will be the winner. All F1 teams have employed Oxford Brookes graduates in the last three years.

On the other hand, your aspirations may lead you to design the next Mini or the latest executive saloon with an international pedigree. These are the career paths to which our undergraduates aspire, and Motorsport Technology provides the right balance of education and practical experience to equip you for this exciting profession.

[www.brookes.ac.uk/motortech](http://www.brookes.ac.uk/motortech)

“Staff seriously care about student wellbeing and are personally available to discuss solutions during the times of hardship. This course has proved that Engineering can be taught understandably, simply, in a funny and engaging way. And, most importantly, staff showed me the relevance of the modules in professional engineering.”

MAREK BIELAWA, MEng MOTORSport ENGINEERING GRADUATE

# English and Communication

Oxford is a beautiful city that offers an unparalleled literary history. It is a fantastic place to study English, literature and communication – a place to be inspired and inspiring. Our department is a vibrant and supportive one. You'll be encouraged to take part in lively exchanges of ideas around literature, language and contemporary culture. You'll gain specialist language and communication skills that are highly valued by UK and international employers. Furthermore, we have excellent partnerships with the city's main arts and cultural providers, as well as the leading companies that make our city an incredible communications hub.

## TOP 3 REASONS TO STUDY WITH US

- 1. You'll be taught by tutors who are **active researchers**, so what you learn is shaped by the latest thinking.
- 2. Explore our partnerships, taking opportunities in and around Oxford, **gaining real life experience**.
- 3. Our courses provide the opportunity to develop **excellent employment skills** from analytical and problem-solving skills to great team working and communication skills.

Professor Simon Kövesi and actor Toby Jones discussing their collaboration on poet John Clare

We have excellent on-campus literary resources including the Man Booker Prize Archive, the Royal Literary Fund Fellows and the Oxford Brookes Poetry Centre.

English Literature BA (Hons)	page 94
English Literature with Creative Writing BA (Hons)	page 94
Liberal Arts BA (Hons)	page 95

## Communication, Media and Culture

BA (Hons) single honours /  
BA or BSc (Hons) joint honours

### 📍 LOCATION

Harcourt Hill Campus

### 📅 DURATION

FT 3 years, PT up to 6 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### JOINT HONOURS OPTION

Please see page 153 for options.

### 👤 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Explore the forces that shape and drive today's media, creative and cultural industries. This course is structured around the three key themes of communication, media and culture. You can focus on one theme, or on all three, according to your interests and ambitions. You'll learn the principles of communication across a range of media and cultural contexts, through a mix of theoretical and practical work. You'll gain the specialist analytic and creative skills needed to launch your future career.

### After you graduate

Students have previously held internships at:

- the BBC
- Disneyworld Florida
- Sky TV.

Recent graduates have gone on to work as screenwriters, social media managers, TV presenters, media analysts, communications officers, digital game producers, design experts and creatives for global and local companies.

## English Language and Linguistics

BA (Hons) single honours /  
BA (Hons) joint honours

### 📍 LOCATION

Harcourt Hill Campus

### 📅 DURATION

FT 3 years, PT up to 6 years

### 🌐 STUDY OR WORK ABROAD

See pages 14-15

### 🏢 WORK PLACEMENT

Optional

### JOINT HONOURS OPTION

Please see page 154 for options.

### 👤 OPEN TO

UK and international students

### 📅 COURSE START DATE

September

### ✔ TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

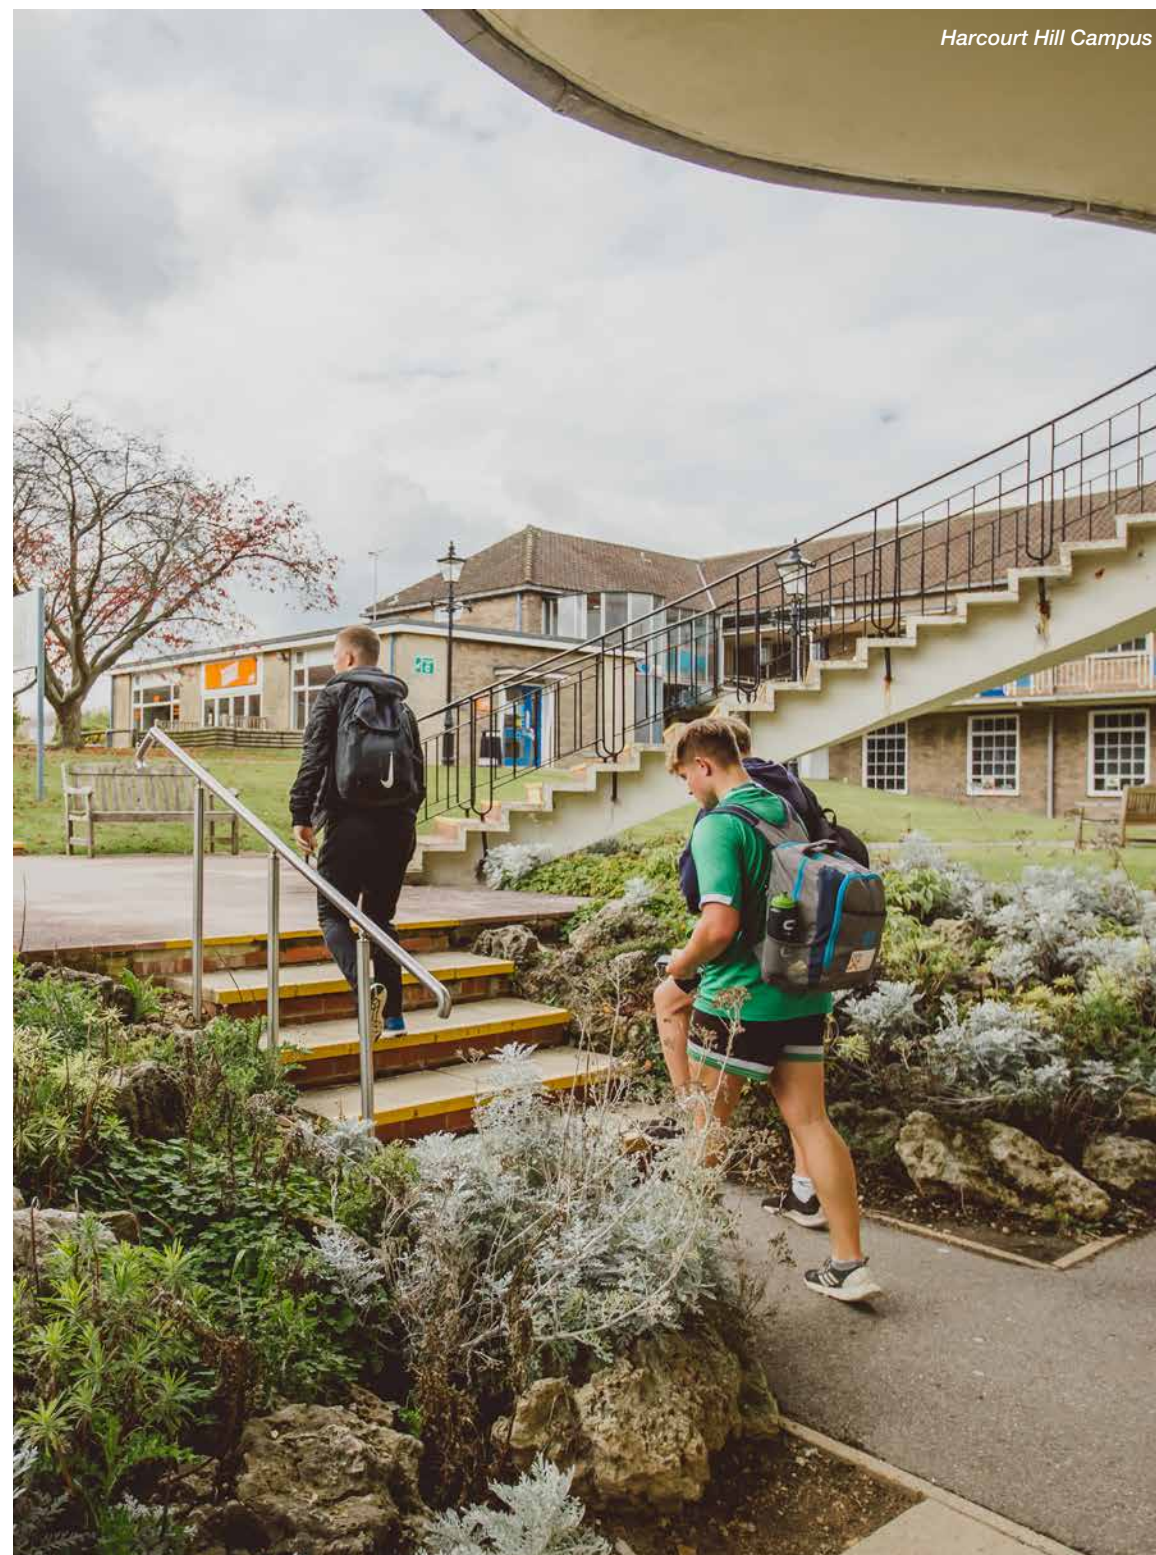

Discover the diverse field of language and linguistics. You'll study how language works and how we use it to communicate effectively in today's globalised world. You'll explore topics such as the relationship between language and identity, how the brain processes language and how language analysis can help to solve crimes. You will study areas of sociolinguistics, psycholinguistics, and language learning and teaching, amongst others.

### After you graduate

You will have developed skills in analysing texts for their communicative function and persuasive techniques, as well as in relation to their (inter) cultural aspects. This is an advantage in the UK and international job markets. Recent graduates now work in broadcast media (BBC, ITV), print journalism, publishing, marketing, advertising, teaching (in the UK and overseas) and financial PR.

We have strong links with local innovative PR companies that run national campaigns.

**UCAS tariff points** 112

**A-level** BBC

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Read some of the greatest works of literature ever written and examine major issues that have affected society across the centuries. From Shakespeare to the present day, you'll explore authors and ideas that have shaped how we see the world, studying exciting areas of interest such as literature and technology, crime and transgression and how to build a utopia. Challenge your beliefs and develop your awareness, while gaining the skills you need for the future.

**After you graduate**  
As an English Literature graduate you will be able to communicate with clarity and confidence and will possess refined analytical and reasoning skills. Recent graduates have entered careers in publishing, journalism, advertising and media, public relations, teaching and commerce. Others have gone on to further study such as our English Literature or Creative Writing MAs.

“The combination of lectures and seminars has proven to be an excellent framework for effective study for me and provided a friendly and supportive environment in which topics can be discussed and developed.”

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Develop your creativity and focus as a writer within a close-knit community of writers and an academic team who are experts in their field. As well as learning the core skills of critical reading and creative writing, you will focus on the area of literature that inspires you most. Follow your passions and discover new strengths and creative talent. Take creative writing modules throughout your degree, and produce an extended creative project in your final year.

**After you graduate**  
You will be able to communicate with confidence, possess refined analytical and reasoning skills and express yourself both critically and creatively. Recent graduates have entered careers in publishing, journalism, advertising and media, public relations, teaching and commerce. Others have gone on to further study – for example with our Creative Writing MA.

Our open lectures have had high-profile guest speakers, including international best-selling author Philip Pullman.

**💼 WORK PLACEMENT**  
Optional

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BCC

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course allows you to develop a strong base of knowledge in an exciting range of arts, humanities and social science subjects such as history, politics, philosophy, English, literature, and history of art. You'll also pick a modern language from beginner French, German or Spanish. This multidisciplinary approach means that you will develop your critical thinking skills, while widening your cultural perspectives and learning how to apply interdisciplinary thinking to finding solutions to global issues.

**After you graduate**  
Throughout the course you will develop a diverse range of skills that are highly valued by prospective employers, such as learning how to identify, locate and apply reliable information effectively. This course is excellent preparation for a career in a wide range of sectors such as journalism and the media, marketing and advertising, public relations, business management, local government and much more.

This course is particularly well suited for students who would prefer to study a broader range of disciplines rather than a single subject area.

[www.brookes.ac.uk/liberalarts](http://www.brookes.ac.uk/liberalarts)

# History and Philosophy

Explore some of the most exciting social and cultural themes that shape the society we live in today. The fields of humanities, history, history of art and philosophy offer flexible learning approaches in a supportive and dynamic environment. Your courses are taught by leading researchers in their field and are thus informed by the very latest thinking. You'll be encouraged to enrich your studies through engaging work placements which will help prepare you for employment once you finish. You'll graduate with valuable skills in communication, critical awareness and reasoning.

## TOP 3 REASONS TO STUDY WITH US

1. You can **specialise in topics** that really interest you and pick areas you have never studied before.
2. You'll tackle some of the most exciting and **fundamental questions** about human nature and our place in the world.
3. You'll gain a greater appreciation of how political, social and artistic change happens by **studying the past**.

Students on the Jack the Ripper tour

History of Art field trip, Oxford

Oxford is world-famous for its history, and we draw on this rich resource to ensure that students are ready for a career in their field of interest.

**A-level** DDD or equivalent

**BTEC** MMP

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Our Foundation in Humanities course lets you examine a broad range of humanities subjects such as History, Philosophy, English Language and English Literature, whilst developing your oral, written and interpersonal skills. Our course is ideal if you want to study at Oxford Brookes but need to supplement your A-levels, or if you are returning to study after a long break. Throughout the course, your academic adviser will provide advice and support and will help you explore options for continued study.

**After you graduate**  
Successful completion of this course guarantees you a place on a range of degree courses in the Faculty of Humanities and Social Sciences at Oxford Brookes. These include Anthropology, Criminology, Education Studies, English Language and Linguistics, English Literature, English Literature with Creative Writing, Geography, History, History of Art, International Relations and Politics, Philosophy and Sociology.

Successfully completing this course will guarantee entry on to a number of degree courses here at Oxford Brookes.

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course will provide you with the chance to investigate the changing social and cultural ideas and attitudes that shape the society we live in today. You will discover much more than historical events. You'll explore striking events and issues that are directly relevant to our lives today – like crime, gender, warfare, medicine, race and much more. You'll have the flexibility and freedom to explore your interests as a historian while being supported by academics who are experts in their field.

**After you graduate**  
You will gain transferable skills crucial to the employment market. You can enhance your career prospects by carrying out a work placement in a range of settings such as museums, heritage sites or archives.

Graduates have entered the civil and diplomatic services, law, teaching, business, publishing, marketing and the heritage industry. Some also go on to further study – often through the History MA here at Oxford Brookes.

“What makes the teaching here so great is that the modules are tailored so that they match the lecturers’ areas of expertise, ensuring that you are always being taught by someone who is extremely well informed about the subject.”

ISOBEL WILKINSON RIPPIN, GRADUATE

[www.brookes.ac.uk/history](http://www.brookes.ac.uk/history)

## History of Art

BA (Hons) single honours /  
BA (Hons) joint honours

**📍 LOCATION**  
Headington Campus

**📅 DURATION**  
FT 3 years, PT up to 6 years

**👤 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENT**  
Optional

**JOINT HONOURS OPTION**  
Please see page 155 for options.

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**What you will study**  
This course provides you with the opportunity to deepen your knowledge and appreciation of the history of art, from Renaissance to Modernism. In a stimulating and enriching environment, you will be taught by specialists in painting, architecture, sculpture, design and art theory. You will undertake guided visits to museums and galleries in Oxford and London, and an outstanding feature of this course is the field trip to Paris taken in Year 2.

**After you graduate**  
Recent graduates have taken up posts in the Ashmolean Museum, the National Portrait Gallery and Sotheby's. Others are currently working in arts journalism and teaching. A number of students have been inspired to continue their studies at postgraduate level. There are opportunities to gain work placements in a number of Oxford museums or by working with Oxford Brookes' own collections.

“The opportunity to take part in a field trip to Paris was something that really attracted me to the course at Oxford Brookes. I really enjoyed the insightful and frequent visits to museums and galleries that were organised as part of the course.”

VY TRAN, GRADUATE

## Philosophy

BA (Hons) single honours /  
BA or BSc (Hons) joint honours

**📍 LOCATION**  
Harcourt Hill Campus

**📅 DURATION**  
FT 3 years, PT up to 6 years

**👤 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENT**  
Optional

**JOINT HONOURS OPTION**  
Please see page 156 for options.

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BCC or equivalent

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Examine, test and challenge some of the biggest questions surrounding human nature and our place in the world in an encouraging and student-led learning space. On this course, you will explore fundamental issues concerning thought, consciousness, meaning, evil, identity, freedom, knowledge and morality. You will engage with the great philosophers of the past as well as leading contemporary thinkers and you will develop the ability to reach your own conclusions.

**After you graduate**  
You will graduate with reasoning and communication skills that are highly prized by employers. Philosophy graduates have gone on to work in a wide range of sectors, including journalism and the media, civil and diplomatic services, teaching, law, marketing and counselling.

“The course opened up a new and diverse way of perceiving the world and I feel like it has developed me to become an expert in my field.”

MARCIN IWANKIEWICZ, GRADUATE

[www.brookes.ac.uk/philosophy](http://www.brookes.ac.uk/philosophy)

# Languages

In today's globalised economies, language skills are highly valued by most modern-day employers. Alongside world-class language teaching, you'll learn about the country's history, culture and business working environment. You will not only graduate with a globalised perspective, but you'll gain solid language and communications skills that will make you stand out from others.

## TOP 3 REASONS TO STUDY WITH US

1. You'll have **access to talks and events** with artists, scholars and other well-regarded cultural experts in your chosen language. You will also have the opportunity to attend free cultural and linguistic lectures in Oxford.
2. Our students on the BA Applied Languages course obtain **highly sought-after work placements**. Recent work placements have included Media-Slide, Asenium consultants in Paris, Midi-Loc in Antibes, SEK schools in Madrid and Barcelona and Chocolates del Mundo in Santiago de Chile.
3. You **can start Japanese from scratch** and graduate with a job in Japan. This is supported by a full-year study abroad in Japan, interactions with Japanese students through buddy schemes and language exchange modules.

Students enjoying a traditional tea ceremony in our Japanese Room with Senior Lecturer Alex Jacoby

All our language courses allow you to experience the culture and improve your linguistic skills in greater depth – in Japan, France, Belgium, Spain, Mexico, Taiwan and Uruguay. They are multidisciplinary and focus on employability.

**"I joined Oxford Brookes with the ambition of becoming a voice actor in Japanese as well as in my native English. I live in Tokyo and have fulfilled that ambition."**

ADELAIDE AMISSAH, GRADUATE

## Applied Languages

BA (Hons) single honours

### LOCATION

Headington Campus

### DURATION

FT 4 years, PT up to 8 years

### STUDY AND WORK ABROAD

See pages 14-15

### WORK PLACEMENT

Compulsory, up to 1 year

### OPEN TO

UK and international students

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent – to include A-level grade C or above in primary language choice: French, Spanish or English as a Foreign Language

BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Develop your professional skills as a linguist by tailoring your degree to your interests: study two modern languages, pick specialist options and carry out a study and work placement in one or two countries. After your second year, this course allows you to further specialise in both of your languages, in your main language and your professional options, or continue studying all three.

### After you graduate

You will graduate with advanced communication skills in one or two languages, specialist knowledge of your chosen professional options, valuable work experience and highly developed cultural awareness. This combination will make you attractive to future employers.

Previous graduates have gone on to careers in the media, public relations, language teaching, event management, and international organisations. Many also continue to do postgraduate study, including business, international development, teacher training, and transnational studies, amongst others.

“On this course you have a placement year so I travelled abroad and undertook a work placement at the University of Barcelona.”

RORY SPRINGBETT, GRADUATE

[www.brookes.ac.uk/applang](http://www.brookes.ac.uk/applang)

## Japanese Studies

BA (Hons) single honours /  
BA (Hons) joint honours

### LOCATION

Headington Campus

### DURATION

FT 4 years, PT up to 8 years

### STUDY AND WORK ABROAD

See pages 14-15

### WORK PLACEMENT

Compulsory, 1 year

### JOINT HONOURS OPTION

Please see page 155 for options.

### OPEN TO

UK and international students

### COURSE START DATE

September

### TYPICAL OFFERS

UCAS tariff points 104

A-level BCC or equivalent  
BTEC DMM

For further guidance on converting your grades to UCAS points, see page 149.

### What you will study

Gain insights into Japanese history and culture while learning to speak, read and write the Japanese language. You'll study aspects of Japanese society and culture, from ancient Shinto customs to modern manga cartoons. You'll develop strong language skills ranging from conversation to translation. During your placement year, you will pursue an intensive language course and will explore Japanese culture at one of our partner universities in Japan.

### After you graduate

In addition to Japanese language skills and the ability to negotiate cultural norms and differences, you will graduate with excellent analytical, team-working and presentation skills that will make you attractive to employers.

Graduates have found positions at the Japan Foundation and the Japanese Embassy in London. Others have worked in tourism, international management and media, translation and language teaching.

“I'd bought a really interesting book on Japanese culture and when I was selecting which university to go to I realised that one of the lecturers at Oxford Brookes had actually written the book.”

ANDREW BANKS, GRADUATE

[www.brookes.ac.uk/japanese](http://www.brookes.ac.uk/japanese)

Tsutenkaku tower  
in Osaka, Japan

# Law

Studying Law at Oxford Brookes gives you a deep appreciation of the legal system and the role of law in society. Our law courses will open up a multitude of career paths for you, both inside and outside of the legal profession. You can expect hands-on opportunities to develop your legal, research and communication skills. You'll be actively encouraged to participate in a number of career enhancing employability events, such as guest lectures, law fairs, mentorship programmes, pro bono work schemes and mock trials with real judges and legal practitioners.

## TOP 3 REASONS TO STUDY WITH US

- 1. We have a **long record of excellence and innovation in teaching** which is informed by both our student-centred ethos and our outstanding research.
- 2. Our teaching staff are **active researchers and experienced legal professionals**, so your learning is underpinned by the latest thinking and cutting-edge research.
- 3. There are plenty of **opportunities to boost your employability**, like meeting practising solicitors and barristers at our law fair, or taking part in mooting and client interviewing competitions to hone your skills in practice.

Moot court in Headington Hill Hall

The School of Law's pro bono scheme was set up by two students in 2001 to harness students' skills for the benefit of the community. Pro bono provides a valuable introduction to the world of legal practice, and is highly valued by employers.

<b>👤 OPEN TO</b> UK and international students	For further guidance on converting your grades to UCAS points, see page 149.
<b>📅 COURSE START DATE</b> September	

### What you will study

Join our supportive and close-knit legal community and gain the academic knowledge and critical skills needed to study for a law degree. This course draws upon teachings from our School of Law, which means you will develop key legal skills, enhance your problem-solving and oral skills, and develop highly valued competencies in legal research and writing. This course is ideal if you want to study Law at Oxford Brookes but need to supplement your A-levels, or if you wish to return to study after a long break.

### After you graduate

Successful completion of this course gives you guaranteed entry to any of our undergraduate courses within the School of Law. Additionally, by the end of this course you will have been coached in written expression, presentation skills, independent learning, accessing information from a range of sources and working to deadlines. All of these qualities are highly valued by employers in a range of workplaces.

You will have small group tuition in essential academic skills.

# Marketing, Events and Hospitality Management

Our dynamic range of marketing, events and hospitality management courses provide you with both the academic and practical skills needed to solve real-world problems. Our academics are experts in their fields and have invaluable industry knowledge. This gets passed directly on to you, so you benefit from the latest insights.

## TOP 3 REASONS TO STUDY WITH US

1. We have **great links with industry, providing invaluable insights** to enhance your learning experience.
2. You'll have the **chance to spend a year in a paid work placement**. Recent placement locations include Disney, L'Oreal, Sony and Warner Brothers. We've also had students work at some of the world's most prestigious hospitality organisations, such as Marriott, Hilton, Four Seasons, Dorchester Collection and The Savoy.
3. Oxford is the perfect place to study hospitality and events management. It allows you to **link up with all sectors of the hospitality and tourism industry** and events across the region.

Dr Frances Brassington, Programme Lead for Undergraduate Marketing, is the co-author of *Principles of Marketing*, a seminal textbook now in its fourth edition

Hospitality management students on placement at The Savoy Hotel in London

Ranked **19th** for Marketing in the *Complete University Guide* 2021.

# Events Management

BA (Hons) single honours

<p><b>📍 LOCATION</b> Headington Campus</p> <p><b>📅 DURATION</b> FT 3 years, or 4 years with work placement, PT up to 8 years</p> <p><b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15</p> <p><b>🏠 WORK PLACEMENT</b> Optional, 1 year</p> <p><b>👤 OPEN TO</b> UK and international students</p> <p><b>📅 COURSE START DATE</b> September</p>	<p><b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 112</p> <p><b>A-level</b> BBC or equivalent</p> <p><b>BTEC</b> DMM</p> <p>For further guidance on converting your grades to UCAS points, see page 149.</p>
---	---

**What you will study**  
This course reflects the diversity of the event management industry by exploring a range of event areas – from sports to culture and business. It is underpinned by the UN's Principles of Responsible Management Education and considers the impact of events on the wider community. You will develop specialist understanding of event management including operational, marketing and legal requirements, and resource and project management. You will have the opportunity to work on live events to further develop your practical skills. You will also have the opportunity to undertake a one-year graduate-level work placement to enhance your CV and network within the industry.

**After you graduate**  
You will become an events management professional with a range of transferable skills to succeed in the events industry. Sectors include conference and exhibition centres, events and marketing agencies, charities, corporations, sports organisations and venues such as hotels and visitor attractions.

“This course has given me the opportunity to explore an exciting industry and has provided me with skills to work in various roles. The teaching staff are fun, friendly and really supportive, I have really enjoyed my time studying here at Oxford Brookes!”

LUCY McTIGHE, EVENTS MANAGEMENT STUDENT

# International Hospitality and Tourism Management

BSc (Hons) single honours

<p><b>📍 LOCATION</b> Headington Campus</p> <p><b>📅 DURATION</b> FT 3 years, or 4 years with work placement, PT up to 8 years</p> <p><b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15</p> <p><b>🏠 WORK PLACEMENT</b> Optional, 1 year</p> <p><b>👤 OPEN TO</b> UK and international students</p> <p><b>📅 COURSE START DATE</b> September</p>	<p><b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104</p> <p><b>A-level</b> BCC or equivalent</p> <p><b>BTEC</b> DMM</p> <p>For further guidance on converting your grades to UCAS points, see page 149.</p>
---	---

**What you will study**  
Building on the Oxford School of Hospitality Management's international reputation as a leader in hospitality management education, this course will provide you with an excellent learning experience that combines research-informed teaching with up-to-date practitioner insights. You will focus on core management disciplines (human resources, finance, marketing, operations) and will be encouraged to specialise in areas which reflect your career plans. There's an optional paid work placement year, the chance to study abroad, mentoring from industry professionals and excellent networking opportunities.

**After you graduate**  
Having developed the knowledge, skills and attributes needed to be an effective and ethical manager in international hospitality and tourism, you will be well prepared to secure positions with some of the industry's largest international brands such as Fairmont Hotels & Resorts, InterContinental Hotels Group or The Ritz.

“I have been challenged in many ways while learning and especially during my placement year at the Hilton hotel. The most rewarding time for me was successfully completing my final year project and I got a lot of support from my academics.”

# Mathematics

With recent developments in digital technology, society has entered the era of 'big data'. With this data science revolution, there is a huge increase in the demand for graduates with advanced mathematical knowledge. Employers recognise that mathematical knowledge and modelling skills are essential to the solution of many current problems the world is facing and can be applied to almost any industry. Studying mathematics at Oxford Brookes will equip you to help solve these problems.

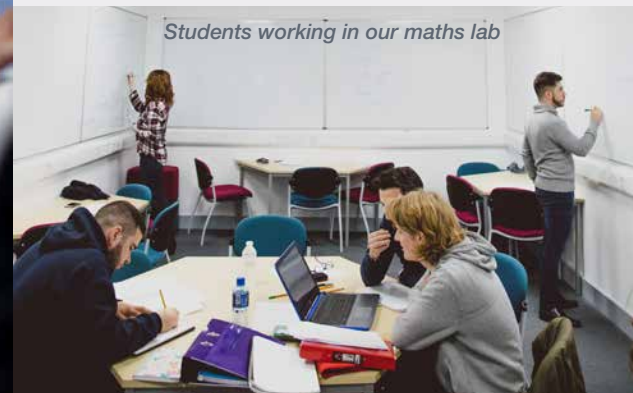

## TOP 3 REASONS TO STUDY WITH US

1. Our courses are **grounded by strong theoretical knowledge** of mathematics.
2. You will **learn real mathematical applications** including programming, data analysis, financial mathematics and machine learning.
3. You will be part of a **welcoming and inclusive** mathematics team, where you will be supported throughout your studies.

**"I chose Oxford Brookes because I loved the atmosphere of Oxford and when I met the mathematics staff they were so friendly and welcoming."**

**MAHSHID FARJADPOUR,  
MATHEMATICS STUDENT**

## COURSES IN THIS SECTION

**Foundation in Mathematics**  
Foundation course page 116

**Mathematics**  
BSc (Hons) page 116

At Oxford Brookes, we deliver mathematics degrees that are grounded by a strong knowledge of the fundamental principles of mathematics, a high competence in data analysis and expertise in programming. This will prepare you for a variety of careers including an actuarial, data scientist or consultant, or for further studies and research.

## Foundation in Mathematics

### Foundation Course

**📍 LOCATION**  
Wheatley Campus

**📅 DURATION**  
FT 1 year, PT 2 years

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 64

**A-level CC**  
**BTEC MPP or MM**

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This Foundation Year in Mathematics will give you the skills and knowledge required to progress onto an undergraduate degree in mathematics. This course will start with a thorough revision of GCSE and A-level Mathematics and will continue with an introduction to university mathematics. Furthermore, you will learn transferable skills that are key for undergraduate studies in Mathematics such as coding or data analysis. These skills are in high demand by employers in exponentially growing sectors.

**After you graduate**  
This course is the perfect preparation for advancing onto an undergraduate degree in mathematics. You will graduate with the knowledge and skills required to study university level mathematics. Your problem-solving skills will be enhanced and you'll gain analytical skills that will be pivotal to progressing onto further study.

Our Mathematics degrees have recently been revised to ensure we are delivering a degree that will prepare you for a career at the forefront of this digital, data driven age.

**BTEC DM** plus A-level Mathematics grade B

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course combines computing, statistical and mathematical skills to equip you to deal with the challenges of our modern, data-driven society. You will learn how to use programming to model and solve complex mathematical problems from science and industry. These skills are highly sought after by employers. You will also study a variety of the applications of mathematics. These include financial mathematics, machine learning and data analysis.

**After you graduate**  
Recent research has shown that graduates in mathematical disciplines enjoy one of the highest earning potentials of all graduates. Employers recognise that mathematical knowledge and skills are essential to the solution of many current problems, not only in science and technology but also in business and commerce. Taking this course can lead to a wide range of career options, including banking, actuarial science and data science.

# Nursing, Midwifery, Healthcare and Social Work

If you want a career in nursing, midwifery, social work or one of the allied health professions (AHPs) we can give you a great start. All our degrees are approved by regulatory bodies including the Nursing and Midwifery Council and the Health and Care Professions Council. You'll be learning from clinically experienced staff and will gain work experience in a variety of settings.

## TOP 3 REASONS TO STUDY WITH US

1. Courses are **underpinned by internationally leading research** from the Oxford Institute of Nursing, Midwifery and Allied Health Research (OxINMAHR), which is based at Oxford Brookes.
2. Nursing and Midwifery students are members of the Oxford School of Nursing and Midwifery, **a unique partnership** with Oxford University Hospitals and Oxford Health NHS Foundation Trusts.
3. The Occupational Therapy and Physiotherapy **programmes work closely with the highly regarded researchers** from the Centre for Movement, Occupational and Rehabilitation Sciences.

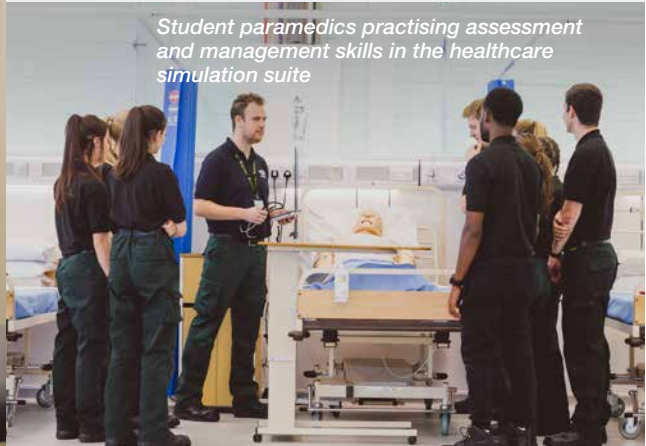

Physiotherapy students practising clinical skills

Nursing students simulating hospital life support

**95%** of our Nursing and Midwifery students are in employment 6 months after graduating.

Midwifery  
BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus,  
Marston Road site

**📅 DURATION**  
FT 3 years; post-experience  
2 years

**🏢 WORK PLACEMENTS**  
Compulsory

All applicants will be  
screened for fitness to  
practise. A disclosure and  
barring (DBS) check will also  
be made.

**🌐 OPEN TO**  
UK and international  
students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 120  
including one A-level or  
a comparable Level 3  
qualification in a science  
subject

**A-level** BBB  
**BTEC** DDM

For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
This course will prepare you to become a knowledgeable, autonomous and compassionate professional. We focus on woman-centred care through:

- critically evaluating and applying evidence that supports midwifery practice
- gaining a thorough understanding of relevant anatomy and physiology.

The programme is accredited as Baby Friendly by Unicef.

**After you graduate**  
As a registered midwife, you will have the opportunity to practise in hospital and community settings, pursue independent practice, or develop your career in specialist settings, including:

- specialist practice, for instance, in high-dependency care or infant feeding
- consultant midwife posts
- teaching
- management and research.

Nursing (Adult)  
BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus,  
Marston Road site, Swindon  
Campus

**📅 DURATION**  
FT 3 years, PT up to 8 years  
maximum (limited part-time  
places available)

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENTS**  
Compulsory

All applicants will be  
screened for fitness to  
practise. A disclosure and  
barring (DBS) check will also  
be made.

**🌐 OPEN TO**  
UK and international  
students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BCC or equivalent  
**BTEC** DMM/D\*D

For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
This course covers nursing care across a patient's adult life span. You will acquire knowledge of fundamental nursing skills, health care systems and illness management. Your learning will be based on recent development in the field, enabling you to adapt to the evolving healthcare industry. We encourage flexible approaches to working and collaboration with service users and other professionals in practice to optimise care.

**After you graduate**  
As a registered adult nurse, you can develop your career in a range of settings:

- in patient wards where medical or surgical treatment is given
- intensive care units
- emergency departments
- operating theatres
- community/district nursing
- practice nursing
- nursing within the private sector.

Nursing (Adult and  
Mental Health)  
MSci

**📍 LOCATION**  
Headington Campus,  
Marston Road site

**📅 DURATION**  
FT 4 years, PT up to 8 years

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENTS**  
Compulsory

All applicants will be  
screened for fitness to  
practise. A disclosure and  
barring (DBS) check will also  
be made.

**🌐 OPEN TO**  
UK and international  
students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104  
including one A-level or  
a comparable Level 3  
qualification in a science  
subject

**A-level** BCC or equivalent  
**BTEC** DMM/D\*D

For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
This course incorporates the strengths of a mental health nurse with those of an adult nurse. Mental health nurses work with people of all ages experiencing significant mental distress / behavioural problems, while adult nurses provide the fundamentals of nursing care across a patient's lifespan. As a dual-registration student, we will support you to develop your interpersonal and therapeutic skills in both fields.

**After you graduate**  
With professional qualifications as a registered mental health nurse and a registered adult nurse, you will have the ability to develop a career in many specialised settings, such as in:

- intensive care units
- accident and emergency departments
- acute mental health services
- eating disorders units
- mental health forensic units.

Nursing (Children's)  
BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus,  
Marston Road site

**📅 DURATION**  
FT 3 years; previously  
qualified, PT up to 8 years  
maximum

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENTS**  
Compulsory

All applicants will be screened  
for fitness to practise. A  
disclosure and barring (DBS)  
check will also be made.

**🌐 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 112  
including one A-level or  
a comparable Level 3  
qualification in a science  
subject

**A-level** BBC or equivalent  
**BTEC** DMM/D\*D\*

For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
This course covers nursing care with a focus on meeting the needs of children and families. You will gain the knowledge, skills and attitudes needed to influence improvements in practice, and support your continued development.

**After you graduate**  
You will be well prepared for employment and will have the ability to work as a staff nurse in a range of settings. Most students get a post within children's healthcare, shortly after graduation.

As you progress, you will have a wide range of options open to you, including careers in:

- clinical practice within hospitals or communities
- management
- nurse education
- research.

# Nursing (Mental Health)

## BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus,  
Marston Road site

**📅 DURATION**  
FT 3 years (or post-  
qualification: 15-24 months  
with individual credits), PT up  
to 8 years maximum (limited  
part-time places available)

**🌐 STUDY OR WORK  
ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENTS**  
Compulsory  
All applicants will be  
screened for fitness to  
practise. A disclosure and  
barring (DBS) check will also  
be made.

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✓ TYPICAL OFFERS**  
**UCAS tariff points** 104  
including one A-level or  
a comparable Level 3  
qualification in a science  
subject  
**A-level** BCC or equivalent  
**BTEC** DMM/D\*D  
For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
This course covers nursing care across a patient's life span. You will acquire knowledge of fundamental nursing skills, healthcare systems and illness management. Your learning will be based on recent developments in the field, enabling you to become a confident and responsive nurse, capable of adapting to the fast-moving and constantly evolving mental healthcare environment.

We encourage flexible approaches to working in collaboration with service users, care providers and other professionals in practice to optimise care.

- After you graduate**  
As a registered mental health nurse, you will have the opportunity to develop your career in a wide range of settings, such as in:
- psychiatric intensive care units
  - emergency departments
  - children's mental health
  - community mental health teams
  - forensic nursing
  - older adult services.

# Occupational Therapy

## BSc (Hons) single honours

**📍 LOCATION**  
Headington Campus,  
Marston Road site

**📅 DURATION**  
FT 3 years

**🏢 WORK PLACEMENTS**  
Compulsory  
All applicants will be  
screened for fitness to  
practise. A disclosure and  
barring (DBS) check will also  
be made.

**👤 OPEN TO**  
UK and international  
students

**📅 COURSE START DATE**  
September

**✓ TYPICAL OFFERS**  
**UCAS tariff points** 112  
including one A-level or  
a comparable Level 3  
qualification in a science  
subject  
**A-level** BBC or equivalent  
**BTEC** DMM/D\*D\*  
For further guidance on  
converting your grades to  
UCAS points, see page 149.

**What you will study**  
Graduation from this course will enable you to register as an occupational therapist. Occupational therapy helps people with various physical, social and mental health needs to participate in everyday life. On this course you will develop the skills and knowledge you need to work as an occupational therapist in different health and social care environments.

**After you graduate**  
As an occupational therapist you will work with patients of all ages to improve their wellbeing and quality of life. Career opportunities include specialist areas of practice, research, teaching and management. Graduates go on to work in the NHS, industry or with charities, both in the UK and abroad.

Student in healthcare skills lab

# Paramedic Science BSc (Hons) single honours

**📍 LOCATION**  
 Headington Campus,  
 Marston Road site

**📅 DURATION**  
 FT 3 years

**🏠 WORK PLACEMENTS**  
 Compulsory

All applicants will be screened for fitness to practise. A disclosure and barring (DBS) check will also be made.

**👤 OPEN TO**  
 UK and international students

**📅 COURSE START DATE**  
 September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 112 including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, PE, Physics, Psychology)

**A-level** BBC or equivalent  
**BTEC** DMM/D\*D\*

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
 Paramedics are registered healthcare professionals, providing unscheduled assessment and management to patients who have various illnesses or injuries. You will learn the clinical skills, knowledge and resilience to care for these patients, with urgent or emergency healthcare needs, across multiple clinical settings. Your course includes academic modules, various clinical placements and simulation-based education.

- After you graduate**  
 There are a variety of career opportunities open to you. Paramedics can develop specific areas of expertise as well as specialist and advanced paramedic roles, including:
- clinical practice
  - critical care
  - education
  - forensic medicine
  - leadership roles
  - providing urgent and emergency care
  - remote medicine
  - research.

# Physiotherapy BSc (Hons) single honours

**📍 LOCATION**  
 Headington Campus,  
 Marston Road site

**📅 DURATION**  
 FT 3 years

**🏠 WORK PLACEMENTS**  
 Compulsory

All applicants will be screened for fitness to practise. A disclosure and barring (DBS) check will also be made.

**👤 OPEN TO**  
 UK and international students

**📅 COURSE START DATE**  
 September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 128 including 40 UCAS tariff points from one A-level or a comparable Level 3 qualification in a biological science subject (eg Biology, PE, Psychology)

**A-level** ABB or equivalent  
**BTEC** DDM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
 This course focuses on the promotion, restoration and maintenance of health and wellbeing. There is an enquiry-based style to learning combined with a focus on physical approaches. By sharing some modules with other health and social care students you will be prepared to work with a variety of healthcare professionals.

- After you graduate**  
 As a registered physiotherapist you can work in a wide range of fields including:
- neurological, respiratory, musculoskeletal care in acute or clinical community settings
  - specialist areas of practice, research, teaching, health promotion or management
  - sport, industry and private practice.

# Professional Development in Health and Social Care BSc (Hons) single honours

**📍 LOCATION**  
 Distance learning

**📅 DURATION**  
 FT 1 year, PT 2 years

**👤 OPEN TO**  
 UK and international students

**📅 COURSE START DATE**  
 September

**✔ TYPICAL OFFERS**  
 Applicants will typically have a Diploma in Higher Education and will be working in a health or social care related role. Offers will depend on experience and/or previous academic study.

**What you will study**  
 This top-up degree is designed to provide a flexible pathway for students who want to turn their graduate diploma into a degree with honours. It is an opportunity to use your work experience as a foundation for academic study which is highly relevant to your role. The modules focus on areas of quality enhancement, mentoring, leadership and evidence informed practice.

- After you graduate**  
 We align the course content with health and social care roles and current practice priorities. Successful completion of the degree will support your continuous professional development, overall employability, further study at postgraduate level and your career progression.

# Social Work BA (Hons) single honours

**📍 LOCATION**  
 Headington Campus,  
 Marston Road site

**📅 DURATION**  
 FT 3 years, PT up to 6 years

**🏠 WORK PLACEMENTS**  
 Compulsory

All applicants will be screened for fitness to practise. A disclosure and barring (DBS) check will also be made.

**👤 OPEN TO**  
 UK and international students

**📅 COURSE START DATE**  
 September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104  
**A-level** BCC or equivalent  
**BTEC** DMM/D\*D

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
 This course leads to the qualification you need in order to apply for social work registration in England with Social Work England. Our course aims to help you become a competent, resourceful and confident practitioner, able to work autonomously in multiprofessional environments. Our degree course has received 100% overall student satisfaction (Discover Uni 2019) and has been ranked 1st in Teaching Quality for Social Work Courses (*Times/Sunday Times Good University Guide 2021*).

- After you graduate**  
 Once you have completed the course, we will inform Social Work England that you have done so, which allows you to register with our regulatory body and work under the protected title of 'Social Worker'. A social work qualification prepares you for future work with both children and adults. Graduates have gone on to work in a variety of settings in charities, private and public bodies. In addition, a social work degree can enable you to go on to do research, train others or practise overseas.

# Nutrition, Sport and Physical Activity

Our degrees are designed to prepare you for a career in this important subject area spanning nutrition (including public health nutrition and clinical nutrition), health, sport, exercise science, coaching, and physical education. You'll learn from academics who combine passion for their subject with international recognition. Our strong employability strand helps you to build experience and create opportunities in a range of settings.

## TOP 3 REASONS TO STUDY WITH US

1. Our degrees are **endorsed by the relevant professional bodies**.
2. Sport and Coaching Sciences staff **work in elite sport, or clinical rehabilitation, and lead both national and international initiatives**.
3. Nutrition students will get an **opportunity to be involved in commercial research and consultancy work** through our Centre for Nutrition and Health (OxBCNH), gaining employability skills in the process.

**🏢 WORK PLACEMENT**  
Optional

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104 including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, PE, Physics, Psychology). Food Technology will be accepted in lieu of a science subject

**A-level** BCC or equivalent  
**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course focuses on five Association for Nutrition competencies, preparing you for work:

- science including metabolism and physiology
- the food chain
- social/behavioural aspects surrounding food
- health/wellbeing
- professional conduct.

You will develop your knowledge on different food related issues such as chronic diseases and use of food additives. In the third year you will have the opportunity to carry out a nutrition-related project, working alongside experienced academics on current research developments.

**After you graduate**  
You will obtain the skills to select a career path of your choice. Our graduates have careers in the food industry, public health, health education, NHS and dietetics. Some of our students continue their studies undertaking master's courses in dietetics and chronic disease specialist routes. We also have graduates that go onto medical school.

**Physical Activity and Health Promotion**  
BSc (Hons) single honours

September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BCC or equivalent  
**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This course will prepare you to be a future leader in the healthcare and fitness industry.

You will study:

- how the human body responds to sport, exercise, nutrition and public health interventions
- how to use these interventions to maximise health across the lifespan.

You will explore the development and delivery of activity interventions, and health promotion initiatives. You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in post-graduate employability.

**After you graduate**  
This course will give you the skills and knowledge for a variety of careers including: community recreation, health promotion, rehabilitation, clinical exercise therapy, research and workplace health and fitness, as well as regional and national level health-based intervention design and delivery.

**Sport and Exercise Science**  
BSc (Hons) single honours

**📍 LOCATION**

**A-level** BCC or equivalent  
**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Evidence suggests that exercise benefits both individuals and societies. Society needs professionals trained in interpreting the health consequences of our current lifestyles as well as the more performance-focused requirements of athletes.

This course provides you with both academic knowledge and practical skills. The course also offers the opportunity to take part in a field trip to the Alps as part of an optional module. In addition, it provides the experience required to launch a career in this exciting field. You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in postgraduate employability.

**After you graduate**  
Our graduates have found employment in many areas including strength and conditioning (Watford Football Club), health promotion and community sports (County Council), clinical exercise physiology in cardiac rehabilitation (NHS), and sport science support for sports clubs eg Oxford United.

They have also gone on to find jobs in teaching, community recreation and as research assistants.

**Sport, Coaching and Physical Education**  
BSc (Hons) single honours

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
This degree is suitable for people who aspire to be outstanding coaches and teachers. It will also appeal to those who want a better understanding of the societal benefits of sport and physical activity.

The course focuses on problem-based learning so you can take theoretical ideas into practical settings. You will improve your employability through:

- placements
- industry mentoring scheme.

You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in post-graduate employability.

**After you graduate**  
Our graduates have found employment in many areas including sports coaching, physical education, sports development within local authorities, national governing bodies, sports clubs and private organisations, and marketing.

A strong employability strand within the degree includes a compulsory work experience module.

# Psychology

130

Our Psychology degree gives you the opportunity to learn more about the workings of the human mind. You'll be taught by research-active staff and have the opportunity to carry out your own research. The course can set you on track to becoming a Chartered Psychologist.

## TOP 3 REASONS TO STUDY WITH US

1. You will take modules **accredited by the British Psychological Society**. This means you become eligible for the Graduate Basis for Chartered Membership (GBC).
2. You will have **access to high quality resources**, including purpose-built laboratories, the latest eye-tracking equipment and facilities to measure brain activity.
3. **95% of our psychology research is globally recognised** (Research Excellence Framework 2014). All our students have the opportunity to work alongside research staff, as well as undertaking their own research projects.

Students learn about the EEG system during their neuropsychology teaching

## What you will study

Psychology is the scientific study of human behaviour and experience. This course gives you the opportunity to explore wide-ranging topics. You will learn about different methods from the high-tech and hands-on, to the theoretical and introspective. Studying both everyday and diagnosable behaviours will give you an understanding of interactions between the brain, behaviour and experience. This means you will have the skills vital to any career, within or outside psychology.

## After you graduate

This course develops interpersonal, practical and analytical skills useful for any career. You will be eligible for the Graduate Basis for Chartered Membership; the first step towards becoming a Chartered Psychologist. Many of our students, after further training, take up careers in:

- professional psychology including occupational and clinical psychology
- health sectors
- education sectors
- research and academia.

The British Psychological Society

Accredited Undergraduate Psychology

[www.brookes.ac.uk/psych](http://www.brookes.ac.uk/psych)

# Social Sciences

When you study Social Sciences you'll examine some of the biggest issues facing societies today. You could explore Japanese pop culture as an Anthropologist, or examine the causes of knife crime as a Criminologist. You could study desertification or smart cities as a Geographer. You could even be working with a local MP as a Politics student.

## TOP 3 REASONS TO STUDY WITH US

- 1. You'll be taught by world class researchers – so your learning will always be **underpinned by the latest developments** in your field.
- 2. You'll have **access to great resources** – like our bone and archaeological analysis lab. You'll also have access to Oxford's Pitt Rivers and Ashmolean Museums.
- 3. You'll **graduate prepared for your future career** – with optional work placements or work experience modules on many of our courses.

BSc (Hons) single honours /  
BA or BSc (Hons) joint honours

<b>📍 LOCATION</b> Headington Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104  <b>A-level</b> BCC <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 6 years	
<b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15	For further guidance on converting your grades to UCAS points, see page 149.
<b>JOINT HONOURS OPTION</b> Please see page 152 for options	
<b>🌍 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

Professor Anna Nekaris is a world-renowned conservation biologist who teaches on the BSc Anthropology course. She is a specialist in nocturnal primates, including the world’s only venomous primates – the slow lorises. You’ll see Anna on modules like Methods and Analysis in Biological Anthropology.

## What you will study

On this course you’ll explore some of the most pressing issues facing human societies today. You’ll gain experience of both biological and social anthropology, and you’ll have the option to specialise in one of these areas. You’ll investigate social anthropological themes from global inequality and migration, to Japanese pop culture. You’ll also learn about key biological issues like human evolution and primate conservation. Your coursework and assessments will develop transferable career skills – like written communication, data analysis and influencing. Lastly, you’ll get to know your course mates and tutors well, studying in small groups and seminars.

## After you graduate

You’ll emerge with transferable skills and experience relevant to a wide range of career options. Our graduates progress to a wealth of career fields, like the civil service, international development, charities and non-governmental organisations, conservation, journalism, museum and heritage management, and more. Our graduates have gone on to work for the British Museum, Oxfam and the Ministry of Defence.

“I didn’t really know what Anthropology was when I first came. But I soon realised I’m fascinated by topics like primate conservation and evolution. I’ve had the best time.”

JESSICA STRIDE, ANTHROPOLOGY STUDENT

<b>JOINT HONOURS OPTION</b> Please see page 153 for options	
<b>🌍 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

Examine the critical issues facing our society today – like digital crime, human rights and the criminal justice system. On this course, you’ll interrogate the root causes of criminal behaviour. You’ll explore the pressing issues facing our society, from knife-crime and sentencing, to globalisation and immigration. You’ll also examine how gender, race and technology influence our understanding of crime. You’ll be able to do a work placement in an area like prison services, police, charities or schools. And you’ll build a strong understanding of how organisations like these identify and fight crime.

## After you graduate

You’ll graduate with the skills and knowledge to jump into a Criminology practitioner role – and you’ll have the transferable skills that are relevant to a wide range of other sectors as well. Graduates may progress to careers in crime consultation, criminal justice, charity and human rights. They might also work for local authorities, police forces or community support services.

100% of students surveyed say staff have made the subject interesting.

# Criminology and Law

BSc (Hons) single honours

<b>📍 LOCATION</b> Headington Campus	<b>✓ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104  <b>A-level</b> BCC or equivalent <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 8 years	
<b>🏢 WORK PLACEMENT</b> Optional work placement module	For further guidance on converting your grades to UCAS points, see page 149.
<b>🌍 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

Explore crime and crime control while mastering key concepts within Law. On this course, you’ll study exciting criminology themes like criminal justice, policing, digital crime and drugs. You’ll also examine highly relevant legal issues like human rights, criminal law and computer law. You’ll develop sought after career skills – like problem solving, analysis, project management and persuasive communication. You’ll have the opportunity to do a work placement in an area like prison services, police, charities or schools.

## After you graduate

You’ll graduate with the skills and knowledge to jump into a wide range of careers. Graduates may progress to careers in crime consultation, criminal justice, charity and human rights. They might also work for local authorities, police forces or community support services.

# Geography

BSc (Hons) single honours /  
BA or BSc (Hons) joint honours

**📍 LOCATION**  
Headington Campus

**📅 DURATION**  
FT 3 years, PT up to 6 years

**🌐 STUDY OR WORK ABROAD**  
See pages 14-15

**🏢 WORK PLACEMENT**  
Optional work placement module

**🎓 JOINT HONOURS OPTION**  
Please see page 154 for options

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 112

**A-level** BBC or equivalent (single honours) or BCC or equivalent (joint honours)

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Explore some of the most pressing issues facing 21st century societies, like climate change, extinction and urbanisation. On this course, you'll be able to focus on human geography, physical geography, or both. You'll study topics like desertification, development, smart cities and nationalism. You'll examine environmental policy, or investigate our changing oceans and atmosphere. Your assessments will help you build skills directly relevant to the workplace – like written communication, reporting, influencing and project management. Lastly, you'll be able to carry out your own fieldwork – in the UK or overseas.

**After you graduate**  
You'll graduate equipped with skills for work – and our graduates have developed careers in areas like international development, catastrophe modelling, environmental management, conservation, leisure and tourism, teaching and more.

“If you're not sure about some modules, keep an open mind – you could end up loving them! I thought I was a Physical Geographer, but when I came to Oxford Brookes, I really enjoyed Human Geography.”

GEORGIE WALKER, GEOGRAPHY STUDENT

[www.brookes.ac.uk/geog](http://www.brookes.ac.uk/geog)

# International Relations

BA or BSc (Hons) joint honours

**📍 LOCATION**  
Headington Campus

**📅 DURATION**  
FT 3 years, PT up to 6 years

**🏢 WORK PLACEMENT**  
Optional work placement module

**🎓 JOINT HONOURS OPTION**  
Please see page 155 for options

**👤 OPEN TO**  
UK and international students

**📅 COURSE START DATE**  
September

**✔ TYPICAL OFFERS**  
**UCAS tariff points** 104

**A-level** BBC

**BTEC** DMM

For further guidance on converting your grades to UCAS points, see page 149.

**What you will study**  
Examine world power relations and gain powerful insight into the world around you. On this course, you'll explore pressing global challenges – like poverty, the environment and human rights. You'll learn about 21st century warfare, you'll study how nations co-operate, and you'll examine the impacts of globalisation. You'll build essential skills for the workplace – like writing policy briefs and advocacy documents. You'll also develop transferable skills like written communication and project management. You'll study in a city that is home to major graduate employers – like Oxfam and Oxford University Press. You'll also be able to take a work-based learning module, where you'll have the opportunity to get work experience – in charities or in government agencies.

At Oxford Brookes, you'll study International Relations as a joint honours subject, alongside another selected subject.

**After you graduate**  
You'll graduate ready for work. Our graduates launch careers in sectors like the diplomatic service, civil service, charity, government, teaching, publishing, journalism, trade unions, law and more.

“There are so many topics you can do on my course. I did French, Japanese and International Relations, but my dissertation was on marketing strategy.”

NIAL PLUMB, INTERNATIONAL RELATIONS AND APPLIED LANGUAGES STUDENT

# International Relations and Politics

BA (Hons) single honours

<b>📍 LOCATION</b> Headington Campus	<b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104 <b>A-level</b> BCC <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 6 years	
<b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15	For further guidance on converting your grades to UCAS points, see page 149.
<b>🏢 WORK PLACEMENT</b> Optional placement year or module	
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

Examine world power relations and understand the roots of political thinking. On this course, you'll question the major issues facing our world today – like climate change, terrorism, migration, racism and more. You'll learn about international security, study human rights and explore the impacts of globalisation. You'll build essential skills for the workplace – like writing policy briefs and advocacy documents. You'll also develop transferable skills like written communication and project management. You'll study in a city that is home to major graduate employers – like Oxfam and Oxford University Press. You'll also be able to take a work-based learning module, where you'll have the opportunity to get work experience – in charities or in government agencies.

## After you graduate

You'll graduate ready for work. Our graduates launch careers in sectors like the diplomatic service, civil service, charity, government, teaching, publishing, journalism, trade unions, law and more.

Graduates earn **£24,000 on average**, six months after finishing this course. This is £3,000 more than graduates of similar courses across the UK.

# Politics

BA or BSc (Hons) joint honours

<b>📍 LOCATION</b> Headington Campus	<b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104 <b>A-level</b> BCC or equivalent <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 6 years	
<b>🏢 WORK PLACEMENT</b> Optional	For further guidance on converting your grades to UCAS points, see page 149.
<b>JOINT HONOURS OPTION</b> Please see page 156 for options	
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

How do politics influence power? On this course, you'll investigate the roots of political activity. You'll discover how governments make decisions. You'll explore the differences between democratic and non-democratic regimes. You'll examine important issues that affect our society today – like the politics of Europe, or the rise of authoritarianism and populism. You'll build essential skills for the workplace – like writing policy briefs and advocacy documents. You'll also develop transferable skills like written communication and project management. You'll study in a city that is home to major graduate employers – like Oxfam and Oxford University Press. You'll also be able to take a work-based learning module, where you'll have the opportunity to get work experience – in charities or in government agencies.

At Oxford Brookes, you'll study Politics as a joint honours subject, alongside another selected subject.

## After you graduate

You'll graduate ready for the workplace. Our Politics graduates work in roles like parliamentary researchers, policy analysts, or constituency caseworkers. Others work in fields like journalism, media analysis or work for political parties.

“The access I had in the library to journals was indispensable. It allowed me to indulge my nerdy side!”

IMY AWAN, POLITICS AND PHILOSOPHY STUDENT

[www.brookes.ac.uk/politics](http://www.brookes.ac.uk/politics)

# Social Anthropology

BA (Hons) single honours

<b>📍 LOCATION</b> Headington Campus	<b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104 <b>A-level</b> BCC or equivalent <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 6 years	
<b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15	For further guidance on converting your grades to UCAS points, see page 149.
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

Do you want to study the pressing issues facing human societies? When you study Social Anthropology, you'll explore everything from labour migration to religious practices. You'll investigate the cultural impacts of digital technologies – or examine the relationships between humans and animals. You'll also be prepared for a job market that increasingly demands person-centred and culturally-informed expertise. You'll be joining a close-knit and supportive department, where students and tutors know each other well. Lastly, since you'll work directly with leading researchers, your learning will be informed by the latest research in the field of social anthropology.

## After you graduate

Our graduates have developed careers in sectors like international aid, non-governmental organisations and charity, management, marketing, the civil service, teaching, heritage management and more.

Graduates from this course have gone on to work for the British Museum, Oxfam and the Ministry of Defence.

[www.brookes.ac.uk/socanth](http://www.brookes.ac.uk/socanth)

# Sociology

BA (Hons) single honours / BA or BSc (Hons) joint honours

<b>📍 LOCATION</b> Headington Campus	<b>✔ TYPICAL OFFERS</b> <b>UCAS tariff points</b> 104 <b>A-level</b> BCC <b>BTEC</b> DMM
<b>📅 DURATION</b> FT 3 years, PT up to 6 years	
<b>🌐 STUDY OR WORK ABROAD</b> See pages 14-15	For further guidance on converting your grades to UCAS points, see page 149.
<b>🏢 WORK PLACEMENT</b> Optional work placement module	
<b>JOINT HONOURS OPTION</b> Please see page 157 for options	
<b>👤 OPEN TO</b> UK and international students	
<b>📅 COURSE START DATE</b> September	

## What you will study

Would you like to explore how humans interact with each other? Or understand how our behaviour and values shape our society? On this course you'll examine some of the most relevant and compelling issues of our time – like gender, migration, 'race', human rights and consumerism. You'll build sought-after skills for the workplace, like project management, data analysis and interviewing – preparing you for the future. You'll also be joining a supportive and close-knit department, where it's easy to get support from your lecturers.

## After you graduate

You'll graduate ready to jump into your career. Our graduates work in fields like international development, marketing, market research, education and social work.

“Before I started, I was worried... But the lecturers are always prepared to sit you down and talk things through. When they saw some of us were struggling with academic reports, they ran a workshop to help us.”

SOPHIE KIRKMAN, SOCIOLOGY JOINT HONOURS STUDENT

[www.brookes.ac.uk/socio](http://www.brookes.ac.uk/socio)

# International pathways courses

Our pathways courses are designed to get international students onto their degree feeling prepared, confident and excited.

Current IELTS level	Duration	Start date(s)
4.5 with at least 4.0 in all skills	24 weeks (over 2 semesters)	September
5.0 with at least 4.5 in all skills	12 weeks (over 1 semester)	September, January or June
5.5 with at least 5.0 in all skills	6 or 12 weeks	June or July
6.0 with at least 5.5 in all skills	6 weeks	July

## PRE-SESSIONAL ENGLISH

Our pre-sessional English courses **help you meet the language requirements of your degree**, and can be combined with our foundation courses.

Pre-sessional English is taught in 6-12 week blocks at four different levels. You can take consecutive course blocks until you reach the level required for your degree course.

If you need IELTS 6.0 with 6.0 in reading and writing, 5.5 in speaking and listening (required for most undergraduate courses), you can see in the table above approximately how long you need to study depending on your current and required language level.

Find out more at [www.brookes.ac.uk/international/pre-sessional](http://www.brookes.ac.uk/international/pre-sessional)

## INTERNATIONAL FOUNDATION COURSES

If you do not meet the minimum academic requirements for our undergraduate courses, you may still be able to apply for one of our international foundation courses.

Our foundation courses provide a bridge between school study in your home country and undergraduate study, and offer a guaranteed pathway to an undergraduate degree if you pass with required grades.

Course	Duration*	Start date(s)	IELTS required
International Foundation Diploma	24 weeks	September or January	5.0 (5.0 in each skill)
International Foundation Diploma (extended pathway)	1 year (includes a semester of pre-sessional English)	September	4.5 (4.0 in each skill)
International Foundation – Business and Technology	4 years (foundation integrated with undergraduate degree)	September or January	5.5 (5.5 in each skill)
International Foundation – Arts, Humanities and Law	4 years (foundation integrated with undergraduate degree)	September or January	5.5 (5.5 in each skill)

*\*Duration listed is for full-time study unless otherwise specified.*

To view our full range of foundation courses, please visit [www.brookes.ac.uk/studying-at-brookes/courses/foundation-courses/](http://www.brookes.ac.uk/studying-at-brookes/courses/foundation-courses/)

Find out more at [www.brookes.ac.uk/international/pathways](http://www.brookes.ac.uk/international/pathways)

## WHY CHOOSE AN INTERNATIONAL FOUNDATION COURSE AT OXFORD BROOKES?

- You are guaranteed to progress onto the first year of a bachelor's degree by passing your foundation year with the required grades.
- Our core class sizes are kept small so you will get the attention you need.
- You will study and become friends with people from all over the world, making your time on your course unforgettable.

# Applying made easy

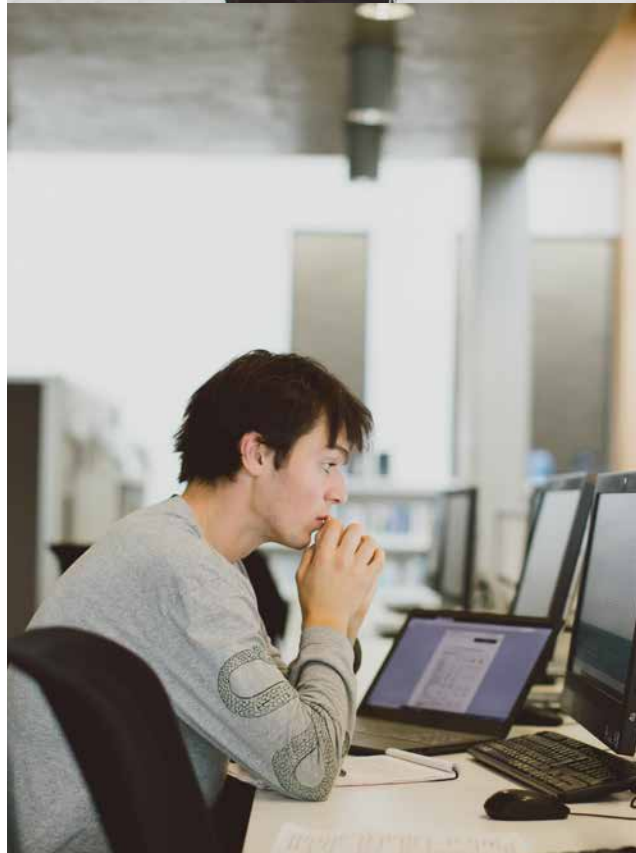

Our friendly admissions team is here to help you through the university application process. How you apply will depend on what kind of course you are applying for, whether you want to study full-time or part-time and your start date.

You can apply for entry in September 2022 or for deferred entry in September 2023. Some of our courses also have a January intake, and you can find further information on the course pages of our website.

If you're applying for full-time study between September 2022 and September 2023, you should apply via UCAS and we encourage you to make sure you submit your application by the deadlines.

If you're applying for part-time study, you can apply directly to Oxford Brookes. For more information on applying direct, please visit: **[www.brookes.ac.uk/apply-direct](http://www.brookes.ac.uk/apply-direct)**

International applicants can either apply through UCAS or directly to the university. Please see our website for application deadlines. We also work with representatives and organisations all over the world who can advise you on study options at Oxford Brookes and help you to apply. Visit our website to find your nearest representative: **[www.brookes.ac.uk/international/country](http://www.brookes.ac.uk/international/country)**

## Exam results

In July, UCAS publishes examination results for the International Baccalaureate and Access to Higher Education Diploma courses. In August, BTEC and A-level results are published.

If your offer is conditional upon obtaining certain grades in other qualifications (for example, English language tests, the European Baccalaureate or other international qualifications), you must send details of your results in writing by email or post directly to the Admissions Office. If you have met the conditions of our offer, UCAS or the Admissions Office will provide you with confirmation of this.

If your results do not quite meet the conditions of the offer, it doesn't automatically mean that you will not be accepted. Your application will then be given further consideration.

## Clearing

If you are not successful, remember that it is still possible to apply for courses through Clearing. Courses that have not been filled by August will be put into Clearing and listed at **[www.brookes.ac.uk/clearing](http://www.brookes.ac.uk/clearing)** and at **[www.ucas.com](http://www.ucas.com)**.

You can get in touch with UCAS for more information about the Clearing system – **[www.ucas.com/clearing](http://www.ucas.com/clearing)**.

## Enrolment

You need to meet the conditions of your offer by 31 August in the academic year in which you apply. If you are applying to a teacher education, healthcare or social work course, you'll need to complete additional steps necessary for you to study the programme (such as a DBS clearance) by 31 July. We'll explain this in the online course page for the courses you are interested in.

When we know for certain that you are coming to Oxford Brookes (when you have either accepted an unconditional offer or finalised an offer after meeting the conditions) we will send you details of how to enrol online. Once you have completed enrolment, you'll be given access to our online student system.

# Entry qualifications and typical offers

We accept a wide range of qualifications. Our admissions team will help you work out your own combination of likely grades and qualifications, which can include credit gained from previous work experience or training.

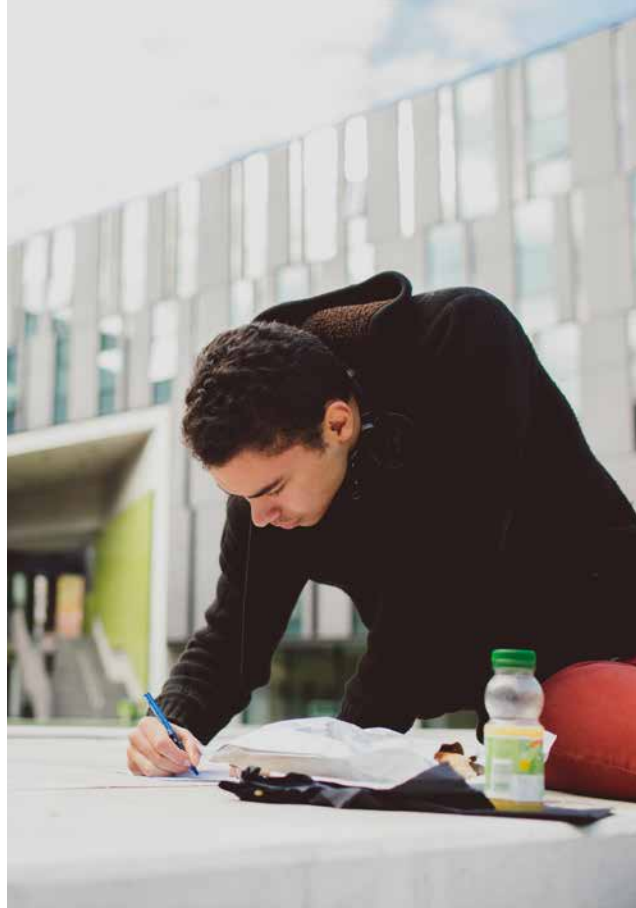

Wherever possible we make our conditional offers using the UCAS tariff. Please see page 149 for a breakdown of how to calculate your tariff score. This gives great flexibility, particularly if you are offering a mix of qualifications, such as two A-levels plus a BTEC National Extended Certificate.

In many cases we don't specify grades to be achieved, because we are looking for achievement across a range of qualifications or subjects.

For a general guide to the grades required, please look at the online course pages.

## First degrees

Our standard entry requirement is three A-levels or equivalent qualifications. In some cases, courses have specific required subjects and additional GCSE requirements.

In addition to A-levels, we accept a wide range of other qualifications including:

- the Welsh Baccalaureate
- the Access to Higher Education Diploma
- a BTEC National Certificate, Diploma or Extended Diploma at a good standard and in a relevant subject
- the International Baccalaureate Diploma
- the European Baccalaureate Diploma
- Scottish qualifications – five subjects in SCE with two at Higher level or one at Advanced Higher level, or three subjects in Scottish Highers or two at Advanced Higher level
- a recognised foundation course (for our international foundation courses please see page 140).

## Contextual admissions

At Oxford Brookes University, we want to attract students from all backgrounds who have the potential to succeed.

We seek to be a fully inclusive institution that reflects society at large, and provides an excellent student experience, a breadth of opportunities and successful outcomes for all students irrespective of their background.

Our Contextual Admissions policy forms part of our commitment to ensuring that all students with the potential to succeed at Oxford Brookes have equality of access.

It allows us to use a range of national and individual data to ensure that we are taking a rounded view of an individual applicant's potential.

It also supports us to make a reduced offer to students where the evidence suggests that their prior attainment may not be a full reflection of their future potential.

For more information see [www.brookes.ac.uk/contextual-admissions](http://www.brookes.ac.uk/contextual-admissions)

## Medical and police clearance

All applicants who receive an offer for a teacher education, healthcare or social work course are checked through the Disclosure and Barring Service and the Independent Safeguarding Authority, and must have satisfactory occupational health screening in order to study.

## International qualifications

We accept a wide range of academic qualifications from around the world. For specific entry requirements for applicants from your country, see [www.brookes.ac.uk/international/country](http://www.brookes.ac.uk/international/country).

If your academic qualifications do not meet these requirements we offer a range of international foundation courses (see page 140).

## English language requirements

If your main language is not English, you will need to show us that your English is at the right level to enable you to study here successfully.

To start an undergraduate degree you will need to meet our English language entry requirements as well as the required academic qualifications:

- IELTS band 6.0-7.0 or above (including 6.0 in reading and writing, and 5.5 in listening and speaking).

IELTS is one of the most common tests. For details of other English language qualifications we accept, please visit [www.brookes.ac.uk/international/apply](http://www.brookes.ac.uk/international/apply).

Please note that courses require different scores within the range given, so please check individual course details on our website.

If you need a student visa to come to the UK you will need to meet the UK Visa and Immigration English language requirements – see [www.brookes.ac.uk/international/apply](http://www.brookes.ac.uk/international/apply).

## University English course (pre-sessional)

If you do not meet the required English language level you can apply for one of our pre-sessional English courses (see page 140).

# UK fees and funding

At Oxford Brookes there are several options available to support you in funding your studies. Our course fees for UK students are £9,250\* a year.

## Loans for full-time UK students

You don't need to pay any tuition fees while you are at university. Instead, the government provides a tuition fee loan which you start to pay back once you leave university and are earning above £26,575\* a year.

The government also provides a maintenance loan to contribute towards living costs.

You start to pay this back at the same time as your tuition fee loan. Your repayments will be 9% of any income above £26,575\*, so the amount you repay each month will depend on your earnings.

Examples of monthly repayments for loans covering tuition and living costs:

Salary	Monthly repayments
£26,575	£0
£30,000	£26
£35,000	£63
£40,000	£100

Repayments will be taken automatically from your salary through the tax system. If your yearly income falls below £26,575 your repayments will automatically stop. All outstanding repayments will be written off after 30 years.

## Part-time UK students

If you are thinking of studying part-time you will also be eligible for a loan to cover the cost of tuition and a maintenance loan for your living costs. You will only start to repay both once you have finished your course and are earning above £26,575\* a year.

## Foundation degrees

If you are a full-time UK student studying for a foundation degree with one of our partner colleges, you will be charged £7,570\* a year. You may then have the option of topping up to a full bachelor's degree at the same college for one year's further study, also charged at £7,570\*. If you come to Oxford Brookes to top up, you will be charged £9,250\*.

## Field trip costs

The cost of any field trips that form a mandatory part of your course are included in your tuition fees. Optional field trips are not included, and you will have to pay a separate fee.

## Bursaries

Bursaries are additional sums of money that do not have to be paid back. Full time UK students with household incomes under £35,000 can benefit from our means-tested Oxford Brookes Living Bursary\*. Students with household incomes under £25,000 from recognised postcodes and students who are over 21 can also benefit from an enhanced bursary of up to £3,000.

## Nursing grants

All UK nursing students on courses from September 2020 will receive government funding of at least £5,000 a year which they will not need to pay back.

## Government support for living costs

All UK students are eligible for a maintenance loan to help cover living costs. The amount you can borrow will depend on your household income. Full-time UK students with household incomes below £25,000\* are entitled to a maintenance loan of up to £9,203\*.

## Further government support

Additional funding is available for disabled students, students with children and students with adult dependants. This funding does not need to be paid back. For further information, see [www.gov.uk/student-finance](http://www.gov.uk/student-finance).

For more detailed information please visit our website [www.brookes.ac.uk/funding](http://www.brookes.ac.uk/funding)

## IMPORTANT NOTES

\*All figures quoted are for 2021-2022 academic year. Please note tuition fees may increase in subsequent years both for new and continuing students in line with an inflationary amount determined by the government. Tuition fees for 2022 will be published by December 2021. Other threshold figures may also change for 2022-2023. See individual course pages on our website as they become available.

# International fees and funding

If you are an EU or non-UK student it's likely you will have to pay international fees.

## EU students

From September 2021, students from the EU will have to pay international student fees. We deeply value our students from the EU and we will continue to do all we can to welcome EU students long into the future. Therefore we are pleased to offer a support scholarship to EU students taking degree courses at Oxford Brookes, please see our website for more details.

## International students

Fees for international students are set annually and the cost depends on the course you study. The tuition fee for one year's full-time undergraduate study in 2022-23 will be approximately £14,300 to £15,200. You will receive information about how and when to pay your fees before your course starts.

## Tuition fee deposits

All international students will need to pay a deposit of £3,000 to secure your place at Oxford Brookes. This deposit will be deducted from your first tuition fees payment.

## Funding and Scholarships

We offer a range of scholarships and other financial support to international students to help with tuition fees and living costs.

Find out more at [www.brookes.ac.uk/internationalscholarships](http://www.brookes.ac.uk/internationalscholarships)

For more detailed information please visit our website [www.brookes.ac.uk/funding](http://www.brookes.ac.uk/funding)

# UCAS tariff points and qualification terms

# Useful things to know

## Our Terms and Conditions

We have prepared detailed Terms and Conditions which describe the contractual relationship between you and the University. You should access this document on our website: please read it in full before you apply to Oxford Brookes, as it contains important information that applies to how your time as a student will be managed and arranged.

We want to ensure that all students can easily find and understand the policies and rules that will affect you.

Our Terms and Conditions therefore include reference to the University Regulations, which cover academic rules and regulations, and your Programme Specification, which describes more detailed arrangements for your programme, as well as other key policy documents. It is our intention to treat you fairly at all times, and to be compliant with relevant consumer and other legislation, but if you have problems with the provision that we make for you, the Terms and Conditions describe how we will respond to your concerns.

The most up-to-date information for your programme will be found prior to your enrolment on the University's web pages [www.brookes.ac.uk](http://www.brookes.ac.uk), and once you have enrolled in your Student Information.

Please note that when you accept an offer of a place at Oxford Brookes (and enrol with us), you also accept the Terms and Conditions.

[www.brookes.ac.uk/terms-and-conditions](http://www.brookes.ac.uk/terms-and-conditions)

## Course fees and additional costs

Our tuition fees cover the cost of delivering your programme,

and are payable annually. Further costs may be incurred by you, including:

- equipment and core textbooks
- bench fees and consumables
- DBS checks
- printing
- uniform or protective clothing
- contributions to subsistence, travel and accommodation
- costs for mandatory field trips or work placements and, where these involve overseas travel, health and public liability insurance (unless explicitly stated that these are included in course fees)
- professional body membership fees
- optional graduation-related costs such as gown hire, guest tickets, official photographs.

Many programmes include optional field trips and work placements, where participation is encouraged, but is not required to evidence module or programme learning outcomes, and will not disadvantage you should you not be able to take part. These optional activities are at additional cost to you.

Your annual tuition fees will cover your first attempt at all the modules necessary to complete that academic year of your programme. Additional modules, or module retakes, may incur an extra charge.

## Campus redevelopment

To ensure you have the best university experience, Oxford Brookes constantly assesses how its campuses are being developed and utilised. This ensures that our buildings and facilities are of high quality, well specified and accessible to meet the needs of current students and those joining us in the years to come.

As part of our ongoing investment in our campuses there may be changes to our campuses, and improvements to the buildings within them, over the coming years including your time at Oxford Brookes if you join the University. If this is the case, we will ensure that students and applicants are given plenty of notice to ensure a smooth transition to any changed use of our campuses.

The latest information will be provided on the University's website at [www.brookes.ac.uk/estates-development/](http://www.brookes.ac.uk/estates-development/)

## Teaching locations

Within Oxford, the university operates across four sites (Harcourt Hill, Headington, Marston Road and Wheatley). The Headington Campus is the largest, on which the majority of programmes will have most of their teaching delivered. Some programmes are taught more frequently at the other sites (see course pages for more details), but all students may be required, at some point during their time at the University, to attend some teaching or assessment activities at any of the Oxford sites. There is a bus service that operates between sites in Oxford.

## Equality, diversity and inclusion

We are committed to ensuring the very best student and staff experience, where all our community can flourish in a culture of respect and support and where we celebrate difference and thrive on each other's success.

# About this prospectus

The University aims to provide clear and accurate information in line with guidance issued to higher education providers by the Consumer and Markets Authority on consumer protection law.

The courses and associated content listed in this prospectus were accurate at the time of going to print, but please be aware that due to the ongoing impact of the Covid-19 pandemic, the University may be required to make reasonable changes to the published course content. More detailed, contemporary information on any such changes will be published on our website course pages and, where known at the time, will be outlined in future offer holder correspondence.

## Editorial and design

Strategic Marketing and Digital, Oxford Brookes University.

## Thank you...

To the students, staff and graduates featured in this prospectus.

## Photography

Paul Tait, with additional images by Lee Atherton and Christopher Cornwell.

## Reproduction, printing and binding

This prospectus is printed on 250gsm and 100gsm Revive 100% Silk and has been printed in accordance with environmental standard ISO 14001. The paper used is made from 100% recycled content, has been responsibly sourced and is fully FSC® certified. This product is 100% recyclable and has been printed using vegetable based inks.

# Semester dates

## Semester 1

**12 - 16 September 2022**

Enrolment and induction

**19 September - 16 December 2022**

Teaching period and exams

## Semester 2

**19 - 20 January 2023 (TBC)**

Enrolment and induction

**23 January - 31 March 2023**

Teaching period

**3 - 14 April 2023**

Easter break

**17 April - 13 May 2023**

Teaching period and exams

# Comparing courses at other universities

Statistics are available for undergraduate courses at universities in the UK, helping you to compare and make the right choice about what to study and where.

Please be aware that, for some courses, data may be grouped to show results for more than one year or more than one course so as to meet the data thresholds for publication. This may apply to data appearing in this prospectus.

# Open days and campus tours

The best way to find out if Oxford Brookes is the place for you is to come and see it for yourself!

- Explore our campuses and take a look at some of our accommodation.
- Get inspired about your future through one of our subject talks.
- Find out more from the academics in your subject area.
- Talk to the experts about applications, finance, support and more.
- Ask one of our Student Ambassadors what student life is really like.
- Discover our amazing student city.

## OPEN DAYS

Find out more and book your place at [brookes.ac.uk/open-days](http://brookes.ac.uk/open-days)

"I fell in love with Oxford and the University as a whole when visiting on Open Day."

HANNAH COOPER,  
HISTORY GRADUATE

### Campus tours

We offer both physical and virtual campus tours all year round. Check out our website for more details.

[www.brookes.ac.uk/campus-tours](http://www.brookes.ac.uk/campus-tours)
