Edinburgh Napier
UNIVERSITY

Napier

Undergraduate Prospectus 2022

Hello!

WELCOME

Welcome to our prospectus. In these pages you'll find information about who we are, our courses and campuses, and why being part of Edinburgh Napier University could be exactly right for you.

Helping people get the careers they love is what we're all about. You may not know yet what you want to do but our work-focused courses will ensure you'll be ready to become a vital professional whatever path you follow.

Learn from expert academics with up-to-date business and industry knowledge and gain opportunities to experience the real world of work. Our focus is to enhance your employability by developing the skills you need to succeed.

We know there's lots to think about when considering courses, so remember, we're here to help. You can talk to us about what to study, and where it might lead, and ask us all the questions you want about being part of Edinburgh Napier University.

With us, you come first.

napier.ac.uk/UG-Hello

CONTENTS

WHY YOU BELONG AT EDINBURGH NAPIER UNIVERSITY

Become part of *the top-ranked Scottish modern university*

(The Times/Sunday Times Good University Guide 2021)

So what does that mean? Well.......

.....we put you at the heart of what we do

We are the **NUMBER ONE** university in Edinburgh for student satisfaction.
(National Student Survey 2020)

.....we give you the skills and experience that matter

We score highly in terms of graduate employability: **95.9%** of our students are in work, or further study, six months after graduating.
(HESA 2016/17)

.....we nurture your talent and abilities

We have **FIVE STARS** for teaching, employability and internationalisation from the prestigious QS Stars rankings.
(2019)

We were ranked **FIRST** out of 119 universities for 'Value Added' which rates how effectively students are taught.
(Guardian University Guide 2017)

WHAT WE DO

We develop highly valued, career-ready graduates. How?

By combining professional know-how with an academic approach to deliver effective work-related learning.

Find out more:
napier.ac.uk/UG-learning

We transform communities and improve lives in Scotland and beyond. How?

By developing socially responsible graduates equipped to solve society's challenges and via our innovative, ethical research which improves wellbeing, sustainability and technological advancement.

Find out more:
napier.ac.uk/UG-research

We support you all of the way. How?

Through student-focused support services and caring staff, our commitment to ensuring you thrive is our chief concern – we've even won an award for it.

Find out more:
napier.ac.uk/UG-help

ONLY AT ENU

First and foremost – some of the ways we make an impact

Leading cybersecurity education

We are the only UK university to have undergraduate and postgraduate cybersecurity accreditation, trusted by the National Cyber Security Centre

Developing professionals with SFA

We're the first university in Scotland to partner with the Scottish Football Association (SFA) to offer a practical and theoretical degree to develop coaching professionals ideally suited to the modern game
Impacting on healthcare practice

We are the only university to offer all four fields of nursing and midwifery pre-registration education and are the largest provider of nursing education in Scotland

Boosting entrepreneurialism

So far, we've supported over 500 student start-ups through our hub for innovation and enterprise, Bright Red Triangle

Opportunities for all

We are the lead partner in the Edinburgh universities collaborative project, Hub for Success, which increases educational opportunities for those who have been in care

Supporting the armed forces community

We are the first university in Scotland to receive a gold award from the MOD's Defence Employer Recognition Scheme for our educational support and commitment to the armed forces community

Pioneering global online safety

We are home to the world's first Blockchain Identity Lab, working to protect your data in the global online world

Campaigning for change

We're changing attitudes through our Bleedin' Saor collective, shortlisted by the prestigious Guardian University Awards 2020 for its work around free sanitary products and breaking taboos

Built Environment Exchange (beX)

We provide unique real-world learning experiences in sustainable construction through partnerships with international universities and the global construction industry

Get On Board programme

Our students contribute to decision-making processes and network with top professionals through a placement on the board of a charity, voluntary organisation or public body
Legal City Challenge

Our ground-breaking Challenge programme helps our law students gain access to local law firms and work with legal professionals

Award-winning students

Our students consistently win top awards – before they graduate – including D&AD New Blood, DMA Breakthrough, Film G and Royal Television Society Awards

Explore

EDINBURGH

One of the best student cities in the world

Being a student at Edinburgh Napier makes you part of this amazing city. World-renowned for heritage, culture, festivals and tourism, Edinburgh has it all.

It's a special place, unlike anywhere else in the UK: a capital city with loads going on but small enough that you can get to know it well and find the areas and activities that best fit with what matters to you.

Filled with green spaces, incredible architecture, world-class restaurants and ghosts – in Edinburgh you can enjoy the beach, climb hills, discover independent shops, and experience art. The buzzing bar and music scene offers something for everyone. And of course, there are world-famous festivals and remarkable events, from the Edinburgh Fringe to Hogmanay.

As a student here you'll be part of a big community; Edinburgh welcomes thousands of students from near and far every year. It's a safe city too and easy to get around. You'll feel at home wherever you come from.

We love contributing to the city's dynamism through our students, staff, researchers and graduates. Join us and become part of it – we think studying here will make your student life a truly memorable experience.

Head to **napier.ac.uk/UG-Edi** for more about our magical city.

Each year, the QS Best Student Cities index looks at various aspects of a city, such as the student mix, quality of living and affordability, to identify the best student cities worldwide. Edinburgh is ranked 15th in the world and 2nd in the UK*. Quite simply, it's a great place to be a student.
*[*QS Best Student Cities 2020]*

EDINBURGH /MAPPING THE CITY

Study in the best location

Wherever you are in the world, Edinburgh is closer than you might think, with a flight to London taking just 50 minutes, or a train ride from central Edinburgh to London King's Cross taking 4 hours 15 minutes.

What about the rest of the UK? Well, Edinburgh is a:

- **45-minute train from Glasgow**
- **25-minute train from Livingston**
- **35-minute train from Dunfermline**
- **45-minute train from Stirling**
- **90-minute train from Newcastle**
- **50-minute flight from Belfast**

OUR CRAIGLOCKHART CAMPUS

What about getting around Edinburgh?

BUS The Edinburgh bus network is first class for getting you around, with over 70 different routes crossing all over the city. Our favourite is the number 36, which connects all three of our campuses to the city centre.

TRAM Our Sighthill campus is the furthest from the city centre but is still just a 20-minute tram ride from the main shopping area. And the very same tramline takes you all the way to the airport.

BIKE Thanks to its superb network of bike paths, you can reach many parts of Edinburgh on safe, traffic-free cycle routes.

SCOTLAND

There's nowhere like it

Let Scotland bring another dimension to your student experience. Considered the most beautiful country in the world (Rough Guides 2019), Scotland offers stunning scenery, vibrant cities and world-class attractions – you'll never be stuck for something to do when you want to take a break from your studies.

Whatever you're into, you can do it here: cycling, ziplining, kayaking or white-water rafting; walk a scenic hiking trail, climb a mountain, or head to the ski slopes of Glencoe. You can dolphin and seal watch at nearby South Queensferry, or go further afield to hunt for the infamous Loch Ness Monster! We've local beaches at Portobello and Silverknowes or head to North Berwick or St Andrews for stunning sands.

If history is your thing, there are famous castles, legendary battlegrounds, standing stones and more. Or visit the iconic landscapes featured in films and TV from James Bond and Harry Potter to Outlander. Scotland's cities are all easy to reach: jump into vibrant cultural experiences from Glasgow's legendary music scene to dynamic design in Dundee.

In Scotland you're never far from something new and exciting to do.

To find out more check out **napier.ac.uk/ UG-Scotland**

OUR CAMPUSES

We have three campuses, each defined by distinctive features and course-specific facilities, as well as by the people (like you!) who study with us.

Our campuses are much more than where you go to class. Each is set up to be a second home for you while you study, with free unlimited Wi-Fi, comfortable cafes selling discounted Starbucks drinks, lots of great study spots and plenty of space to meet up with friends.

All of our campuses are within twenty minutes of each other and the city centre, so it's easy to access facilities or connect up with friends, wherever you are based.

Head to **napier.ac.uk/UG-campus** for the full low-down about each campus

CRAIGLOCKHART

Home to our Business School, Craiglockhart is a mix of the historical and the ultra-modern in a gorgeous, park-like setting. The iconic Lindsay Stewart Lecture Theatre (known affectionately as 'The Egg') makes a great contrast to its historic wing, which was used as a military hospital during WWI and now hosts the War Poets Collection.

You'll find everything you need to become ready to succeed in the world of business, including lecture theatres, multimedia labs, plenty of computing facilities and dedicated library and support services. It's also home to our innovation and enterprise centre and Bright Red Triangle business incubator – open to all students, whatever subject they are studying – where you can kickstart ideas and develop your entrepreneurialism.

Relax in the picturesque greenery or hang out in the buzzing cyber café and enjoy a Starbucks coffee. You're within walking distance to local cafes, restaurants and bars, and with the city centre close by, you can easily access all the benefits Edinburgh has to offer.

Getting to Craiglockhart is easy as it's well-served by public transport and there are numerous cycle paths in the area. You'll find bike storage facilities on site.

MERCHISTON

Our Merchiston campus is our historical heart – the 16th century tower at the centre of the campus is where our namesake, mathematician John Napier, was born. While it embraces the past, this high tech campus is all about the future – your future – with facilities from cutting-edge cybersecurity labs and specialist engineering laboratories, to state-of-the-art music, TV and film studios. It's where our creative, engineering and computing students are based.

The Jack Kilby Computing Centre (JKCC) at Merchiston is open 24 hours a day, 7 days a week, and offers user support for over 70 hours per week during Trimesters 1 and 2. We have a Bright Red Triangle business incubator here to support student enterprise and start-up ideas, and the campus is the main home of the University's student union ENSA.

Situated in the lively neighbourhood of Bruntsfield, you can easily relax in buzzing independent cafes, restaurants and bars, or walk to popular hangout spot The Meadows for a breath of fresh air – a perfect place to catch up after lectures.

SIGHTHILL

The Sighthill campus is our largest campus, filled with smart spaces and awesome views over the city. Home to our health and science students, it provides high-quality facilities including the purpose-built Simulation and Clinical Skills Centre, specialist labs, and our environmental chamber – the largest facility of its kind in Scotland which simulates high-altitude conditions for training pro-athletes and supporting research.

The Sighthill Learning Resource Centre offers a range of study environments and high-tech smart spaces; pick the one that suits you best from a personal pod to a comfy couch, or head up to the top floor to soak up the view while you study. When you need a break there's a large on-site cafe and a Starbucks.

Sighthill is also home to our elite sports facility [EN]GAGE, open to all of our students wherever they may be based. These state-of-the-art facilities cater for all levels of ability; you can take part in a wide variety of sports, use the gym or attend one of the many regular fitness classes – this resource is here for you whatever you enjoy. Find out more at **napier.ac.uk/UG-play.**

ACCOMMODATION

A supportive community

One big change when you join Edinburgh Napier might be living away from home. It's an exciting part of student life and in student accommodation, you'll be in it together, sharing space and experiences with new friends.

Living in our student accommodation you become part of a supportive community: our dedicated team of Accommodation Officers and Resident Assistants are here to help you, providing guidance, advice, and out-of-hours assistance. They'll help you to settle in and get to know your neighbours through activities and events.

Our accommodation

Student accommodation at Edinburgh Napier is affordable, modern and purpose-built, located in and around the city centre, and within easy access of our campuses. Most rooms are en-suite, and you'll have a double bed, a desk and high-speed Wi-Fi. You'll share a kitchen and living space with communal smart TV and have access to a central laundry.

All our accommodation is comfortable and convenient – you'll find supermarkets, bars, restaurants, and sometimes cinemas, are all nearby.

Private accommodation

Of course, you might choose to live in a private rented flat and we can help with that, with advice from how to deal with tenancy agreements to making sure you choose a great neighbourhood.

Our accommodation guarantee

We guarantee an offer of accommodation to all first year and direct entrant undergraduate students who:

- have accepted an unconditional offer
- live outside the EH postcode
- apply before the deadline
- are staying for the full academic year.

Head to **napier.ac.uk/UG-home** for full details.

ACCOMMODATION

WHAT YOU NEED TO KNOW

How do I secure a place?

You'll be guaranteed a room if you're in your first year of studying, you live outside an EH postcode area, you're staying for the full academic year, and you're applying before the August deadline.

When should I apply?

We usually start to accept applications for September 2022 intake from May 2022. You can apply online for a place via **napier.ac.uk/accommodation**

What is the cost?

It depends on your choice of accommodation. You'll find advice on costs and discounts online.

Will I feel safe?

Your comfort and safety are a top priority for us with support available 24hrs a day: from our full CCTV system and regular patrols to our Resident Assistants who live on site and are available every night. They can help if you're locked out, need advice or even just a chat. They are also trained in first aid, mental health first aid and conflict management.

Where can I find out more?

Head to **napier.ac.uk/UG-home** for videos of life in our accommodation, virtual tours of our sites, information about what's included and fees, and to get in touch with our Accommodation office for further support.

STUDENT EXPERIENCE AT ENU

Belong

BECOME WHO YOU WANT TO BE

How we develop tomorrow's professionals

At Edinburgh Napier we not only teach you the vital knowledge that underpins your chosen subject but ensure you have essential 'employability' skills too.

We have the highest recognition (5 stars) for employability – an indication of students' future career prospects – from the globally renowned QS World University Rankings (2019).

Employability is all about being 'work-ready'. It goes beyond academic learning to focus on the key skills that will help you to succeed in the workplace: skills such as initiative, confidence, being a team player, and the ability to manage people and projects.

With us you'll gain the employability skills you need

One of the main ways we develop your employability is through real-world work experience.

We embed work placement opportunities, or other work-related experiences, as part of our courses, and you'll have access to a dedicated Placements team too. They'll work with you to find an opportunity that's right for you and which will enhance your degree studies.
97% of our undergraduate students have the opportunity to undertake a work-related experience as part of their course

Jessica McClure,
BA International Festival & Event Management

"Being able to complete a degree that enabled me to gain industry experience was a leading factor in my choice to come to Edinburgh Napier. I undertook a six-month placement with the International Congress and Convention Association (ICCA), Amsterdam. Through it I learnt how to professionally interact with customers, stakeholders, and co-workers, that included people from just about every country where the cultural-business etiquette varied, which was really interesting. The experience increased my contacts and my skillset, and I learnt what kind of work I enjoy."

Andrew Beck,
BEng Computer Systems & Networks

"My 12-month placement was with TSB where I was part of the Chief Information Office Team, responsible for acting as the bridge between TSB's technical functions and its high-level executives. As part of my experience I visited TSB's data centre; seeing their primary servers provided me with a great opportunity to witness my course's theory implemented on a large scale. Through the placement I enhanced my soft skills and improved my understanding of how industry works. I now know that I enjoy incident management related roles, so I am considering this as my future career."

BECOME WHO YOU WANT TO BE

Our focus on careers means you'll be highly valued by employers

Choosing to study at university is a big decision and you want to be sure it will help you become who you want to be. At Edinburgh Napier we aim to guide you towards work that you will not only excel at but truly enjoy, so our teaching and learning, and comprehensive range of support, ensures you gain the knowledge and skills that can take you where you want to go.

Benefit from industry-led learning

All our courses are designed in consultation with business and industry, which means what we teach you will always be valuable to the employers you will seek out after graduating. For example, if you study Policing & Criminology, the syllabus has been created through direct input from Police Scotland. Our lecturers are not only expert academics and researchers but have strong links to industry. For example, Computing Professor Bill Buchanan OBE is regarded as one of the top 100 people in Technology in Scotland.

Make yourself distinctive

It's not just work placements that can develop the valuable skills you need to stand out. We can help you find a volunteering placement that will not only give you the buzz that comes from knowing you're making a difference, but also help you to develop communication and organisational skills that you'll need to ace interviews and make an impact in the world of work.

Michael Cesneau,
Web Project Manager,
IONIS Education Groupt

"The capacity to learn new technologies and methodologies is the key skill you need to work in the ever-changing digital world. It quickly became a habit when I studied at Napier. We had 24/7 access to first-class equipment and total support from our professors to explore new tech for our projects. I now manage a team of 20 web experts at France's leading private education provider, and all the skills I learned help me to collaborate easily, whether I need to speak UI with a designer or data security with a developer."

Learn more about how Michael achieved his career aspirations: **napier.ac.uk/UG-michael**

Get a global perspective

Spending time studying at one of our international exchange partners, from Austria to Australia, will help you to understand world issues and other cultures, which can give you a real edge in today's globalised job market.

Experience 5* teaching

We are ranked with the world's best universities for teaching quality, according to the QS Stars university rating system, with an impressive 5 stars. The QS Stars system is compiled by education analysts Quacquarelli Symonds (QS), the world's leading provider of services, analytics, and insight into the global higher education sector.

BECOME WHO YOU WANT TO BE

With us you'll be future-ready

Student Futures is our dedicated group of employability experts who can provide advice and support to kickstart your future. With their expertise you can explore career options, work out the best strategy to get started in your chosen field, begin your professional development and hone the skills you need to impress employers.

Our digital platforms are open to all students at any time: you can browse online resources, advice and support, or use them to arrange one-to-one meetings with our Career Development Consultants, book a place at one of our many employer events, or search for part-time and graduate vacancies.

Isla Toner
BA (Hons) Criminology,
Click Support Worker – Sacro

"I'd recommend to any student at Napier that they use all the resources that are available! I undertook a placement at Barnardo's Visitor Centre at HMP Edinburgh which helped to enhance my employability skills, and then the Graduate Recruitment Team (within Student Futures) supported me in a number of ways, providing useful guidance which helped me strengthen my application to Sacro. Never be too scared to ask for help!"

Our graduates are highly valued by employers – 95.9% are in work or further study within six months of graduating [HESA 2016/17]

Start your own business

Maybe your aspirations lie in creating your own world of work by starting a new business. Our Bright Red Triangle business incubator gives you access to our expert entrepreneur advisors and specialist business advice, as well as free office space. Over 2,000 students have used Bright Red Triangle since 2004, producing more than 500 businesses. Yours could be next.

Shoe Fix Edinburgh
Euan Bodie, Lewis Holman and Hannah Thomson
Marketing students Euan and Lewis, and sport and exercise science student Hannah, launched a new business while they were still studying at Napier.

"We all have an interest in designer trainers and used to browse the web, and supermarket shelves, to track down the best product to clean our shoes. As students we couldn't afford to regularly replace those that we felt were beyond repair, so the idea for Shoe Fix Edinburgh grew from this problem. We were initially surprised with the interest in the service – we didn't expect to experience high growth in such a short space of time! We have used what we learnt at Napier to our advantage and made use of marketing communications to the best of our ability."

Learn more about this successful student business at:
napier.ac.uk/UG-shoefix

YOUR LEARNING ENVIRONMENT

Our expert teaching and leading facilities will enhance your learning

At Edinburgh Napier our learning environment will help you to realise your potential and become a highly employable, confident individual with the knowledge and skills to make a difference.

Purpose-built facilities

Whatever you choose to study, we teach you using fantastic facilities and equipment. You'll be able to surround yourself with the latest technology and resources no matter what field you're interested in. Our leading facilities include:

- NHS simulation wards
- Replica digital news centre with broadcasting booths
- Sports and exercise science suite with the largest environmental chamber in Scotland
- Professional photography, music and design studios
- Specialist engineering laboratories and a heavy structures lab
- Purpose-built life sciences laboratories

We continually update our facilities to reflect changes in technology and industry; for example, we have recently completed work on our biomechanics lab.

World-leading expertise

When you study with us, you will learn from lecturers who are experts in their fields. Not only do they have unique links to business and industry that will maximise your employability, they are also nationally and internationally recognised for their research, working with organisations such as the European Commission, Greenpeace and Medical Research Scotland.

Check out **napier.ac.uk/UG-research** to find out more about our academics' world-leading research.

Top-ranked IT resources

We're ranked in the UK Top 5 for students agreeing that our IT resources supported their learning (National Student Survey, 2020). Our 500-seat computer centre on the Merchiston campus is just one of the reasons why. Open 24/7 during trimesters 1 and 2, it means you always have access to the resources you need.

Study in the way that suits you best

With our virtual desktop service you can access your files and the leading desktop software, at any time, any place. Your study materials – such as lecture slides and required readings – are hosted online, giving you the ability to study when, where, and however suits you best. Our computer suites and libraries have shared booths and media screens for group projects, or if it's peace and quiet you need, there are plenty of individual study rooms.

Extra support

With laptop loans, free IT support and subject-specific librarians, you'll find the learning environment at Edinburgh Napier has everything you need to succeed.

Head to **napier.ac.uk/UG-tools** to watch videos and check out 360 degree tours of the different facilities at our campuses.

napier.ac.uk/UG-learning

HOW WE SUPPORT YOU

It's important to us that you know help is available when you need it

When you join us you become part of our community and we pride ourselves on helping our community to flourish by providing the very best support that we can.

Through student-focused services and caring staff, we offer responsive and personalised support. Our 'open-door' policy means you can seek out advice, guidance and support from both our student support services and our academics whenever you need to.

Personal Development Tutor

Every student at Edinburgh Napier is assigned a Personal Development Tutor during the first few weeks. You can check in with them and ask questions confidentially (about study, life, or anything else) and they will support you whatever you may need.

Academic Skills support

From managing your new workload to essay writing and exam preparation, we'll support you to become an effective, independent learner, so you can get the most out of your studies. We offer regular skills tutorials and online workshops, or you can arrange a personal advice session with an Academic Skills Adviser. There's also online resources and our Get Ready website with tips and advice from our students, all of which will help to build your academic and study skills.

Edinburgh Napier University Wellbeing & Inclusion Campaign GOLD AWARD WINNER

[HEIST Awards 2020]

Disabilities support

We offer dedicated support if you have a disability or a specific learning difficulty. Our experienced, expert staff provide guidance and assistance, working with you to arrange support before you start your course and throughout your entire university journey.

Mental health and counselling

We have qualified counsellors, CBT practitioners and mental health advisers who can offer a range of support, including counselling, mental health advice, wellbeing advice and mindfulness drop-ins.

ENSA Advice

Edinburgh Napier Students' Association (ENSA) provides a free, independent, confidential and professional advice service for Edinburgh Napier students. It offers one-to-one advice on all your 'life admin': funding and benefits, accommodation and leases, employment rights and tax, health and wellbeing, as well as specific issues relating to your course, such as academic appeals and University rules and regulations.

English language support

If English isn't your first language, we offer English for Academic Purposes (EAP) pre-sessional courses prior to you starting, and English support throughout the year. We also have academic skills classes to prepare you for a new learning experience as the UK education system can be different from what you are used to.

It's always good to know that guidance is on hand when you're feeling unsure.

Head to **napier.ac.uk/UG-help** to see all the help that's available.

ACCESS FOR ALL

We believe anyone with the potential to succeed should have the opportunity to study with us

Our community is one that welcomes anyone interested in developing their future through higher education. We recognise students are individuals and that not everyone's journey to, and through university is the same.

Here to help

As part of our admissions process we take into consideration the context in which you have achieved your grades, which may have meant you faced more challenging circumstances. With our 'Contextual Admissions Policy' if you meet certain criteria, such as living in a certain area, going to a particular school, have been in care or are a carer yourself, you may be eligible for an offer based on our minimum entry requirements.

Our Widening Participation team is here to help. If you're unsure whether you are a widening access student, we can provide information, advice and guidance. You can contact the team directly on 0131 455 2300 or via **wideningaccess@napier.ac.uk**

Find out more at **napier.ac.uk/UG-all**

Adult returners

We welcome adult returners and know that sometimes the standard selection process doesn't allow you to demonstrate all the skills you've acquired during employment or other experience. To ensure we can make an informed decision on your application we may ask you to provide more information, so you can tell us all about your potential.

Care experienced

If you've been in care we have extra help for you. We offer the one-on-one support of a Student Adviser from pre-entry advice all the way through your time with us. Help we can offer includes a guaranteed year-round accommodation tenancy option and access to additional funding (including a bursary providing up to £1,000 per year of study).

Applicants with disabilities

Our Disability Inclusion team is here to support students with temporary or long-term health conditions, disabilities and additional needs. If you have a disability or medical condition, or you require additional support, disclosing it in your application means we can discuss with you what adjustments can be made and what support you'll require once you join us.

Armed Forces community

We are committed to greater access to education and employment for those leaving military service. We'll help you transition into academic life as you leave the service, including providing mentorship through a network of Veterans Champions across our various teams.

Coming from college

We welcome applications from students who are currently, or have previously studied at College on either an HNC/D or Access programme. We provide pre- and post-transition guidance and you'll have a dedicated Coming from College Adviser who will support you right through to graduation.

ESTABLISH is our team of dedicated Widening Participation Student Ambassadors who host an online community of incoming widening access students, supporting them to get the most out of student life at Edinburgh Napier. ESTABLISH provides support in a year-long induction programme and looks to help students through times of increased pressure.

WAYS TO STUDY

Our flexible provision means you can find a way to study that best suits you

We have a proud history of supporting our students to achieve a degree whatever their circumstances.

Full-time and part-time courses

For UK students, many of our full-time courses can also be studied part-time – same great professors, same relevant programme – just studying fewer modules at a time over a longer period than full-time study, to suit your life circumstances.

Online learning

Wherever you are in the UK, or across the globe, our online courses give you access to an Edinburgh Napier degree and the opportunity to achieve an internationally-recognised qualification. All your learning will take place online but you'll still benefit from our supportive community. For full details go to **napier.ac.uk/online**.

Associate Student Scheme

Our Associate Student Scheme allows you to study for your Higher National Diploma (HND) at one of our partner colleges while guaranteeing you a place with us in the third year. This guarantee is offered on a number of degree courses across computing, business, engineering and the built environment. You'll feel like an Edinburgh Napier student even while you're at college, with access to all our facilities and resources.

Apprenticeships

An apprenticeship is a great opportunity to undertake work-based learning that can boost your application to university or enhance your employability. Foundation Apprenticeships can be taken in S4 or S5 and will build your skills and bolster your application to university, while Modern Apprenticeships offer paid work opportunities so you can gain vital skills while studying for a qualification up to HND level. Both types offer progression opportunities into Graduate Apprenticeships of which we offer a range in business, computing and engineering subjects. Go to **napier. ac.uk/apprenticeships** for full details.

Head to **napier.ac.uk/UG-study** for more information on all of our ways to study.

FINANCIAL SUPPORT

We offer a range of scholarships, bursaries and funding to help you study with us

Through a scholarship or a bursary award, you can receive a sum of money to support you while you study with us which you won't need to pay back.

Depending on the specific award's eligibility criteria, funding can support living costs, childcare expenses, tuition fees or a specific project that is beneficial to your academic and personal development. So it is well worth checking out what financial assistance you might be eligible for.

Here's an idea of what financial support can do:

- Cover the costs of course fees.
- Help with living costs.
- Enable travel, research or aid personal development.
- Help you take a passion further, such as sports or the arts.
- Support a start-up business dream.

Bursaries and scholarships explained

A bursary will be given to you automatically if you meet certain criteria; for example, if you come from a low-income household. You don't need to apply for these bursaries, we will let you know if you are eligible when you confirm you will be starting your course with us.

To receive a scholarship, you may have to submit a separate application and the process can be competitive or distributed on a first-come first-served basis, so it's important to apply early.

There are special scholarships available to help with specific projects as part of your course, such as if you decide to study abroad, or do a research project locally. There are also elite athlete and country-specific scholarships available.

UK (from outside Scotland) and Republic of Ireland Students

Students from England, Northern Ireland, Wales, the Channel Islands, the Isle of Man and the Republic of Ireland are generally classified as Rest of UK/ROI for fees purposes, and are able to access specific support including:

Access and Merit bursaries
We provide a generous bursary package offering a cash award of up to £3,000 per year (dependent on your financial circumstances and/or your academic achievement).

Final Year Fee Waiver
The majority of undergraduate degrees in Scotland last four years (compared to three years elsewhere in the UK), providing greater breadth and opportunities within your course. When studying with us this means, for example, that there is usually the opportunity to undertake work-related experience as part of your course. All eligible students will automatically receive a final year fee waiver, which will save you an additional £9,250.

Access to other funding

Our team of Student Funding advisers work to support all eligible students to apply for additional sources of funding, including Discretionary and Childcare funds, and can provide advice on how best to manage on a budget.

Head over to **napier.ac.uk/UG-funding** to see exactly what you are eligible for and how to apply.

INTERNATIONAL STUDENTS

We are dedicated to advising and supporting you

For students joining us from across the globe, our International team is here to help. We know that moving to a different country to study is a big decision but we can support you every step of the way.

Our team is here to assist with pre-arrival information, orientation programmes, immigration and visa advice, English language classes, workshops to prepare you for studying here and loads more. We can even pick you up from Edinburgh Airport to bring you to your campus.

With us you will join an international community of students from 150 countries, either learning on campus, online, or with one of our overseas partners.

Internationally recognised

In the 2019 QS Stars international university rankings, the quality of our teaching, internationalisation and employability were all recognised, with the University scoring five stars in each category.

Studying at Edinburgh Napier you will gain an internationally-recognised qualification based on leading academic theory and professional know-how, so you'll be ready to make an impact wherever you base your career.

Connect with us

Our International Team is based in Scotland and across our regional offices in Malaysia, India, China and Nigeria, so you can contact us here in Edinburgh or talk to someone who is closer to where you are.

We also have local representatives overseas who can provide information and advice. Head to our website to see if there is a representative working in a city close to you. Our staff also travel the world to attend educational events and there might be one happening near you soon. Find out when we're next in your country on our website.

For all the information you need, head to **napier.ac.uk/UG-international**

ENSA - SPORTS AND SOCIETIES

Make the most of your student experience

ENSA is Edinburgh Napier's Students' Association which works all year round to help you make the most of your student experience – from providing a whole host of fun extra-curricular activities to representing your interests through our campaigns – and we're also here to directly support you with any academic or personal issues.

Join our community

ENSA offers a wide range of sports clubs and student societies, whose members collectively make up 'Team Napier'. Being part of Team Napier brings students together from across all of our campuses and is a great way to meet friends, get involved in interesting activities or sports, and feel part of our community.

Pursue your interests

Societies offer lots of opportunities to have fun and throw yourself into new experiences. And we have a great range – from film making and whisky to coffee and drama – but if you can't find what you're looking for, ENSA gives you the freedom to create your own!

Get into sports

Getting involved with a sports club can be a really memorable part of your student experience. Lots of our clubs are open to complete beginners who just want to play for fun but if you want to take things more seriously, most of our clubs also play in inter-university competitions representing Team Napier. Wednesday afternoons are typically dedicated to playing in leagues against other universities around the UK (BUCS).

Make a difference

ENSA works to raise awareness of the issues affecting our student community and there are lots of ways to get involved, from taking part in our campaigns or joining one of ENSA's Student Forums, to being elected as a Programme Rep or even aiming for Student President! Through ENSA you can build relationships, drive improvements across the University, and make a real difference for the student community – skills which can also help to build your CV!

Want to see the full list of sports and societies that you could get involved with once you're here? Head to **napierstudents.com** to check out everything you need to know about the Students' Association.

STUDY AREAS

ACCOUNTING AND FINANCE

napier.ac.uk/do-finance

Our accounting courses are accredited by major UK accounting institutes, providing exemptions from many of their exams, so you'll be professionally qualified sooner than most. The employability of our Accounting graduates is very high, with 97% in professional or managerial jobs within six months of graduating. We are the only Scottish university to offer an undergraduate degree in Financial Services.

YOUR LEARNING EXPERIENCE

You will learn from tutors with backgrounds in accountancy or financial services, giving you the benefit of their understanding of the business world. Our Financial Services programme offers a 24-week work placement in year three - an ideal way to gain insight into the industry and become work-ready. Our Bright Red Triangle business incubator offers you an opportunity to develop your entrepreneurial spirit - get your business idea off the ground through expert advice and mentoring.

"My degree gave me the vital knowledge required to start my career as a trainee Chartered Accountant. My course was delivered by excellent teaching staff who were always willing to help. I joined the Accounting Professional Advisory Group as a student representative which developed my networking skills, enhanced my understanding of professional etiquette and boosted my confidence for venturing out into the real world."

Asim Ali

ACCOUNTING AND FINANCE

— COURSES

BA (Hons) Accounting
Accounting goes far beyond totting up profit and loss. This accredited course will hone your financial and business acumen as well as your accounting skills. Get ready to cover accounting techniques and policies spanning everything from auditing and tax to management accounting and corporate governance. You can also study the same programme part-time to fit around your job.

BA (Hons) Accounting with Corporate Finance
Develop your accounting, finance and other business skills while focusing on the field of corporate finance. This accredited joint degree course examines accounting techniques and policies to do with corporate finance and also tax, auditing, corporate governance, management accounting, corporate reporting and statistics.

BA (Hons) Financial Services*
At the heart of this course are banking, finance, pensions, insurance, investment, wealth, and technology - topics that touch all of our lives. It is the only Honours degree course in Scotland to cover this essential area. With 40 credit exemptions from the CII qualification, this programme will position you well to develop a career managing, developing or selling the financial products we all use.

*Subject to validation, this course will run from September 2022 as BA (Hons) Finance, Investment and Risk.

ACCOUNTING AND FINANCE

"You learn about acting, directing and writing and the variety of skills you develop is very useful. One of the best things about the Acting & English degree is the time and flexibility to explore different pathways within drama and find out what you're really passionate about."

Marli Siu graduated in Acting & English with a first class honours degree in 2015. She was named a Screen International Star of Tomorrow in 2018, and was nominated for the prestigious Ian Charleson Award.

ACTING

napier.ac.uk/do-acting

We are a top 10 UK modern university for Drama, Dance & Cinematics and offer the only combined actor-training and English degree in the UK (Complete University and Times/Sunday Times Good University Guides 2021). We aim to deliver a unique learning experience that takes full advantage of our location in one of the most culturally vibrant cities in the world. Our curriculum develops versatility, intellectual curiosity, entrepreneurialism and leadership, as well as providing a high level of acting and performance training for both stage and screen.

YOUR LEARNING EXPERIENCE

With us you'll learn from industry-recognised tutors and train in our dedicated rehearsal rooms, with access to a fully-equipped studio theatre. Your learning experience will be unique in the UK with an opportunity to present a fully-supported show at the world's largest arts festival, the Edinburgh Festival Fringe. Our close ties with leading Scottish theatre companies ensure your training is as diverse as it is contemporary. You'll graduate with a show reel and significant acting experience for both stage and screen.

ACTING

COURSES

BA (Hons) Acting & English
You'll develop your acting skills to a professional standard, while exploring English literature, and gain a deep understanding of the relationship between text and performance.

BA (Hons) Stage & Screen Acting (advanced entry)
Ambition is everything and this inspiring degree provides contemporary vocational actor training, in a variety of styles, media and venues, with direct entry to Year 3.

BIOLOGICAL SCIENCES

napier.ac.uk/do-science

Our courses provide a solid foundation in the biological sciences building your understanding of key issues and allowing you to specialise if you wish to. All courses are taught in an applied way, developing the skills you need to be work-ready on graduation, and are accredited by the Royal Society of Biology, ensuring you gain the subject-specific knowledge employers are looking for.

YOUR LEARNING EXPERIENCE

You will learn in a dynamic environment and be taught by lecturers who are pushing the boundaries of knowledge. Our purpose-built facilities feature the latest equipment, including a confocal microscope and an Aqualab facility for marine research. Some courses include fieldwork experience in a range of different environments and all have a strong emphasis on development of practical skills. Our microplacement scheme offers internship opportunities to gain invaluable work experience.

BIOLOGICAL SCIENCES

COURSES

BSc (Hons) Animal & Conservation Biology
Gain hands-on experience and prepare for a career in wildlife conservation by exploring how animals adapt to their environment and interact with each other.

BSc (Hons) Applied Microbiology
This course explores how micro-organisms are used in the production of drugs and food and decontamination of polluted environments, preparing you for employment in a wide range of occupations within microbiology and biotechnology.

BSc (Hons) Biological Sciences
This course allows tailored learning so there will be some aspects that are similar to the other degree structures, but with greater flexibility for specialising in your chosen area.

BSc (Hons) Biomedical Science
Develop your understanding of the scientific investigation of human health and disease and prepare for a career at the forefront of biomedical science.

BSc (Hons) Marine & Freshwater Biology
This course focuses on the study of the fascinating diversity of aquatic life. Learn about marine and freshwater ecosystems, their characteristics, conservation and sustainable use.

BUILDING & SURVEYING

napier.ac.uk/do-building

Our Building and Surveying courses are industry-focused, allowing you to develop the skills needed for a successful career. Surveying courses are accredited by the Royal Institution of Chartered Surveyors (RICS) and the Architectural Technology course is accredited by both the Chartered Institute of Architectural Technologists (CIAT) and the Chartered Institute of Building (CIOB). **We are a top 10 UK modern university for Building** (The Times/Sunday Times Good University Guide/Complete University Guide 2021).

YOUR LEARNING EXPERIENCE

Our degrees are highly regarded within the industry and companies approach us to take on our graduates for immediate employment. Many of our students achieve placements with professional surveying firms, national and local building contractors and specialist consultancies. You'll be taught by staff who have worked in industry and hold RICS, CIAT or COIB membership, and will benefit from access to leading industry software. There are opportunities to take part in relevant fieldwork and students on our surveying courses can take a credit-bearing work placement module in year three.

COURSES

BSc (Hons) Architectural Technology
Based around the professional requirement for the Chartered Institute of Architectural Technologists (CIAT), this course is taught at one of only four institutions to be awarded Centre of Excellence by the CIAT. You'll gain an excellent level of understanding of building science, engineering and technology applied to architecture to form the link between design and realisation.

BSc (Hons) Building Surveying
This course teaches you how to diagnose building faults, carry out inspections, and apply construction technology principles when advising on preventative or remedial solutions.

BSc (Hons) Real Estate Surveying
Combining real estate surveying with valuation, planning and development, this course teaches you how the commercial property markets work by studying the valuation of land and buildings and appraisal of them for either development or investment purposes.

BSc (Hons) Quantity Surveying
This course teaches you the skills needed in design economics, procurement methods, cost planning, life cycle costing, budget management and measurement and quantification of construction work.

BUSINESS & MANAGEMENT

napier.ac.uk/do-business

Edinburgh Napier is a top 10 UK modern university for Business, Management and Marketing (Guardian Guide/Complete University Guide 2021). Our courses are developed in line with employers' needs to ensure you have the applied knowledge to make you highly employable; for example we've recently added data analysis learning into our Business Management course. With us you will gain the confidence to meet today's business needs and adapt to tomorrow's demands. 98% of graduates from our Business Management course are either working or in further study within six months of graduating (HESA 2016/17).

YOUR LEARNING EXPERIENCE

Studying any one of our business and management programmes will give you an excellent grounding for what's ahead. Our courses offer great flexibility and choice – you can choose a 3-6 month work placement, study abroad or take specialist modules. You have the option to study abroad for a year on the International Business Management course. Bright Red Triangle, our business incubator, supports innovation and enterprise among students, staff and local businesses, so it's a great place to develop ideas and connections.

"I wanted to go to a university that is focused on preparing students for an ever-changing job market. So I decided on Edinburgh Napier University and the Business Management course. Plus, I love hiking in the mountains, so I chose Scotland because of the Highlands, and Edinburgh because it's a big city, while at the same time it is close to nature."

COURSES

BA (Hons) Business Management

Discover the skills you need to manage, develop and grow an organisation. This is our most popular course and explores organisational structures and strategies that businesses adopt to respond to the effects of key external drivers.

BA (Hons) Business Management with Entrepreneurship

Explore a broad range of academic theory on business management and the latest applied thinking in entrepreneurship. This course sets you up for various careers with all sizes of employer – or to start your own venture.

BA (Hons) Business Management with Human Resource Management

Are you a people person? Human Resource Management specialists add value to organisations by employing, engaging and developing people effectively. On this specialist route, you will build Human Resource Management skills on top of a broad base of business knowledge.

BA (Hons) Business Management with Marketing

Develop broad business expertise plus strategic marketing skills on this course. You will also hone your creative side – innovation is key to being successful in business today. An industry placement lets you apply your knowledge.

BA (Hons) International Business Management

Planning a career in international business? To succeed, you'll need a combination of general business skills and specialist knowledge of the global marketplace – which is exactly what this course offers.

BA Business & Enterprise

Our Business & Enterprise course allows students to study for a Top-up degree, building on existing qualifications and experience. You only need to visit campus one day a month for a calendar year and all assessments are course work – there are no exams.

BA (Hons) Business & Enterprise in Sport

This online course provides the flexibility to allow you to study while working at the top level of sport.

—

We also offer a **BA Business Management Global Online top-up course** which is particularly aimed at those who already have a broad business-related HND, associate degree or equivalent. As well as **BA Business Management**, there are also various specialisms: **BA Business Management with Human Resource Management; BA Business Management with Finance; BA Business Management with Hospitality; BA Business Management with Marketing; BA Business & Enterprise.**

BUSINESS & MANAGEMENT

COMPUTING

napier.ac.uk/do-computing

Our diverse degree programmes allow you to identify a specialist area right from the start or keep your options open with a general programme. Specialisms range from cybersecurity and digital forensics to software engineering and games development, from digital media, sound design and creative computing to computer science. You'll be taught by professors who are industry experts, including specialists in cybercrime and groundbreaking online security. **Our Cybersecurity & Forensics course is certified by the National Cyber Security Centre (NCSC) – the first undergraduate course in the UK to achieve this.**

YOUR LEARNING EXPERIENCE

Gain first-hand industry experience before you graduate: we pride ourselves on our one-year paid work placement and study abroad options. Get your hands on some quality technical kit: we have some of the most impressive computing lab facilities of any UK university, including a dedicated games development lab, two specialist digital media labs, and a visual effects lab. Our Sensorium is a high-spec UX lab including eye tracking and facial expression analysis software. **97% of our Computer Science graduates are in professional employment six months after graduating** (HESA 2016/17).

"By second year I had learned everything I needed to work in a professional environment and through this I gained my internship. I am very involved in university projects and this has given me the skills and confidence I need for a successful future."

— COURSES

BSc (Hons) Business Information Technology

Learn how to design, develop and manage information technologies to support business needs and processes. You will take an exciting and dynamic blend of computing and management modules on this course.

BEng (Hons) Computing

Edinburgh Napier specialises in artificial intelligence, data science, evolutionary computation and software engineering. So this course is taught by world-leading scientists in these pioneering fields.

BSc (Hons) Computing Science

Computing Science is becoming increasingly influential in our working and social lives. In this course you will gain skills in artificial intelligence, mathematics, database systems, computer systems, and software engineering. You will be taught by staff who are internationally recognised in fields such as artificial immune systems, evolutionary algorithms and optimisation.

BEng (Hons) Computer Systems & Networks

Gain the knowledge and skills required to design, develop and maintain networked hardware and software. This programme has a high employability focus and covers the broad area of computer systems.

BEng (Hons) Cybersecurity & Forensics

Gain the know-how and practical skills to analyse and create effective and secure computer systems. Accredited by the British Computing Society and the National Cyber Security Centre, this course offers study abroad and industry placement options.

BSc (Hons) Data Science

This course aims to teach you the theory and practical elements of data science: manipulating and analysing big data sets (for example, climate change data and health data) to draw meaning and understanding that affects our everyday lives.

BSc (Hons) Digital Media & Interaction Design

Lead the next wave of innovation in interactive applications and screen based media. This course equips you with the skills to break new ground in digital media and interaction design.

BSc (Hons) Digital Media & Interaction Design Global

A popular choice for students, this course has the same elements of Digital Media & Interaction Design but incorporates a compulsory study abroad in year 3. This course has been developed for the new media professional ready to work in a global industry.

BSc (Hons) Games Development

Passionate about writing code and creating virtual worlds?

Designed to meet the needs of the gaming industry, this course is accredited by both the British Computer Society and ScreenSkills.

BEng (Hons)/MEng Software Engineering

Study the fundamentals of software engineering to prepare for a successful career in the IT industry. This course gives you skills in various software applications used in different organisational settings.

BSc (Hons) Sound Design

Film, TV, gaming and theatre rely on special sound effects to bring stories to life. This course will teach you the technical knowledge and skills needed to succeed as a sound designer in these fields and more besides.

NEW BSc (Hons) User Experience (UX) Design

This exciting new course allows you to develop a wide range of user experiences, such as a web project, a mobile application, a wearable device, or a smart, interactive space. Through your studies you will build a portfolio of work relevant to a broad range of UX jobs.

BSc (Hons) Web Design & Development

Creating an effective web presence calls for a growing range of skills. This comprehensive web applications and interaction design course explores web technologies, user experience, digital business environments and more.

COMPUTING

"I am really enjoying the Criminology course, including the internship I completed with The Scottish Institute for Policing Research. My studies have been greatly supported by my lecturers, despite obstacles because of the Covid-19 pandemic."
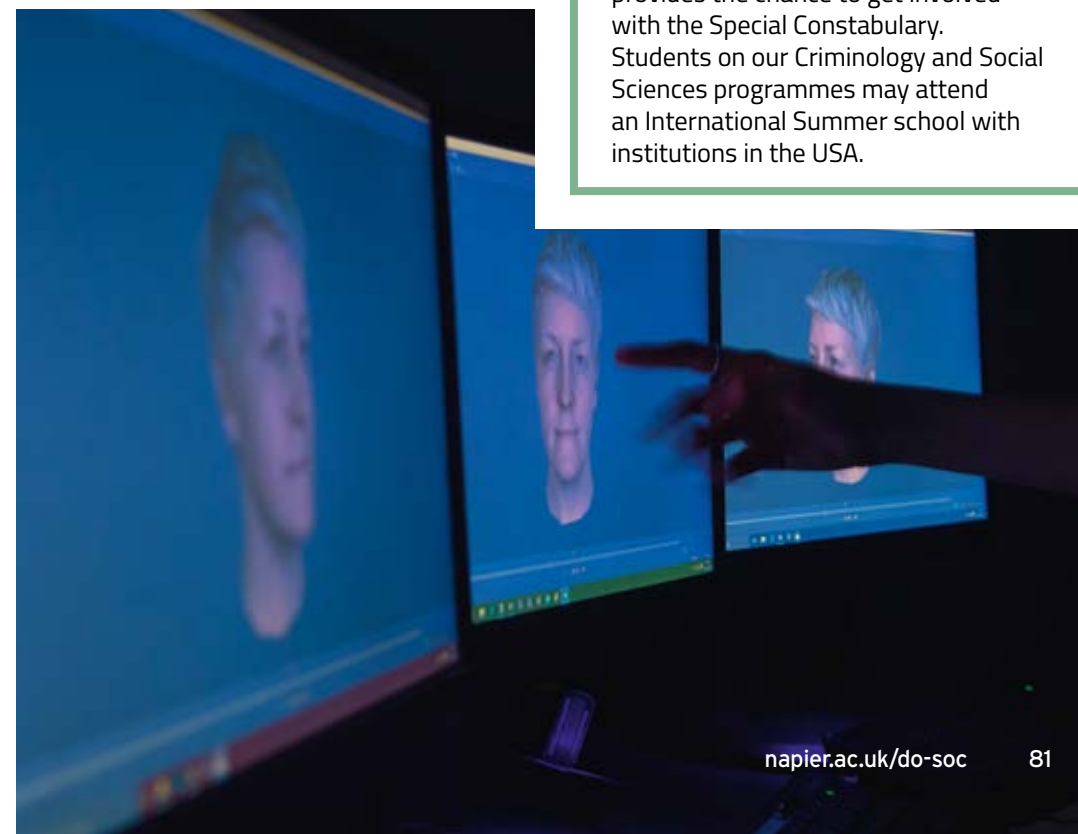

Ellie Fletcher

CRIMINOLOGY, PSYCHOLOGY & SOCIAL SCIENCES

napier.ac.uk/do-soc

Study in a multidisciplinary school where our programmes are informed by staff's research in the fields of criminology and criminal justice, social sciences and psychology, across areas such as health and illness, gender and migration, policing, imprisonment and restorative justice. We have excellent student satisfaction rates for our programmes as rated by the National Student Survey and are **a top 10 UK modern university for psychology and sociology** (The Times/Sunday Times Good University Guide 2021). We are the only Scottish university with a full BSc (Hons) Policing & Criminology degree.

YOUR LEARNING EXPERIENCE

We offer access to dedicated psychology lab facilities and equipment, including an eye tracking lab, an EEG lab, and a 4D motion capture lab. All of our courses offer the opportunity to join the 'Microplacements' work shadowing scheme that pairs students with relevant placements. Our Policing & Criminology course provides the chance to get involved with the Special Constabulary. Students on our Criminology and Social Sciences programmes may attend an International Summer school with institutions in the USA.

COURSES

BA (Hons) Criminology
As an interdisciplinary social science subject, criminology draws on a variety of perspectives including sociology, psychology and law. You'll study crime, why it happens and how society reacts to it.

BSc (Hons) Policing & Criminology
Explore the wide range of social, political and economic factors which impact policing and crime, and gain the knowledge and skills to become a reflective police officer or take on a broader criminal justice role.

BA (Hons) or BSc (Hons) Psychology
Psychology explores individuals and their unique behaviours. You'll learn about memory, language, creativity, personality, social interaction and the brain, and graduate accredited by the British Psychological Society.

BA (Hons) Psychology with Sociology
This British Psychological Society accredited course combines psychology with sociology to examine and investigate human life and experiences, and develop a detailed understanding of the social world, the complexities of human relationships and social forces.

BA (Hons) Social Sciences
This course gives you an insight into many different aspects of our lives as individuals and as part of society. You'll have the opportunity to study across social science disciplines including geography, history, politics and sociology with options for criminology and psychology.

CRIMINOLOGY, PSYCHOLOGY & SOCIAL SCIENCES

"It was through interviewing designers and exhibitioners during my time at Harper's Bazaar that I realised that interior design was what I wanted to do. I had always wanted to study overseas and after completing a course and undertaking some smaller freelance work back home, I applied for Edinburgh Napier – and here I am!"

Alexandra Groza Interior and Spatial Design 2018 graduate, won the top student award at Interior Educators @ Free Range in London.

DESIGN & PHOTOGRAPHY

napier.ac.uk/do-design

Our programmes are at the leading edge of design while our excellent industry contacts ensure your learning is as contemporary as it is relevant. You will benefit from multi-disciplinary academic staff and industry-based practitioners who will help you develop the professional knowledge and critical thinking skills you need to succeed. Our connections with many of the UK's best design agencies and professional photographers mean you'll be work-ready when you graduate. **We're the top UK university for Film Production & Photography** (The Guardian University Guide 2021) **and the top UK modern university for Art & Design** (The Times/ Sunday Times Good University Guide 2021).

YOUR LEARNING EXPERIENCE

Our courses are supported by designated studio spaces, workshops and a specialist photography facility, as well as excellent computing facilities with industry-standard software. We offer opportunities to gain experience on live projects with clients like the National Museum of Scotland and you'll benefit from partnerships, placement and mentoring opportunities through our alumni and industry networks. At the annual Degree Show, the Edinburgh-based StudioLR sponsors a best-in-show prize with the chance to work with the agency for a month.

DESIGN & PHOTOGRAPHY

"We have a great community feel on the Law degrees at Edinburgh Napier University and there is a Student Law Society. The staff are extremely supportive, they always check in with you. We even got support in CV writing, which was great. I love Edinburgh, so Edinburgh Napier University was an obvious choice when making my decision on where to study. The campuses are great and have good facilities."

Chris Enderby

LAW

napier.ac.uk/do-law

Our graduates are employed at some of Scotland's leading law firms and organisations including the Crown Office and Procurator Fiscal Service. A Scots law degree is not only the first step towards qualifying as a solicitor in Scotland but is also an excellent springboard to many other careers. Our courses are accredited by the Law Society of Scotland and provide a broad foundation in the law of Scotland, enabling you to seek qualification as a solicitor in Scotland or pursue other options.

YOUR LEARNING EXPERIENCE

The lecturers within our small and friendly department have a wide range of experience, and the majority of them have practised law as a solicitor or advocate. Our law clinic - an entirely student-run organisation - provides free legal advice to the public and is supported by Anderson Strathern and accredited by the Faculty of Advocates Free Legal Services Unit. It provides opportunities to advise real clients.

LAW

— COURSES

BDes (Hons) Graphic Design
Join award-winning students and gain practical work experience to shape the world around you on our accredited and industry recognised graphic design course.

BDes (Hons) Interior & Spatial Design
Industry-leading professionals direct the learning in our collaborative, practical studio space. Focusing primarily in the interior, but also public spaces, lighting and exhibition design, we create and enrich places at the human scale.

BA (Hons) Photography
Start your journey as a contemporary, creative and intelligent photographer and gain experience in a vast range of photographic practices.

BDes (Hons) Product Design
Learn how to design innovative, attractive and usable products and explore the dynamic world of product design while gaining vital industry experience.

Our students have had recent successes in the RSA Student Design Awards, YCN, D&AD New Blood Awards, Jill Todd Photographic Award and Sony World Photography Awards.

"I always had an interest in engineering from a young age and even though I was told I wasn't very good at maths and that I should consider a different path, I didn't let that stop me. I continued to pursue my ambition and I am now in my third year studying Civil Engineering and absolutely enjoy my course."
Sophie Pugh

ENGINEERING

napier.ac.uk/do-engineering

Strong industry links ensure our programmes are highly relevant and up to date, providing professional insight and crucial knowledge for success. Our courses are fully accredited by organisations such as the Institution of Civil Engineers, Institution of Structural Engineers, Chartered Institution of Highways and Transportation, Institute of Highway Engineers, Institution of Engineering and Technology, Engineering Council and the Energy Institute. We are **a Top 5 UK modern university for Civil Engineering with 95% student satisfaction** (The Times/Sunday Times Good University Guide 2020, NSS 2020).

YOUR LEARNING EXPERIENCE

You will have access to our wide range of specialist labs and the use of leading, industry-relevant equipment, such as our Robotics and Automated Manufacturing lab which contains a Flexible Manufacturing System (FMS) to study and design an automated production line. Work placements are an intrinsic part of every course and there are opportunities to take part in activities such as the Civil Engineering week which is held overseas.

— COURSES

BEng (Hons) Civil Engineering

Gain comprehensive knowledge of Civil Engineering across structural, geotechnics, transportation, hydraulics, water and environmental engineering. You will focus on Civil Engineering practice and design as well as applying your mathematical and IT skills to solving engineering problems. The course is fully accredited and provides the educational basis for Incorporated Engineer (IEng) status.

MEng Civil Engineering

This course is the same as the BEng course in years 1 to 4. You then specialise in your chosen field for advanced study in Structural and Geotechnical Engineering in year 5. The course is fully accredited and provides the educational basis for Chartered Engineer (CEng) status.

MEng Civil & Transportation Engineering

This course is the same as the BEng Civil Engineering in years 1 to 4. You then specialise in advanced study in Transport Planning and Engineering in year 5. The course is fully accredited and provides the educational basis for Chartered Engineer (CEng) status.

BEng (Hons) Energy & Environmental Engineering

You'll focus on engineering practices, computing skills and principles of design relating to a wide range of energy systems. Through it you will gain an understanding of the operation and specification of renewable energy systems and consider the use and impact of appropriate materials and methods of manufacture. The course also covers building services design.

BEng (Hons) Electronic & Electrical Engineering

You'll study electronic and electrical engineering and focus on the application of these skills to real-world engineering situations. As part of your studies you will analyse engineering systems, designs, processes and products and will use computer-aided engineering and design techniques.

MEng Electronic & Electrical Engineering

This course is the same as the BEng course in years 1 to 4. You then specialise in your chosen field for advanced study in year 5.

BEng (Hons) Mechanical Engineering

You'll learn to integrate your knowledge of mathematics, science, information technology, design and business and apply it to increasingly complex engineering situations. This course will help you develop your skills in lateral problem solving and innovative thinking.

MEng Mechanical Engineering

This course is the same as the BEng course in years 1 to 4. You then specialise in your chosen field for advanced study in year 5.

Winner of the Queen's Anniversary Prize for our work in timber engineering, sustainable construction and wood science in 2009 and 2015.

ENGINEERING

"My studies in Scottish literature in particular grounded me in the knowledge I needed to understand political events as they were unfolding across the country"

Andrew Barr graduated from the BA (Hons) English & Film course in 2014. He has since released his first book, *Summer of Independence: Stories from a Nation in the Making*, which featured in The Scottish Review of Books.

ENGLISH

napier.ac.uk/do-English

We're the top UK modern university for English (Times/Sunday Times Good University Guide 2021). Our courses build an understanding of the way literature and film foster better engagement with the modern world. You'll learn about important authors, periods and texts and gain valuable critical thinking skills that will prepare you for careers in a range of cultural and creative industries. You will study topics from canonical literature to contemporary film, from experimental works to popular culture, with opportunities to take options in creative writing, TV studies and much more.

YOUR LEARNING EXPERIENCE

You'll learn in a variety of dynamic and engaging forms on our programmes – we have a wide range of assessments alongside traditional essays including blog writing, video essays and more. Our teaching placement scheme offers the opportunity to gain classroom experience, and there is the chance on a final year module on Crime in Text and Film to participate in an award-winning partnership with the Scottish Prison Service to enhance literacy. Study abroad schemes enable you to study at universities in Toronto and across the USA.

LOOK AT THE GROUND BENEATH YOUR FEET.

ENGLISH

COURSES

BA (Hons) English
Focusing on modern literature and culture, you'll discover how classic and unfamiliar texts changed ways of thinking in their own time, and how they continue to shape our view of the world.

BA (Hons) English & Film
Exploring literature alongside film and television, you'll gain an awareness of critical and theoretical perspectives on contemporary literary and visual culture.

FILM, JOURNALISM & MEDIA

napier.ac.uk/do-media

We are the top UK university for Film Production & Photography and a top 5 UK modern university for Media & Film Studies and Journalism, Publishing & Public Relations (The Guardian University Guide 2021). We will prepare you for a career in the film, media and creative sectors in Scotland, and around the world, through our industry-relevant courses which provide both in-depth knowledge and hands-on experience. You'll gain all the technical and creative skills and practices you need to get ahead.

YOUR LEARNING EXPERIENCE

Our courses give you access to specialist facilities with industry-standard equipment, including everything from professional level radio and TV studios to editing suites and Mac laboratories. We'll ensure you have the right tools at your disposal to put your creative thinking into action. Through our wide network of industry contacts we can help you to find placements in your chosen field and work on live briefs with a range of creative media partners.

"The highlight of my time at Edinburgh Napier University was the excitement of being surrounded by other people with the same ambitions and having the support of lecturers who put their trust in me."

Eric Romero BA Television student Eric Romero's award-winning graduation film, Lethe, has toured international film festivals. Since graduating, Eric's gone on to work as a script-writer in Spain while developing a new drama production back in Scotland.

FILM, JOURNALISM & MEDIA

COURSES

BA (Hons) Film
Study the art and craft of cinema, gain practical skills in our specialist production facilities, and expand your creativity as a contemporary film-maker.

BA (Hons) Journalism
Gain industry-relevant training that prepares you for a media career on one of the UK's longest running and respected journalism courses.

BA (Hons) Mass Communications
Prepare for employment or postgraduate study in disciplines such as mass communications, advertising, public relations, marketing, journalism, media and digital communication, with this new professionally recognised and accredited course. Choose from three exit routes after year 2: BA (Hons) Mass Communications; BA (Hons) Mass Communications & Media (also available as advanced entry); or BA (Hons) Mass Communications, Advertising & Public Relations (also available as advanced entry).

BA (Hons) Television (advanced entry)
Build on your existing creative skills and focus on a career in the television and screen media industries.

COURSES

LLB (Hons)
This course gives you a broad foundation in the law of Scotland and enables you to take a range of law and non-law options. Over the course of the first three years, you'll study all of the subjects required by the Law Society of Scotland to enable you to seek qualification as a solicitor. If you proceed to the fourth year, you will be able to explore an area in depth by undertaking a major research project (dissertation) and four options.

LLB Graduate Entry
This accelerated course leading to an Ordinary degree gives you a broad foundation in the law of Scotland. Over the course of two years, you'll study all of the subjects required by the Law Society of Scotland to enable you to seek qualification as a solicitor. In the second year you will also take two option modules in subjects such as Law and Society, Employment Law and Intellectual Property.

Completion of the LLB (Ordinary or Honours) is **stage one** of qualifying as a solicitor in Scotland.

Stage two is the Diploma in Legal Practice (DLP also known as Professional Education and Training Stage 1 or PEAT 1) currently offered by six universities in Scotland.

Places on the DLP are allocated according to marks achieved in compulsory modules, taken in years 1-3 of our LLB. The DLP is a vocationally orientated course designed to prepare students for **Stage 3** (PEAT 2, also known as the traineeship).

Please remember that law is a very competitive profession and completion of the DLP is no guarantee of a traineeship. Many law students choose not to enter the legal profession but use their LLB as a stepping-stone into other careers such as those within business, banking, finance or the Civil Service.

LAW

"I would highly recommend this course which combines professional and academic experiences. As a dyslexic student I found the innovative assessments one of the greatest advantages, as many of them are centred around more practical formats, such as reports and video submissions. And these practical skills are important for a placement or the live project option in your penultimate year."

Eilidh Muir

MARKETING

napier.ac.uk/do-marketing

Our dynamic curriculum means your learning is up to date, while our strong ties to industry give you access to people currently working in the field. You'll explore different aspects of marketing - from digital media to brand management and international marketing - and gain the business and creative skills you need for a career in this exciting sector. Our Marketing with Digital Media course puts theory into practice by combining marketing theory with sophisticated digital media and IT skills. **We are a top 10 UK modern university for Business, Management and Marketing** (Guardian University Guide 2021) and our courses are accredited by the Institute of Data and Marketing (IDM).

YOUR LEARNING EXPERIENCE

Our industry-experienced, research-led staff work with our computing colleagues to ensure you are being taught by the experts for the digital media side of your course. In addition, you'll benefit from guest speakers from a diverse range of industry sectors. Placements are a vital part of our courses and you'll have the opportunity to undertake a 24-week work placement during trimester two of your third year, as well as opportunities to study abroad.

COURSES

BA (Hons) Marketing Management

In this course you'll gain knowledge of both general marketing principles and specialist areas such as international marketing and marketing communications. You'll study cutting edge developments in the marketing industry including digital and social media.

BA (Hons) Marketing with Digital Media

This degree blends together theory and digital marketing practice. You'll gain an excellent understanding of both marketing principles and digital media skills including specialist areas such as user experience.

In both courses you'll have the opportunity to apply your skills to real-world projects through a supervised six-month work placement.

We also have a
BA Marketing Management
Global Online top-up course aimed at those who wish to develop their knowledge of marketing theory and practice to help progress their marketing management career.

MARKETING

"As someone who came to writing music pretty late, my time at Edinburgh Napier gave me my first chance to really explore composition with some great tuition and performance opportunities."

Anna Meredith
In 2016 her debut solo album gained widespread critical acclaim and won Scottish Album of the Year. She opened the prestigious Edinburgh International Festival and the BBC's First Night of the Proms in 2018. Anna was awarded an MBE for services to music in 2019 and was shortlisted for the Mercury Prize 2020.

MUSIC

napier.ac.uk/do-music

We're the top modern university in the UK for Music (The Guardian University Guide 2021 and The Times/Sunday Times Good University Guide 2021). Choose your pathway through performance, composition, production, research and the wider music industry, and tailor your degree to your interests and aspirations. You'll learn from lecturers who are practising performers, composers, conductors, music therapists, musicologists, sound engineers and songwriters. Our students have gone on to perform all over the world with bands like Mogwai and to manage groups like Idlewild.

YOUR LEARNING EXPERIENCE

Our innovative, practical teaching will give you critical insight into the music industries and you'll benefit from our outstanding facilities, high-quality recording studios and 24/7 access to practice rooms. Our fully networked music lab runs a range of industry-relevant software including Logic, Pro Tools, Ableton and Sibelius. We're one of the few music departments in the UK to offer an undergraduate module in Music Therapy and our relationship with the Eric Liddell Centre provides unique opportunities to gain practical experience in this field.

COURSES

NEW BA (Hons) Music
Embrace a variety of musical styles and genres on this unique course which will allow you to follow a pathway that reflects your specialist interests, be that in performance, composition, production, or in areas such as education, management and research. This new programme combines our existing internationally recognised BMus (Hons) Music and our BA (Hons) Popular Music courses and is designed to ensure you have the skills vital for success in the music industries.

Available for direct entry at year 3 only:

BMus (Hons) Music
With pathways in performance, composition and academic/research-based modules, this course offers a range of compulsory and optional modules to give you the flexibility to map out your future.

BA (Hons) Popular Music
Explore musical stylistics and concepts within contexts of performance, composition, production and musicology and develop the diverse skill set needed to make your mark in the music industries.

NURSING & MIDWIFERY

napier.ac.uk/do-nursing

In Scotland we are the largest provider of nursing and midwifery education and the only provider of all four fields of nursing (Adult, Child, Learning Disabilities, Mental Health). Our School of Health & Social Care provides a vibrant teaching environment for over 2,500 students, delivering a unique learning experience which ensures you gain the skills and qualifications needed to become a Nursing and Midwifery Council registrant when you graduate. 100% of our nursing and midwifery students are in work or further study within 15 months of graduating (HESA Graduate Outcomes Survey 2017/18).

YOUR LEARNING EXPERIENCE

You'll learn in some of the best teaching facilities in the country, including our purpose-built Simulation and Clinical Skills Centre which is run by a specialist team of nurses, doctors and midwives, and covers several practice areas - from community and critical care to general and labour wards. These facilities will help you gain experience relevant to all employers. Our links with local healthcare providers can provide placements where you can put theory into practice in the real world.

"I think it's an honour to be in a situation with someone and be trusted when they're at their most vulnerable and they turn to you for help. It's a pleasure but it's also an honour to be able to do that, and it's something that I carry with me every day."

Fizza Hussain Bachelor of Nursing (Adult) graduate, 2018.

— COURSES

PRE-REGISTRATION COURSES:

BN Nursing (Adult)
Gain the professional knowledge and understanding to progress in a career at the forefront of adult nursing.

BN Nursing (Child)
Learn to be confident and competent in the care of children and young people requiring healthcare interventions through an exciting, challenging and stimulating programme.

BN Nursing (Learning Disabilities)
Learning disability nurses aim to improve the health and quality of life of people with learning disabilities through evidence-based nursing care and support.

BN Nursing (Mental Health)
Explore the rewarding and complex study of mental health and develop the skills required to practice nursing in a compassionate and recovery-focused way.

BM Midwifery
Explore all aspects of childbearing and gain the knowledge and practical skills required to register with the Nursing and Midwifery Council as a midwife.

POST-QUALIFICATION COURSES:

BSc Nursing Studies
This programme gives you a flexible opportunity to build on your current nursing qualifications and top up to degree level.

FINANCIAL SUPPORT

All eligible (Scottish domiciled) student nurses and midwives studying a pre-registration course in Scotland can benefit from an annual bursary of £10,000 from 2021/22 to help cover accommodation and living expenses.

NURSING & MIDWIFERY

UNDERGRADUATE ENTRY REQUIREMENTS

	YEAR 1 ENTRY			YR 2 ENTRY	YR 3 ENTRY
	SQA (standard)	SQA (minimum)†	A-level

NURSING & MIDWIFERY

"The practical nature of the course is really important because you're encouraged to go away and learn how to apply the equipment to different athletes; that element of it really prepares you for the applied environment that most sports science jobs are in."

—

Alessandro Feri

SPORT & EXERCISE SCIENCE

napier.ac.uk/do-sport

Whether you want to help sufferers of long-term illnesses keep moving or train elite athletes, we have courses to suit anyone passionate about the subject. Our exclusive partnerships with elite sport organisations, such as the Scottish Rugby Union (SRU) and Scottish Gymnastics, means that what you learn in the classroom – from professors who are also coaches – will always be at the cutting edge of sports science. Our specialist facilities will ensure you gain the knowledge and skills to make an impact.

YOUR LEARNING EXPERIENCE

You'll use our specialist, high-tech labs from year one, including our environmental chamber - the largest facility of its kind in Scotland which can replicate high-altitude conditions up to the equivalent of Everest Base Camp. Partnerships with Scottish Association for Mental Health (SAMH) and Macmillan for example, will give a focus on improving lives. There are volunteering and work-based learning opportunities at each level and through these you can test your knowledge and experience in a real working environment.

SPORT & EXERCISE SCIENCE

COURSES

BSc (Hons) Physical Activity & Health

This course – endorsed by CIMPSA as it meets employer-set professional standards – offers you a multidisciplinary approach that gives you the tools to help others improve their lives through exercise, including alleviating disease and long-term illness.

BSc (Hons) Sports Coaching

This course will help you achieve your own potential as a modern, professional coach with knowledge of how sports science improves athletic performance.

BSc (Hons) Sport & Exercise Science (including advanced entry)

Apply the latest scientific findings to sport to make athletes better, faster and stronger. This course explores how you can use physiology, psychology and biomechanics to help athletes perform to their full potential.

BSc (Hons) Football Coaching, Performance & Development

This course is the first of its kind in Scotland and has been designed in collaboration with the Scottish Football Association. Become a degree-qualified coach in the many different facets of football and graduate with the UEFA C, Scottish FA Children's Licence, UEFA B and UEFA Youth B licence diplomas.

BA (Hons) Business & Enterprise in Sport

This online course for professional athletes and support staff will teach you to translate your athletic excellence into a successful business, while working around your training and competition schedule.

"I decided to come for a visit and see Edinburgh for the first time. I went out to the Craiglockhart Campus to meet with my future Programme Leader and he spent an hour chatting to me about the course and the University. That's when I knew I wanted to be a Edinburgh Napier student!"

Ciara O'Donnell

TOURISM, HOSPITALITY, FESTIVAL & EVENTS MANAGEMENT

napier.ac.uk/do-tourism

Where better to study tourism, hospitality, festivals and events management than in a world-renowned visitor destination and globally famous Festival City? And at Edinburgh Napier you will also be learning at **a top 10 UK university for Hospitality, Event Management and Tourism** (The Guardian Guide, 2021). Studying with us you will benefit from industry-informed teaching and a wealth of experts who we partner with – our Visiting Professors include Directors from all the key Edinburgh Festivals.

YOUR LEARNING EXPERIENCE

Enjoy excellent facilities, learn from leading professionals and expert academics, and gain real-world experience with tourism and hospitality businesses and long-established festivals and events. Through our courses you will develop leadership, creativity and management practice skills which will help you to succeed in this dynamic, varied and exciting sector. We offer an optional 24-week work placement on most programmes and there are opportunities to study abroad through international exchanges. We also arrange appropriate internships for all three subject areas.

COURSES

BA (Hons) International Tourism Management
This course covers the broad and diverse aspects of tourism management, from impacts and sustainable development to destination and visitor attraction management. It will equip you with the knowledge and practical experience you need to prepare for a career in tourism management. You can also study this course as follows:

BA (Hons) International Tourism & Airline Management

BA (Hons) International Tourism & Marketing Management (advanced entry)

BA (Hons) International Hospitality Management
Develop your skills in the design, delivery and management of food, beverage and accommodation to top industry standards. You can also study this course as follows:

BA (Hons) International Hospitality Management & Tourism

BA (Hons) International Hospitality Management and Festival & Events

BA (Hons) International Hospitality Management & Marketing (advanced entry)

BA (Hons) International Festival & Event Management
This course will teach you how to plan, design, market, operate and develop events, as well as how these can be used to help local economies and communities.

You can also study this course as follows:

BA (Hons) International Festival & Event Management with Marketing

BA (Hons) International Festival & Event Management with Entrepreneurship (advanced entry)

BA (Hons) International Festival & Event Management with Tourism (advanced entry)

Join

WHAT YOU NEED TO KNOW

What do I need to apply for the course I want to study?

You'll need qualifications, a personal statement and a reference. For some specific courses you may also need to:

- Come to an interview or audition;
- Submit an art/design portfolio;
- Provide evidence of relevant work or voluntary experience when applying for vocational courses such as Nursing.

If English is not your first language, you will normally need to provide evidence of your English language skills through qualifications or a Secure English Language Test.

We call these our entry requirements.

Students from the UK and Republic of Ireland should apply by the application deadline of 15 January as applications made after this date cannot always be considered. International applicants should apply by 30 June.

What qualifications and grades do I need?

The qualifications or grades you need will vary by course and may also depend on whether you are a widening access student. In this prospectus we list our Year 1 Scottish Higher entry requirements in two ways - our standard and our minimum entry requirements. Both reflect the grades you will need to achieve by the time you enter the University, however, the minimum entry

requirements only apply if you are a widening access student.

> **Example:**
>
> **BA (Hons) Accounting**
>
> **Year 1 Standard Entry Requirement:** BBBB including National 5 Maths and English at Grade C
>
> **Year 1 Minimum Entry Requirement:** BCCC including National 5 English at Grade C

We also list any specific subjects you must have studied by the time you enter the University to be considered for entry to the programme.

If you have already achieved the entry requirements which apply to you, you may receive an unconditional offer from the University. This means the place is yours if you want it, although there may be other steps you need to complete, such as a Protecting Vulnerable Groups (PVG) check or medical requirements, depending on the course you have applied to. Alternatively, if you need to achieve further qualifications to meet the entry requirements you may receive a conditional offer from the University. These conditions will be the academic qualifications you need to achieve in your current studies to get your place confirmed.

You should also remember that:

- Only Higher Grade C passes or above are counted towards your Higher tally. For Advanced Highers only Grade D or above is counted;

- Where you have achieved an Advanced Higher at Grade D this equates to a B-pass at Higher. An Advanced Higher Grade C or above equates to an A-pass at Higher;

- Unless you are a widening access student, where you apply with both a Higher and Advanced Higher in the same subject, we will only count the subject once, and will use the highest grade (or equivalent grade) achieved when reaching our decision. For widening access applicants we will count all Higher and Advanced Higher grades when calculating a student's achievement, even where these are in the same subject, however, you must have achieved the required grades in a minimum of three different subjects at Higher (or equivalent) in order to qualify for entry;

- The majority of our courses also allow entry directly into year 2 or 3 of study with a relevant HNC or HND qualification. Our course webpages will tell you which qualifications are accepted and any specific grades you are required to achieve within your HNC/D qualification.

Am I a widening access student?

We aim to identify each applicant's full talent and potential, and we look beyond grades to do this as part of our commitment to addressing the current under-representation of certain groups (widening access students) within higher education in Scotland.

We consider you to be a widening access student if you:

- Have spent time in care;
- Are a young carer: young adult carers are people aged 16–25 who care, unpaid, for a family member or friend with an illness or disability, mental health condition or an addiction;
- Have taken part in the Lothian Equal Access Programme for Schools (LEAPS) and been identified as LEAPS-eligible;
- Have completed a Scottish Wider Access Programme (SWAP);
- Have attended a Scottish school which has low numbers of students progressing to higher education;
- Have Government recognised refugee or asylum status;
- Live in a target postcode area which identifies you as living in an area of high deprivation (most deprived 20% in Scotland) as defined by the Scottish Index of Multiple Deprivation. Go to **simd.scot/#/2020** and enter your postcode to see whether you live in a target postcode area.

If you meet one of the above criteria, the entry requirements that apply to you are our minimum entry requirements, which reflect the minimum academic grades required to succeed on your chosen programme of study.

HOW TO APPLY

Full-time courses

Applying for our full-time undergraduate courses is done through the Universities and Colleges Admissions Service (UCAS) website (ucas.com). You should use the Edinburgh Napier institution code – ENAP E59 – along with the code of the course you'd like to study.

Part-time courses and online courses

Are you a UK student and want to study part-time? Or online? To do this, you'll have to go through our website. Just visit the page of your chosen course and hit the 'apply' button.

Got questions about applying? Our friendly Admissions team are happy to take you through everything you need to know, either via email or on the phone. Get in touch by:

☎ **+44 (0)333 900 6040**

✉ **ugadmissions@napier.ac.uk**

🖥 **napier.ac.uk/UG-apply**

If you are applying from outside the UK, our International team is here to support and guide you through the process.

✉ **international@napier.ac.uk**

Apply from September 2021. Applications close 15 January 2022, or 30 June 2022 for international students. UCAS will forward your application on to us.

We will review your qualifications, personal statement and supporting references. Our Admissions policies, which you can find online, provide advice about how we select. **napier.ac.uk/UG-applicationadvice**

You will receive a response with either an unconditional offer, a conditional offer, or informing you that unfortunately your application has been unsuccessful. We make offers from November through to the end of April.

Remember, even if you don't get the grades you need for your first-choice course, Clearing is an opportunity to find a spot on a similar course. Head to **napier.ac.uk/clearing**

If you receive an offer you will have the opportunity to visit us on campus to learn more about our academics, students and facilities, and get all the information you need to make your decision on our offer. Or if you're overseas, you can talk to our International Team either in your country or online.

Now would be the time to **make Edinburgh Napier your first choice.**

If your offer is conditional, we will confirm your place when your outstanding qualifications are known.

You will be sent information about your timetable and induction in August before commencing your studies in September.

ALTERNATIVE QUALIFICATIONS

HNC/HND

A large number of our students choose to go to college and study a range of qualifications before joining us. If you choose to study an HNC or HND qualification and are looking to study the same or similar subject with us, you will generally be able to articulate directly onto your chosen degree programme and be eligible to start in year 2 or year 3. For full details on what HNC/D courses articulate onto our degrees, the grades needed, and all the excellent support we have available, please see our website: **napier.ac.uk/UG-comingfromcollege**

Associate Students

The Associate Student Scheme allows you to study for your HND at one of our partner Colleges while guaranteeing your place at Edinburgh Napier University in third year (conditions apply). As an Associate Student of Edinburgh Napier you have a personal guarantee of a place with us on a number of degree programmes within our Schools of Computing, Engineering & the Built Environment, and Business.

In the School of Computing our partners are Edinburgh College, Forth Valley College, New College Lanarkshire and West Lothian College. In the School of Engineering & the Built Environment our partners are Borders College, Edinburgh College, Fife College and West Lothian College. Contact your local partner College to apply for an Associate Student place.

BTEC (Business and Technology Education Council)

Edinburgh Napier accepts BTEC Nationals either as one equivalent qualification or alongside additional A-Levels, depending on the degree and entry requirements. It is normally considered for entry onto a related course and is increasingly gaining popularity as an alternative covering a whole range of academic levels.

Many of our degree programmes accept the BTEC Level 3 Extended Diploma with the standard 18-units being equivalent to three A-Levels.

Applicants should check our website for up-to-date minimum grade requirements for their subject of interest.

Foundation Apprenticeships

Edinburgh Napier accepts applications from students who apply having studied a Foundation Apprenticeship which offer you an excellent opportunity to undertake valuable work-based learning alongside other qualifications. This ensures you gain the necessary skills, knowledge and experience to prepare you for entry.

We will accept the Foundation Apprenticeship for entry to all courses across the University and completion of this qualification would normally, as a minimum, equate to one SQA Higher, although in some subject areas the qualification may receive additional credit towards entry.

Where specific subjects at Higher or National 5 are required for entry to a degree programme, the Foundation Apprenticeship would not ordinarily replace this requirement.

T-level qualifications

Edinburgh Napier is supportive of the new T-level qualifications. The overall grade required for entry may vary depending on the course you have applied for, however, students will typically be asked to obtain a Merit to gain entry to the majority of our courses, with a Pass (C or above) for courses that ask for CCC at A-level. Please note, if your course requires a specific subject at A-level/Higher you should contact Admissions to confirm your T-level meets this requirement, prior to submitting your UCAS application.

FEES AND FINANCE

Understanding the financial implications of coming to university can sometimes be tricky, but we're here to help

These pages provide fees and funding information but if you need more details please contact us:

napier.ac.uk/fees

☎ +44(0) 333 900 6040

✉ ugadmissions@napier.ac.uk

Students from Scotland

Fees (full time): If you live in Scotland and satisfy certain residency requirements your tuition fees will normally be paid for you by the Student Awards Agency for Scotland (SAAS). You must apply to SAAS each year to ensure your tuition fees are paid. If you are not eligible for SAAS support fees, tuition fees are £1,820 per year.

Fees (part time): If you are studying part time and meet the SAAS eligibility criteria you can apply for a Part-time Fee Grant (PTFG) to help cover the cost of tuition fees each year. The amount you are entitled to is dependent upon the number of credits you are studying and the level.

Living costs (not nursing): To help cover your living costs you may also be eligible for support from SAAS in the form of a bursary and/or Living Cost Loan.

Nursing students: As well as SAAS support to cover tuition fees for all eligible Nursing Students, there is also a non-income assessed bursary totalling £10,000 per year, in addition to additional grants depending on your personal circumstances.

For more information visit the Students Awards Agency for Scotland: **saas.gov.uk**

Students from UK (outside Scotland) and Republic of Ireland

Fees: If you normally live in England, Northern Ireland, Wales, Channel Islands, Isle of Man or the Republic of Ireland (ROI), you are likely to be assessed as liable to pay the Rest of UK/ROI tuition fee rate, regardless of the subject you are studying. Fees for those starting in 2022 are £9,250 per year. You should NOT have to pay tuition fees up front – you can apply for a tuition fee loan to cover the cost from your relevant student funding body.

Fee waiver: The majority of undergraduate honours degrees in Scotland are four years in length, whilst across the other nations in the UK they are usually three. If you are looking to join us and your degree will take three or four years to complete, Edinburgh Napier will only charge Rest of UK/ROI students £9,250 per year for the first three years of study with us. This means we automatically provide you with a fee waiver for your fourth year of study. If you are planning to study one of our degrees that usually takes five years to complete (e.g. Integrated Masters) you will only pay fees for your first four years of study with us and automatically gain a fee waiver for your fifth year of study.

Living costs: To assist with covering your general living costs you may also be eligible for support from your funding body which will usually issue living cost loans, bursaries and/or grants – these vary depending on your student funding.

Bursaries and scholarships: In addition to any funding from your student funding body, you may also be eligible for funding from us. We provide a generous package of cash award bursaries, up to £3,000 per year. This means you could receive up to £12,000 in bursaries (money you do not have to pay back), in addition to the £9,250 fee waiver for your fourth year of study.

Our main bursaries are:
Access Bursary – up to £2,000 per year, available to all eligible students with an approximate household income of £42,600 or less.

Merit Bursary – £1,000 per year, available to any Rest of UK/ROI student achieving BBB or higher in their A-levels (or equivalent qualifications) or H1,H1,H2,H2 in the Irish Leaving Certificate.

Student Funding Bodies:
Scotland: **saas.gov.uk**
England: **gov.uk/student-finance**
N. Ireland: **studentfinanceni.co.uk**
Republic of Ireland: **saas.gov.uk**
Wales: **studentfinancewales.co.uk**

FEES, FINANCE AND VISAS

Students from the European Union

As of January 2020, the UK officially left the European Union which has resulted in some changes to student finances for those coming from the EU.

EU students (excluding Republic of Ireland)

EU students starting a degree from 2021/22 onwards, who do not hold settled or pre-settled status will usually be eligible to pay the Overseas tuition fee, please consult your course page on our website to confirm your fee amount. To assist self-funding EU domiciled students the University offers a partial merit-based scholarship of £3,000. **napier.ac.uk/UG-EUfees**

Republic of Ireland students

Students from the Republic of Ireland, who have normal residency in Ireland and are commencing their course from 2022/23, will be eligible to pay tuition fees of £9,250 per year, which is aligned with the fee for students from the Rest of UK. Please see pages 45 and 139 for full details of fee waivers and bursary schemes available for both Rest of UK and Republic of Ireland students.

International students

Fees: The amount of tuition fees for our undergraduate courses varies depending on your course. For courses in academic year 2022/23 fees are expected to range from £14,180 to £16,440 depending on your chosen subject of study. Please see the course pages on our website for the confirmed 2022 tuition fee rates when available.

If your fees are more than £6,500 and you need a Confirmation of Acceptance of Studies (CAS) to apply for your student visa, we require a pre-payment of £3,500 before you will receive your CAS. If your fees are less than £6,500, we will require advance payment in full. For further information on fees, see **napier.ac.uk/internationalfees**

Scholarships: We offer a variety of financial support, including scholarships, bursaries and grants. These are awarded for a wide variety of reasons and have differing eligibility. For more details, please visit: **napier.ac.uk/UG-INTfunding**

Online students

Tuition fees for our online degrees are payable directly to the University. Please see the course listing on our website for more information on fees for online courses.

All students – changes to tuition fees

Please note that tuition fees are subject to change and there may be an annual increment in the cost of tuition fees while you are at the University, taking into account the following circumstances:

- Any increases set or prescribed by regulatory bodies (other than the University), such as the Student Awards Agency for Scotland (SAAS) and the UK Government; and/or
- Changes to the cost of delivering our programmes.

Factors taken into account include, inflationary measures such as the retail price index (RPI), projected increases in university costs, changes in the level of grant from the Scottish Funding Council, costs of provision of teaching, supervision and course-related facilities.

Over the past three years, the average level of increase has been 4% per annum for self-funding students (excluding those studying on programmes where fee levels are fixed by the Scottish Government, e.g. Scottish students on full-time undergraduate programmes).

For further information about our 2022 tuition fees see napier.ac.uk/fees

Visas

International and EU/EEA students looking to study with us in 2022/23 will need to have immigration permission. This will usually be through the Student Visa route or by the EU settlement scheme.

Please note that the Student Visa is the new visa which has replaced the previous Tier 4 (General) student visa. To assist you in applying for your visa or to answer any immigration questions you may have, we have a dedicated Visa and International Support team.

For full details and support materials relating to visas and immigration, please visit: **napier.ac.uk/UG-visas**

ADMISSIONS - USEFUL INFORMATION

Universities and Colleges Admissions Service (UCAS)

Applications for all our full-time undergraduate courses are processed through the centralised Universities and Colleges Admissions Services (UCAS) system. The application process is the same whether you are coming from school, college or an independent applicant. You'll need the Edinburgh Napier institution code, which is ENAP E59, along with the course code of your chosen programme of study.

Apply online at: **ucas.com**

Guidance on the application process and all course codes are listed on the UCAS website. You can also find useful information on its website on how to track progress of your application once it has been submitted.

Applications for part-time study are made online via our website from your chosen course information page. Find your chosen course and click the apply button.

Our entry requirements

You will find information on entry requirements for each course outlined on the relevant subject page of this prospectus and on our website. However, it's not possible to list all the qualifications we accept in this prospectus. If you would like to know how your qualifications fit our requirements, please see the full course listings on our website. Or contact us for guidance on entry requirements and to discuss your options by emailing: **ugadmissions@napier.ac.uk**

Our admissions policy

The University is committed to ensuring we are accessible to the widest range of students who can benefit from higher education. We seek to admit any student who has the potential to succeed and benefit from our programmes. Visit our website, or contact us for a copy of our Admissions Policy and Contextual Admissions Policy which explain how we consider each application we receive: **napier.ac.uk/admissions-policy**

Widening access team

We support a wide range of applicants from all backgrounds and diverse learning paths. Get in touch with our team to see how we can help you start your journey into higher education: **wideningaccess@napier.ac.uk**

English language requirements

If English is not your first language you may need proof of an English language qualification. If you do not hold an approved English language qualification you may be required to sit an English language test, such as IELTS or TOEFL. To find out if you need to sit an English language test, visit: **napier.ac.uk/your-country**

International students

We welcome applications from all over the world. If you are applying from outside the EU, it is best to apply as soon as possible to give yourself enough time to make all the necessary arrangements for your visa, and to organise your travel and accommodation. The UCAS application deadline for non-UK and Republic of Ireland applicants is 30 June 2022. Country-specific requirements can be found at: **napier.ac.uk/your-country**

COURSE INDEX

EDINBURGH NAPIER UNIVERSITY

Disclaimers

1. The University endeavours to deliver courses and programmes of study in accordance with the description set out in this prospectus. The University's prospectus is produced at the earliest possible date in order to provide maximum assistance to individuals considering applying for a course of study offered by the University. The University makes every effort to ensure that the information contained in the prospectus is accurate but it is possible that some changes will occur between the date of printing and the start of the academic year to which it relates.

Please note that the University's website is the most up to date source of information regarding courses and facilities and we strongly recommend that you always visit the website before making any commitments.

2. Although reasonable steps are taken to provide the programmes and services described, the University cannot guarantee the provision of any course or facility and the University may make variations to the contents or methods of delivery of courses, discontinue, merge or combine courses and introduce new courses if such action is reasonably considered to be necessary by the University. Such circumstances include (but are not limited to) industrial action, lack of demand, departure of key staff, changes in legislation or Government policy, withdrawal or reduction of funding or other circumstances beyond the University's reasonable control.

3. If the University discontinues any courses, it will use its reasonable endeavours to provide a suitable alternative course. In addition, courses may change during the course of study and in such circumstances the University will normally undertake a consultation process prior to any such changes and seek to ensure that no student is unreasonably prejudiced as a consequence of any such change.

4. The University does not accept responsibility, and excludes any liability for damage to students' property (other than through the negligence of the University, its staff or agents), or for the consequences of any modification or cancellation of any course, or part of a course, offered by the University but will take into consideration the effects on individual students and seek to minimise the impact of such effects where reasonably practicable.

5. The University cannot accept any liability for disruption to its provision of educational or other services caused by circumstances beyond its control, but the University will take all reasonable steps to minimise the resultant disruption to such services.

University rules, regulations and policies

As a condition of enrolment, all students will be required to abide by and submit to the University's Rules, Regulations and Policies, including Student Conduct Regulations, Academic Regulations, Library and Computing Regulations and Health and Safety Rules. These may be viewed at: **napier.ac.uk/regulations** or may be requested by email to: **studentrecruitment@napier.ac.uk.** Our terms and conditions are available on **mynapier.ac.uk.**

Equal Opportunities

Edinburgh Napier University is committed to providing learning opportunities for all and is aiming to create an environment in which students are selected solely on the basis of merit. It is committed to equality of opportunity for all and will not unlawfully discriminate on any grounds.

Data Protection

Edinburgh Napier University processes personal data in compliance with the Data Protection Act 2018. Please visit **staff.napier.ac.uk/dpstatements** for more information.

Sustainability

At Edinburgh Napier University we are committed to reducing the environmental impact of our activities. With a dedicated Sustainability Office, working with all students and staff, we are striving to create an even more environmentally aware ethos. For further information, contact: **sustainabilityoffice@napier.ac.uk**
